TO PROTECT THE SEALS

England Will Aid the United States.

OUR FLEET LARGELY REDUCED

Senator Morrill Jokes the Democrats on the Tariff Amendments.

Associated Press.

Port Townsend, May 8.—There is good reason to believe that Capt. Clark, the commander of the Behring Sea fleet, has received instructions to delay sailing for the north for two or three weeks. It is said that since the British government has decided to heartily co-operate in the work of suppressing illegal sealing, and has dispatched men-of-war to the north to warn Canadian sealers, the authorities at Washington have decided it is unnecessary to send so large a fleet north. It is quite probable a number of the vessels here will be ordered to a southern station.

IN THE SENATE.

Washington, May 8.—There was promise of an electrical display in the senate when that body met today. The Republicans were active and disposed to ask some embarrassing questions concerning "compromise amendments" offered to the tariff bill yesterday. Senator Hoar, of Massachusetts, took the floor on the tariff bill. Toward the close of his speech Hoar succeeded in arousing the ire of Gray. He was talking about the methods used by so-called conservative Democratic senators to secure concessions in the form of higher duties, and concluded his statement by declaring that Democratic senators who would support a compromise bill agreed upon by a Democratic caucus would violate the constitution and their oaths. This brought Gray to his feet. He demanded to know what the Massachusetts senator meant by such charge—a charge which, he said, "was unworthy of Hoar."

Hoar waived the Delaware senator aside. "He would refuse to yield to him," he said.

But Gray insisted upon an explanation. "Very well," said Hoar, "I cannot be intimidated by a little bluster, but I will explain. I meant to say that for a Democrat, who subscribed to the doctrine of the Chicago platform that tariff protection was a robbery; one who went to the people affirming his allegiance to that platform, and who now comes here seeking protective duties, I say that for such senator there is no escape from the logic that he has violated both his senatorial oath and the constitution."

After further controversy between Gray and Hoar and some remarks by Palmer, of Illinois, the discussion was closed by the venerable senator from Vermont, Mr. Morrill. When the author of the war tariff, white-haired and bent with age, arose in his place, a smile was playing about the corners of his lips. As he had on previous occasions said something in derogation of the Democratic tariff measure, he desired now to say something in approbation. The 400 amendments to the tariff bill offered yesterday showed that, after listening to the Republican speeches for six weeks, the Democratic senators had learned something. If the tariff bill was laid aside for a month and that time were devoted to the study by his friends on the other side of the chamber, he thought at the end of that time they would bring in a bill which would be perfectly acceptable to the Republicans, and which would pass the senate unanimously. The senate seemed to enjoy the joke.

When Morrill took his seat Quay appeared from behind his huge pile of manuscript and resumed the speech he has been delivering since April 15.

WILL BE BLOODSHED.

Connellsville, Pa., May 8.—The Fricks Coke Company is collecting men at all their works, and will start one plant at a time. If this is unsuccessful, new men will be brought into the region, and there will be more rioting. The strikers have posted a notice, headed by a skull and crossbones, with the following written underneath in red: "Death. All men who go to work at Hill Farm tomorrow, prepare to meet your God."

CANNOT GRANT LICENSES.

Columbia, S. C., May 8.—The supreme court today declared that under the law as it now stands there is no authority vested with the power to grant licenses for the sale of liquor in this state, and the action of the Florence city council in granting such license is void.

ALLEGED EMBEZZLER.

Dennison, Tex., May 8.—Gov. James Wolf of the Chickasaw nation, indicted by the grand jury on a charge of em-

bezzlement, the amount being between \$25,000 and \$75,000, has been arrested. After the arrest he removed Judge Joseph Kemp from the Chickasaw bench and appointed Isaac Burrows as successor. Kemp has refused to give up.

TO INVESTIGATE INDUSTRIAL TROUBLE.

A Resolution to Be Offered for the Appointment of a Joint Committee.

Washington, May 8.—Chairman McCann, of the house committee on labor, has completed a joint resolution for a congressional investigation of the industrial unrest, and incidentally of the Coxe case movement. It will be presented to the labor committee tomorrow. It is as follows: "Resolved, by the senate and house of representatives, that a joint committee be appointed, consisting of three senators to be appointed by the president of the senate and four representatives to be appointed by the speaker of the house, whose duty it shall be to investigate and report, within 30 days, the cause of the industrial depression; the responsibility for so much distress throughout the country, and what legislation will induce and preserve industrial and financial conditions that will offer a speedy, permanent and lucrative employment to the citizens of the United States."

