

GREAT NORTHERN STRIKE.

Northern Pacific Methods Being Used in Fighting the Strikers.

St. Paul, Minn., April 18.—The Great Northern is showing its fighting methods to be much the same as in the case of the other roads in the hands of receivers. On Monday information was sworn out which will be filed in the United States district court in its territory asking an injunction restraining the striking employes from in any manner damaging property, breaking up tracks or interfering with the business of the railroad, or interfering with the men who want to continue work, or who may be brought in to take the places of the strikers. This will be taken into court soon.

Later—in the circuit court of the United States for Minnesota and North Dakota, Judge Sanborn issued orders enjoining the strikers and others from interfering with the business of the Great Northern railroad.

NOT TO BE UNSEATED.

Washington, April 18.—The feeling among leading members of the house of representatives is that no action could be taken concerning the Breckenridge scandal, although one of the best lawyers in the house said the constitution gave ample authority to do so. The precedents cited, however, deal almost exclusively with offenses of a personal nature committed on the floor of the house. Some of the members interviewed declared that no action can be taken on the numerous petitions which are said to be on the way to the house, demanding the expulsion of Breckenridge. It is pretty generally admitted that no action on the petitions will be taken further than allowing them to be read.

FAITH CURIST DEAD.

Portland, April 18.—Mrs. George H. Williams, wife of ex-United States Attorney General Williams, died at her home in this city today. She has been in feeble health for some time, and her death was not unexpected. The deceased was a conspicuous figure in Washington society for ten years, while her husband was United States senator from this state and attorney general in President Grant's cabinet. In recent years she became a convert to the faith-cure belief, and spent most of her time in that work. Her spacious residence in this city for the past seven years has been thrown open twice a day to the faith curists, who held their meetings there. She was born in Shepardtown, Virginia, in 1832.

GRAIN CONGRESS ADJOURNS.

Wichita, Kas., April 18.—The National Grain Congress, which has been in session here during the past two days, adjourned here today to meet again at New Orleans the second Tuesday in June. Strong resolutions were passed throwing off the yoke of the east and advocating the closest commercial relations between the west and south.

CLOSED ITS AFFAIRS.

San Francisco, April 18.—The citizens' executive committee for the relief of the unemployed wound up its affairs today. During the past winter the committee paid to laborers \$92,000 raised by subscription. The laborers were employed in the road constructions at Golden Gate park.

RACING AT FRISCO.

San Francisco, April 18.—Following is the result of the races today:
Five furlongs—Long D'Or, 1:04.
Half mile—Circe, 0:50.
One mile—Hotspur, 1:42 1-2.
Six furlongs, handicap—Alesia, 1:15.
Six furlongs—Londonville, 1:14.

MARINE NEWS.

The British ship Hagsdale, wheat laden, left Portland last night, bound down.

It is said at San Francisco that the steamer Mexico will soon be put on the Puget Sound route, in place of the Queen. The latter vessel will undergo an overhauling and prepare for her summer excursions to Alaska, which will begin early in June.

The Panama railroad has chartered the steamer Saturn to carry freight between San Francisco and the isthmus. It is stated that the Panama company will operate three steamers on this Coast, to take the place of the North American Navigation Company's vessels.

The steamer Point Loma came in Monday with 56 tons of freight from San Francisco. She now has competition on Gray's harbor, as the steamer Cosmopolis, of the Slade Lumber Company, has begun carrying freight. She has been carrying lumber to Frisco for some time, but not until last trip did she carry freight. The Point Loma has made a cut in passenger rates to \$12.50 for the round trip to Frisco, or \$7.25 one way.—South Bend Journal.

The title admiral is a modification of a Latin word, signifying commander. In the sense of a naval commander it was introduced into Europe by the Venetians in the 14th century. The English lord admiral has the government of the navy. The admiral of the fleet is the next highest officer; the vice admiral and the rear admiral follow. The admiral's flag is displayed at the main top-gallant-mast head, the vice admiral's at the fore-top-gallant-mast head, and the rear admiral's at the mizen-top-gallant-mast head.

KEEP UP WITH THE TIMES.

Don't cling to the imperfect things. Do you use cereal foods on your breakfast table? Then you need cream. Borden's Favorite Brand Evaporated Cream is decidedly superior in richness and flavor to ordinary milk or cream.

