THE ISLANDER.

In Port From Vancouver, With Three Hundred Chinese on Board.

The English-built, twin-screw, steel steamer *Islander*, of 1,495 gross tons, belonging to the Canadian Pacific railroad, and registered as having a speed of 15 knots, arrived at this port from Vancouver, at 5:45 p. m. yesterday, having on board over 300 Chinese, destined for Astoria and Portland. Soon after dropping anchor she was boarded by the health officer, who made some preliminary examination of her papers and people, but owing to the lateness of the hour of her arrival he decided to defer a more extended examination until this morning. Her papers show a clear bill of health, but on account of the prevalence of contagious diseases at some of the ports at which she touched, it was decided to hold her well out in the harbor until after the final inspection this morning, and in the meanwhile not to permit any of her people to land.

While engaged in his rounds on the vessel, very much to his astonishment, the doctor ran across a certain citizen of Astoria, who, being unable to control his exclamation at the sight of the flag of the ship's nationality, procured a boatman and boarded the vessel without waiting for the officer's permission. The unhappy consequence of which piece of folly was that the aforementioned citizen, under the peremptory orders of the officer, was obliged to accept the hospitality of the vessel until the completion of the doctor's somewhat tedious inspection this morning.

TO CITY SUBSCRIBERS.

The attention of the city subscribers to The Daily Astorian is kindly called to the fact that the route agent, Mr. Rannells, is directly responsible to this office for every paper he delivers, and gives us a check in full on the first of each month for all papers delivered. We respectfully urge all subscribers to be prompt in their payments, as it is entirely optional with the route agent whether he carries those who are in arrears on his list or discontinues them. The amount due from each is small, but multiplied by a large number, and carried over from month to month, it becomes a serious burden to Mr. Rannells.

LOOKS INCONSISTENT.

Ten thousand men in the Pennsylvania coke regions are on a strike because of disagreement with their employers. Ten thousand or more are on strike in Chicago for the same reason. Some other thousands employed in the bituminous coal mines of the entire country have been ordered by the head centres of their organizations to quit on the 21st. And yet armies of unknown thousands, who have no work of any kind to quarrel with, are marching on Washington to tell congress why it is that work is so hard to find. The situation is a peculiar one.—Exchange.

THE OATS ARE PLANTED.

Mr. P. Peterson, a farmer from near Stella, was in the city yesterday. He says most of the oats have been sown in his neighborhood, and he is only awaiting good weather to put in his potatoes. He has over 200 sacks of potatoes on hand from his last year's crop, which he would have brought in to sell long ago if the roads had been passable.

A STANDARD BEERER.

In the crusade inaugurated nearly half a century ago against the professional ignorance of the old school of medicine, Hostetter's Stomach Bitters was a standard bearer. Its victories over disease, when the old time specifics proved abject failures, proved that the pseudo-philosophy which sanctioned the administration of violent remedies where the case required none, which laid down as unalterable rules blood-letting, violent purgation, the use of emetics and the employment of corrosive and cumulative poisons in simple cases of liver and material complaint, was in fact the worst of unphilosophy, contrary alike to the laws of true medical science, of hygiene and of common sense. Biliousness, constipation and chills and fever, as now treated by the Bitters, promptly yield where before they obstinately resisted old fashioned medication. So do dyspepsia, rheumatism and kidney complaint—all purely curable by this safe and really philosophic remedy.
