GOOD FOR HERMANN

Astoria's Harbor Front to be Surveyed and Improved

WORD FROM BINGER HERMANN

Action of the Chamber of Commerce Bears Fruitful Results—The Memorial to Congress

On the 14th inst. the chamber of commerce of this city, in pursuance to a resolution passed at a special meeting on the 12th inst., sent the following memorial to congress:

To the Honorable the Congress of the United States of America, in Washington assembled:

The chamber of commerce of the city of Astoria, Oregon, respectfully petitions your honorable body to issue an order to have an examination made by the war department of the harbor of Astoria, Oregon, with a view of devising means for its protection and improvement:

And, also, to grant an appropriation sufficient for that purpose.

G. WINGATE, President. E. W. TALLANT, Vice-President. Attest: E. C. HOLDEN, Secretary of the Astoria Chamber of Commerce. March 14, 1894.

A copy of the following letter was also sent at the same time to each of our representatives:

Astoria, Ore., March 14, 1894. Hon. Washington, D. C.—

Dear Sir: At a special meeting of the Astoria chamber of commerce, held on the 12th inst., it was resolved to memorialize congress to order an examination made, by the war department, of the harbor of Astoria, with a view of devising means for its protection and improvement.

And, also, for an appropriation to be made in the new river and harbor bill sufficient for that purpose.

The members of the chamber respectfully request that you will give this matter your earnest attention and exert your influence to secure favorable action at this present session of congress.

I am instructed to call your attention to an official report of "The examination and survey of the Lower Willamette and Columbia rivers," transmitted to the house of representatives by the acting secretary of war, Hon. L. A. Grant, and referred to the committee on rivers and harbors, January 5, 1892. (See Ex. Doc. No. 38, 52d Congress, first session, H. of Rep.), in which, on page 14, Col. G. H. Mendell, corps of engineers, division engineer, Pacific division, in a letter to Brig. Gen. Thomas L. Casey, chief of engineers, U. S. A., says:

"Lower Bay.—Vessels have always passed to and from the ocean below Tongue Point by way of the southern channel, which lies in front of Astoria. This channel appears to have deteriorated. Preservation of the capacity of this channel in its former integrity is regarded as an important feature," etc.

Observation shows that the ship channel in the harbor has deteriorated and is undergoing changes which, unless prompt action be taken by the general government, will result disastrously to the commercial interests of the city of Astoria. Since the construction of the Columbia river jetty vessels of larger tonnage and deeper draught than formerly enter the river, and it is certainly of paramount importance that the harbor of Astoria should be protected and improved in proportion to the magnitude of the work performed by the government at the mouth of the river.

Leaving this important matter to your able management, on behalf of the chamber, I remain, yours very respectfully, E. C. HOLDEN, Secretary.

Our representatives in Congress, with their customary promptness, have given this important matter the attention which it demanded, and yesterday the following dispatch was received:

Washington, D. C., March 26, 1894. Editor Astorian, Astoria, Ore.: Have secured provision in river and harbor bill for survey of Astoria harbor front, with view of improvement and maintenance. BINGER HERMANN.

President Wingate, of the chamber of commerce, also received a similar dispatch.
