ATTEMPTED SHOOTING

President of a Defunct Bank Shot at Five Times.

A VERY NARROW ESCAPE

Frenzied by the Loss of His Money a Depositor Attempts to Shoot J. K. Edmiston.

Associated Press.

Walla Walla, April 23.—Considerable excitement was caused this morning over the attempted shooting of J. K. Edmiston, president of the defunct Walla Walla Savings bank, by H. C. Tobin, one of our most prominent citizens. Saturday evening Edmiston was released from the county jail on giving bond in the sum of \$1,500 to appear in superior court next month to answer the charge of receiving money for deposit when he had knowledge the bank was insolvent. This morning, while Edmiston was standing on the street talking with John Thoney, a depositor of the bank, Tobin came up, and drawing a revolver shot at Edmiston, but missed him. Edmiston turned around and ran down the street, followed by Tobin, who fired four more shots, without effect.

Several citizens caught Tobin and took the pistol from him, and Edmiston then ran into a residence and hid himself.

Tobin was arrested and taken before a justice of the peace, where he pleaded guilty to the charge of assault and was fined \$20 and costs.

The shooting is the result of the failure of the bank. Tobin was a depositor in the sum of \$5,000, and claims that a few days before the bank suspended he demanded his money, but Edmiston put him off for several days. Meantime the bank became insolvent. Ever since Edmiston was acquitted of the charge of embezzlement by the jury at Pomeroy, public sentiment against him has run high, and many rumors that his life was in jeopardy have been current.

Tobin is one of the most prominent business men in the city and lost all he had by the failure of the bank, and this, with other minor troubles weighing upon his mind, it is supposed, produced a sudden impulse and caused his action.

DOINGS IN THE SENATE.

Washington, April 23.—Senator Washburn, of Minnesota, consumed almost the entire forenoon in a speech against the tariff bill, which was mainly a protest against the abrogation of the reciprocity clause of the McKinley bill. He believed the Wilson bill, in some form, would be enacted into a law. The few minutes that remained before the time Washburn concluded his speech and the hour of 5 o'clock, Senator Dolph occupied with an installment of his speech.

During the morning session a bill was introduced, by request, by Peffer, "to dispose of the idle labor and discourage idle wealth in the District of Columbia," which was referred to the committee on the District of Columbia. He also sought to take up from the calendar his resolution for the appointment of a committee on communications—his Coxey committee—but the motion was lost—17 to 26.

The house bill for the protection of birds and animals in Yellowstone National Park was passed.

THE RESOLUTION DEFEATED.

Washington, April 23.—In the senate today Peffer's resolution for the appointment of a committee to receive the petition of Coxey's army was defeated by a vote of 26 to 17.

GOLD BY A NEW METHOD.

Olympia, Wash., April 23.—Gen. Don Carlos Buell, an officer prominent in the late rebellion, called on Gov. Ferry today on his way to Westport, where he is erecting a plant to recover the gold from the black sand along the coasts of Oregon and Washington. The plant is located at Westport, and consists of a number of tanks and a powerful electric battery. The gold is dissolved from the sand by a solution discovered by Buell as the result of 35 years of study as a chemist. The solution is drawn from the tanks, and by the application of electricity the gold is separated, the same as in electro-plating. The electrical methods of the new discovery are said to be similar to Edison's idea. Gen. Buell says the sand will yield \$10 of four gold to a ton, and that enough exists on the surface of Oregon and Washington beaches to pay the national debt. He also has tests of platinum, which yield even better than gold.

IMPORTANT LODGE DECISION.

Topeka, April 23.—Judge Hazen, of the district court, today decided the celebrated case of Reno Lodge vs. the Grand Lodge of the Independent Order of Odd Fellows, giving an opinion that the grand lodge has the right to levy a

per capita tax for the support of the Debonaire Odd Fellows' Home in Franklin county. The court recites that the sovereign grand lodge is duly authorized to make such levy, and the grand lodge of Kansas has a perfect right to make the assessments. The decision is of national interest and effects not only the order of Odd Fellows, but all secret orders.

AN OLD EMPLOYEE LET OUT.

The Oldest Clerk in the Surveyor General's Office Replaced.

Olympia, April 23.—The first change in the surveyor general's office here was made today. Under the new administration William S. Carruthers, of Everett, Skagit county, is to replace A. B. Cowles, the oldest and highest salaried chief clerk in any surveyor general's office in the United States. He has held that position for 21 years. The change was made through political exigencies, and will be followed by other changes in minor clerical berths. Cowles' successor was an applicant for the office of surveyor general, but withdrew in favor of the present incumbent. A general reduction in salaries has been announced. The chief clerk is reduced from \$2,500 to \$1,800, and other employees are cut 10 per cent. This is through a circular letter received from the department revoking the authority of surveyor generals throughout the United States to fix the salaries and appoint clerks. The salaries of employees in the offices of the several states will be equalized, and all appointments must be submitted to the commissioner general of the land office for his approval.