ARBOR DAY EXERCISES.

The Clatsop School Observe the Day With Appropriate Ceremonies.

The following has been received from our Clatsop correspondent:

Clatsop, April 17, 1894.
Editor Astorian: The pupils of Clatsop school observed Arbor Day, in accordance with the Oregon school law, Friday afternoon, April 13. The inclemency of the weather prevented a large attendance, but those who were present joined heartily in the work and seemed to enjoy the exercises throughout.

The following program was rendered: Recitation, "Welcome," Ethel Waterhouse; reading of law concerning Arbor Day, Paul West; song, "The Leaflets," school; recitation, "Somebody's Mother," Lena Ober; reading, "The Nobility of Labor," George Adams; recitation, "Ten Little Friends," Harriet Waterhouse; reading, "Facts About Trees," Henry Ober; recitation, "Helping Mamma," Virginia Carmahan; reading, "An Indignation Meeting," Edward Lowe; recitation, "Woodman, Spare That Tree," Nettie Adams; reading, "Heads," Thos. Roberts; song, "We Plant the Trees," school; reading, "The Modern Fraud," Will Adams; recitation, "Boys Wanted," Fred Ober; recitation, "Birds in a Nest," Mary Roberts; recitation, "I Wish," Carl Ober.

An address on the schools of Germany was given by Mr. Henry Ober and one on the schools of England by Mr. Alex. Tagg. Mr. D. F. Stafford favored the audience with a vocal solo with violin accompaniment.

The school and visitors then worked industriously for an hour setting out forty-three trees of various kinds. During the time the work of setting out trees was going on, the ladies had prepared a sumptuous repast in the school house, and all were afterward invited to partake of such dainties as only the Clatsop ladies know how to provide.

Luncheon over, the pupils marched to the trees and three trees were named, one in honor of Washington by Tappan Stafford, one in honor of Whittier by Parker West, and one in honor of Josiah West by Mr. Ober.

The pupils of Seaside school had accepted an invitation to be present in a body, but were prevented by the condition of the weather. ROSCOE.

UNDECIDED YET.

In answer to a letter of inquiry sent to Mr. F. M. Warren, of Cathlamet, regarding the salmon cannery at the narrows, which burned down recently, and of which he was the owner, he writes that it has not as yet been decided whether or not the cannery will be rebuilt, or what will be done. He adds that arrangements were pending to lease the cannery to the Alaska Packing Association for the canning season, and that it was to have been in active operation. The cannery, he says, was partially insured.—Nehalem Journal.

THE ISLANDER'S CHINESE.

Forty-five of the ninety-five Chinamen on the steamer Islander intended for this port have been formally landed within the past two days. They are an unusually intelligent looking set. The officers of the steamer have been very courteous and accommodating to the government officers, and have rendered them all the assistance in their power. Mr. Charles W. Johnson, special agent of the treasury department, called here by the collector of the port, will remain until the Islander goes up the river.

COME TO HIS SENSES.

A Populist was heard to make the remark a short time ago that he thought the railroad would be built this summer. When asked why he thought so, he said the Republicans are making such gains in the east that he can see a change in financial affairs already. He says if the Republicans are victorious in Oregon next June the railroad will surely be built to Astoria this year. This Populist has just woke up, and a good many more will before June.—Nehalem Journal.

RESULT OF THE INQUEST.

The coroner's jury called to investigate the identity and cause of death of the body found below Sand Island day before yesterday, decided it to be the remains of the second mate of the British bark Hollywood, who was drowned while that vessel was at this port by falling into the river on attempting to go aboard at night in a state of intoxication.

WHEN, OH WHEN?

One hundred and fifty dollars more of Astoria's good money goes to Portland. W. T. Beveridge has just received a bevelled glass cigar case, with stand to match, from that city. When Astoria has shipping facilities these things can be made right here at home, where lumber is less expensive and labor just as cheap.

WILL NOT ARRIVE TODAY.

Miss Host Megler does not expect the eastern railroad capitalists today. They are in Portland, and are waiting there the arrival of other parties before starting for this city.

A WARM WEATHER SIGN.

Thousands of geese were flying north over the city yesterday. This is a good sign. Let fair weather and football begin. We are all ready for the former, anyway.

A NEW JOB.

The street commissioner can find a job this morning opposite the Central hotel. One of the planks in the road is broken badly.
