## Kitchen Extension.

University Extension is good, but Kitchen Extension is better. Wider knowledge of better cooking processes means better health and comfort for everybody. Science can never do us better service than by the multiplication of the cooking schools which make healthful means and methods available for even the most modest home.

The vegetable substitute for lard, is science's latest gift to the kitchens of the world. Every woman who has ever cooked a meal, knows that lard is disagreeable in use and unhealthy in its effects.

Cottolene is a most satisfactory substitute - clean, delicate and far more economical. At your grocers. N. K. FAIRBANK & CO., ST. LOUIS and CHICAGO, NEW YORK, BOSTON.