THE SURVIVORS

Of the Steamer Los Angeles Agree That the Second Officer Was at Fault.

Monterey, Cal., April 23.—Capt. Leland and the other survivors of the steamer Los Angeles are momentarily expected to arrive here from Point Sur lighthouse. Five bodies have been so far recovered, four of which were taken dead from the water and one died on shore from injuries received by being tossed about on the rocks. The masts of the Los Angeles are about 10 feet above the water, but she is breaking up and will be a total loss. All the survivors seen agree that the disaster was caused by the negligence of Third Officer Rickedel, who failed to call Capt. Leland when instructed, and who steered the vessel from her course.

AN EXCITING EXPERIENCE.

Spokane, April 23.—A party of editors of the leading rural journals from Illinois, Indiana, Missouri, Ohio and Minnesota, under the guidance of E. V. Smalley, of the Northwest Magazine, had an exciting experience here today. The team to one of the carriages in which they were viewing the city ran away, and the carriage was smashed to splinters in a collision. The driver was severely injured, and three Spokane citizens who were serving as guides were badly hurt. The visitors escaped with slight injuries.

EARTHQUAKE IN GREECE.

Athens, April 23.—There were several slight shocks of earthquake here last night and today. Telegrams received from the shaken districts represent an appalling aspect of affairs. Whole villages are in ruins and the citizens are camping out, and in many cases are entirely without food. The total number of deaths is 27, of which 130 were killed in Malesordia alone. The king and Prince Nicholas arrived today at a village near Atalanti.

INDIAN CITIZENSHIP.

Washington, April 23.—Senator Dolph today introduced a bill in the senate, the intent of which is to define Indian citizenship. It provides that all Indians or mixed bloods, who have been allotted lands in severalty, shall be considered citizens of the United States, and in the cases of persons claiming lands under the allotment act, have the right to bring suits to establish their rights in the courts, as may be done by any citizens.

HOME AGAIN WITH MONEY.

New York, April 23.—The steamship Havelind has arrived from Rio de Janeiro, bringing nearly all the American officers of the dynamite cruiser Nithe-roy. Of the crew of 248 persons, all but six have safely returned. Three men died, and a fourth was murdered in Rio. Each officer has at least \$5,000 to show for the winter's cruise.

WANT A CONVENTION.

Denver, April 23.—A. C. Fiske, president of the Pan-American Bimetallist Association, has issued a call for a convention at Washington on May 22, the convention to be composed of representatives from the United States, South and Central America and Old Mexico.

STEAMER LIBELLED.

San Francisco, April 23.—W. A. Swinerton has filed an additional libel in the United States district court against the steamer Willamette Valley, to recover \$2,625.

ENFORCING DISCIPLINE

Gen. Kelly's Army in a State of Mutiny.

A PROCLAMATION ISSUED

The Coxeyites Warned to Keep Away From Washington—Other Industrial News.

Associated Press.

Neola, Ia., April 23.—Kelly's industrial army awoke today to find a state of mutiny. Col. Baker was expelled for telling the men they could leave the camp, contrary to Kelly's orders. Col. Kelly also ordered three men of company C transferred for quarreling. The company objected to the transfer, and Kelly ordered it disbanded. He said the men might join other companies, but they must follow orders. Some of the men openly accused Kelly of appropriating funds donated to the army.

Col. Speed, to whose regiment company C belongs, was appealed to, but Kelly was obdurate. He ordered the men to give up their badges and leave. Col. Speed then addressed the company, saying that in a movement like this men must be sacrificed to principle, and that he must leave them. He then bid them an affectionate adieu and joined the main body. Capt. Moss asked the men if they would follow him east. "Col. Speed will bring Kelly around," he said, "and we will be back in the army before tomorrow." After a brief consultation the men declared their willingness to go. They gave three rousing cheers for Speed, and passed the army, drawn up along the wagon road, and started up the St. Paul railroad track for Avoca, where the army is to spend the night. Kelly's army now numbers 1,330, exclusive of officers.

WARNED TO KEEP AWAY.

Washington, April 23.—The commissioners of the District of Columbia today issued a proclamation regarding the industrial army, now moving on to Washington. The proclamation says: "The commissioners, while in direct sympathy with all people out of employment, and having no desire or purpose to deal harshly with all honest men, who seek relief by reasonable and lawful means, are in duty bound to give notice to those who are tempted, under any pretext, to swell the number of unemployed persons already here, that there is neither work for them nor means for their maintenance in the district; that the law does not permit the soliciting of alms in our streets, and forbids the parade of assemblages or orations in the capitol grounds and obstruction of any public grounds, streets, highways or of avenues and approaches to public or private buildings.