WEATHER AND CROPS.

Report for the Pacific Coast for the Past Week.

Washington, May 8.—The weather bureau, in its report of the weather and crop conditions for the week ending May 7, says: The week was cool on the Pacific Coast, except over the interior valleys, where the heat and dry weather proved unfavorable to hay, grain and pastures. There was a total absence of rain in California, with light showers on the North Pacific Coast. In Colorado the season has been unusually dry, and small grain and pastures have been very much damaged by the drought, but the North Pacific Coast has been favored and there has been a slight excess of rainfall over Washington and Oregon.

RIOT SMOTHERED.

Birmingham, May 8.—The prompt action of the governor in calling the troops to arms smothered the incipient riot in the coal district, and today 200 negro coal miners were put to work without hindrance at Blue Creek, Tenn. The Coal, Iron and Railroad Company has commenced to evict the strikers.

NO DILATORY MOTIONS.

Washington, May 8.—Senators Aldrich and Allison, who are in charge of the Republican side of the tariff, today said to Senator Harris that the Republicans would observe the understanding in favor of the tariff debate, and that there should not be any dilatory motions.

ON THE RISE.

New York, May 8.—The low records for wheat were broken on the first sales today, May opening at 59-1-2 and July at 61-1-4. There was an immediate improvement in values, but at noon, under free selling, May declined to 59-5-8 and July to 61-1-6.

RUNS IN THE FAMILY.

Healdsburg, Cal., May 8.—George Gebauer, an 18-year-old boy, today shot and killed himself. Inability to secure work is given as the cause. His father committed suicide by hanging several months ago.

FOR PRESIDENT.

Minneapolis, Minn., May 8.—A Sioux Falls, S. D., special to the Journal says that S. B. Kyle, of South Dakota, is being groomed for the Populist nomination for president.

A VETERAN GONE.

Indianapolis, May 8.—Col. Joseph Moore is dead, aged 65 years. He planned and constructed all the pontoon bridges used by Sherman on his march to the sea.

CANADA INTERESTED.

There are not a few people who are building tolerably high anticipations upon the early carrying out of the Nicaragua Canal, which they say will cause British Columbia and the Pacific Coast country to become the main source of supply of lumber, wood pulp, etc., for European markets. It now takes four, five and six months for vessels to reach Great Britain by way of the Horn, while by the Nicaragua Canal the passage can be made by sail without transshipment in about sixty days, steamships completing the voyage in from twenty to thirty. Besides, Canadian Pacific railway people are reported to have said that they are able, in conjunction with steamers on the Nicaragua Canal route, and their branch lines into the British Columbia mining country, to ship ores to Swansea as cheaply as to San Francisco.—Journal, Victoria.

COXEYITES CONVICTED

They Give Bond and an Appeal Is Taken.

INDUSTRIALS GETTING EAST

A Cyclone in Indian Territory--Rumors of War in Buenos Ayres.

Associated Press.

Washington, May 8.—The jury in the Coxe case returned a verdict finding Coxe, Brown and Jones guilty of carrying banners in the capitol grounds, and on the charge of walking on the grass Coxe and Brown were found guilty and Jones not guilty. A motion was entered for a new trial.

Thus ends what, as the leaders stated, is "the greatest march of the nineteenth century."

The jury retired at five minutes before 1, after hearing a long charge from the judge, which lent little alternative but to convict, if they followed his leading. At 4 they returned.

Attorney Liscomb immediately entered a motion for a new trial and another in arrest of judgment. Judge Miller then gave him four days to file the formal papers.

Frank Hume, the well known wholesale grocer, who several times has run for the Democratic nomination for congress in Virginia, signed a bond in \$500 each for the convicted commonwealers.

Coxe said it was evident that this conviction was not for what he did, but because of the principles in behalf of which he had announced himself.

Carl Brown remarked: "I was surprised at the conviction of Brother Coxe, because he was plainly acquitted by the evidence of any technical violation of the statutes. For my part, I expected conviction."

The punishment which may be meted out to Coxe and Brown is \$200 and 120 days in jail, while Jones is subject to \$100 and 60 days in jail.

ARRESTED ON SIGHT.

Laporte, Ind., May 8.—Randall and his officers are in jail, having marched into the city contrary to the orders of the authorities to march around the city. Sullivan's army is camped one mile south of town. Mayor Scott has promised Randall that his army will be furnished with supplies if they will leave town.