"The commissioners give notice, also, that criminals and evil-doers who, under the cover of unemployed men in our streets, may come for the purpose of crime and disorder, that all such will be apprehended and summarily dealt with.

"And, finally, they give notice to all that come here against their advice and protest, that the laws in force in the District of Columbia are adequate for every emergency, and will be rigidly enforced."

TO DEFFY THE PRESIDENT.

New York, April 23.—Gen. Coxey, the commander in chief of the army of the commonweal, was asked:

"How do you view Mr. Cleveland's proposed proclamation concerning your army's visit to the capitol?" He replied: "We shall march on to Washington, regardless of Mr. Cleveland's proclamation. Before he can legally make a movement against us he will have to get us to violate some law. It would be in violation of the constitution for him to prohibit our right of free speech in the capitol."

WARNING TO COXEYITES.

Washington, April 23.—The commissioners of the District of Columbia took action today on the impending Coxey invasion. A manifesto was prepared, which calls attention to the fact that the fight to petition does not extend to the lengths to which the Coxeyites ap-

pear to imagine. Those who meditate coming to the capital are warned that only hardship and privation await them here, and that no good can come from the proposed pilgrimage.

RETURNED TO OAKLAND.

Oakland, April 23.—The San Francisco and Oakland detachments of the second regiment of the California industrial army were returned here by force today. After reaching San Pablo, a short distance east of this city, the army spent last night in carousing, and this morning a free fight broke out among the leaders. Today an eastbound freight stopped at San Pablo, and the industrialists climbed aboard. The engineer uncoupled his locomotive and hitched to the rear of the train and pulled it back to Oakland, bringing nearly the entire army with him.

IN ALL HIS GLORY.

Washington, April 23.—"Unknown" Smith, the late redoubtable lieutenant of Gen. Coxey, strikingly arrayed in a brown velvet coat and vest, white riding trousers and leggings, bedecked with jewelry, reached Washington today and appeared at the local Coxey headquarters.

INDUSTRIALS VACCINATED.

Terre Haute, Ind., April 23.—The county board of health today vaccinated all of Frey's band. It is expected the Vandalla road will take the army to Indianapolis.

AT BIRMINGHAM.

Serious Trouble in Expected and Many Arrests Made.

Birmingham, Ala., April 23.—The striking miners marched into town today, 5,000 strong. Gov. Jones has established his headquarters here, and is holding close communication with Sheriff Morrow and the officers of the second regiment. Trouble is expected hourly. Many arrests have been made at the mines for intimidation, and 60 new deputy sheriffs have been sworn in.

TRAINS RUNNING.

St. Paul, April 23.—Trains were sent out from this city on time today, and Great Northern officials say they expect no further trouble. They expect trains to go through to Great Falls without interruption. No conference has yet been held. Nine strikers were arraigned before United States Commissioner Spencer today, charged with obstructing the mails.

BRICKMAKERS' STRIKE.

Chicago, Ill., April 23.—One hundred and fifty striking brickmakers went from Blue Island, a suburb near this city, to Schererville today and insisted that the men employed at that place quit work. The employers called on the sheriff, who sent deputies at once. Serious trouble is expected, as the strikers are promised reinforcements.

MORE OFFICERS THAN WORKMEN.

Detroit, April 23.—Work was resumed here today on the water works extension at Grosse Point by 20 shovellers, protected by 165 officers. The Poles are following the advice of their priests to keep away from the place.

THE NUMBER INVOLVED.

Columbus, April 23.—Latest reports recd by the president of the United Mine Workers' Union show that 135,000 men have suspended work.

TO BURN AMERICAN COAL.

Washington, April 23.—Secretary Herbert has given instructions that the vessels of the seal fleet shall take on coal mined in the state of Washington, tests having shown that it may be suitable.

WISH WE WERE POPE FOR A DAY.

Rome, April 23.—The Spanish pilgrims whose pilgrimages to Rome have extended over the past fortnight, have given money contributions to the pope aggregating 1,200,000 francs.

RIOT IN HUNGARY.

Buda Pesth, April 23.—Three hundred workmen engaged in a riot here Sunday. The grand' armies fired into the mob, wounding six. Sixty of the mob were arrested.

OBJECT TO BOOKMAKING.

Washington, April 23.—The house today, by a vote of 87 to 63, refused to pass the bill permitting bookmaking at races in the District of Columbia.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