USED THEIR GUNS.

Tacoma, May 8.—A News' special says that several commonwealers who attempted to board a train on the Northern Pacific at Lester this morning were shot by United States marshals.

MOVING SLOWLY.

Portland, May 8.—The Portland industrial army is gradually working eastward in small squads. Gen. Scheffler and the advance guard reached Huntington today.

GO BY THE MISSOURI PACIFIC.

Pueblo, May 8.—The Coxeites have seized an engine and cars and have started east on the Missouri Pacific railroad.

DEATH DEALING WINDS.

Gainesville, Tex., May 8.—One of the most destructive cyclones ever known in the Chickasaw nation has blown down 20 houses. One, occupied by J. C. Humphrey and a family of six, was demolished and the occupants scattered in all directions. Mrs. Humphrey will die. Frank, a ten-year-old son, received fatal injuries.

WAR RUMORS.

London, May 8.—The Argentine consul general informed the Associated Press today that he learned from an outside, but trustworthy source, that a revolution has broken out at Buenos Ayres. The Argentine legation has heard nothing.

FOUND DEAD.

San Francisco, May 8.—Emil R. Bellows, of Portland, Or., was found dead early this morning on the floor in the back room of a Market street saloon.

Below had been drinking hard for several days, and alcoholism was no doubt the cause of death. He was a furrier of Portland.

OFF HIS CHUNK.

Wants to Buy Flowers for Mrs. Lease's Funeral.

Wichita, Kas., May 8.—The chief of police of this city received a letter today from some crank residing at Kenyon, Minn., in which was enclosed \$19 to buy "pure white flowers to be placed on the body of Mrs. Lease on the day of her funeral," which he sets for May 20. He also specifies that part of the money must be used to purchase oil to pour upon her feet. He says the Nazarene came to him in a vision, with a cross of blood on his breast, and commanded him to kill Mrs. Lease on the 20th for her designs to subvert His kingdom on earth, so they might be thwarted. He alleges the Nazarene also told him President Cleveland was a man of honest purpose, who would eventually straighten out the kink that at present threatens the business of the country, and that Prerdagast, the assassin of Harrison, is going to be made an archangel after being hung. Mrs. Lease has been notified of her danger.

NOMINATIONS.

Washington, May 8.—The president today nominated Herbert D. Pierce, of Massachusetts, as secretary of the legation at St. Petersburg, Russia.

NOMINATIONS CONFIRMED.

Washington, May 8.—The senate has confirmed the following: Postmasters—Herman Wise, Astoria; John Williams, Heppner, Or.

BY A CLOSE MARGIN.

Evanston, Wyo., May 8.—At the municipal election today the Republicans elected the mayor by a majority of four votes over the fusion candidate of Democrats and Populists.

A LA BRECKENRIDGE.

Los Angeles, May 8.—"Lucky" Baldwin was today sued in the superior court by Miss Lillian A. Ashley, of Boston, for \$75,000 for seduction.

THE LESSON OF THESE TIMES.

The people are learning a very salutary lesson from the hard times. Of all our national characteristics none were more marked than our extravagance and a thoughtless haste which passed for enterprise. It is said that the laboring classes in England lose more money upon the races than the rest of society. Nearly every one who works for days' wages gambles all he has upon the chances of some horse winning a race. The venturesome spirit which leads to this in England finds expression in this country in the taking of all manner of chances, and in consequence most people in humble circumstances are always perilously near the ragged edge of poverty. It is not that they do not earn enough, but because they spend too much and take chances with their earnings which are as reckless as though they staked their money on the turn of the card. Hundreds of people have added themselves with a load of debt under the allurements of the installment plan, only after paying for months and sometimes for years, to lose every dollar. The notion that it is wise to put something away for a rainy day has become very old-fashioned, and yet there is much wisdom in it. Two things have made France prosperous, frugality in daily expenses and good care of the savings. The French housewife knows how to make much of a little; the French workman knows how to take care of his spare souse.

The events of the past two years have made the people of the United States thoughtful, and have, we believe, taught them a lesson which will not be soon forgotten. It is safe to predict that hereafter there will be less discounting of the future than has hitherto been the rule. But the great lesson the hard times should teach is the importance of saving some money, even if it is only a little. The man who is out of debt and has a little money laid by, we speak now of the laboring man or the man on salary, is as near the independent as he need hope to be. Between being a little ahead and a little behind the difference is almost immeasurable.—Tacoma Ledger.
