COXEYITE TROUBLES.

Yakima Prisoners and Sympathizers Still in Custody.

KANSAS JAILS OVERFLOWING

United States Marshals Have Their Hands Full—Concentrating on Spokane.

Associated Press.

Spokane, May 11.—Col. Phillips arrived in Spokane this morning with the 65 commonwealers who were arrested at Yakima, part of them for engaging in a riot and part for interfering with the trains. They were brought here in order to escape from any trouble that might occur at Yakima and for better protection. The men immediately started back to Seattle, under the guard of deputies. E. J. Jeffries, commander of the Seattle Coxeyites now in Spokane, secured a writ of habeas corpus from Judge Buck to compel the marshal to return the prisoners to Spokane. The wealers are greatly excited, and have been gathering in groups of 10 to 50 all the morning. When dispersed by the marshal they disappear and soon assemble at other places. Jeffries wired the Coxeyites at Tacoma and Seattle to meet the train on the road, as he feared an effort might be made to stop it before it reaches the Sound.

The industrialists complain of being kept in box cars for 36 hours without food or water, and some of them are suffering from injuries received in the recent conflict. The officers deny any cruelty, and say they have been properly cared for, and as soon as the train reaches a safe place on the return trip they will be transferred to passenger coaches. Spokane is likely to be the chief battle-ground from now on.

Word was received here during the night that 129 men had captured two freight cars at Ellensburg and were coming down to liberate the Coxeyites imprisoned in the county jail. The marshals marched to meet the industrialists, and stopped their cars by throwing a rail across the track at a point two miles from the city. The industrialists scrambled out of the cars and started to run, but were brought to a halt by the whizzing of bullets from the rifles of the marshals. Two of them were shot, but not seriously. The others, to the number of 128, were then marched to the county jail and locked up. The marshals had been instructed not to fire without orders, but they claim that the first shot came from the commonwealers. This is strongly denied, but two revolvers were taken from the prisoners, one of which had several chambers empty, and looked as though it had recently been fired. Fifty Coxeyites and a number of Yakima citizens who are accused of inciting the army to resistance were started on an early morning train under heavy guard for Seattle. On account of trouble along the line of the Northern Pacific to the west, trains were moved over the Union Pacific via Wallula and Portland.

A LITTLE FUN WITH HIS GUN.

A Constable Shoots and Kills An Inoffensive Industrialist.

Rocklin, Cal., May 11.—Constable Fleckinger shot and killed Col. Paisley, of the industrial army, early this morning. The industrial army, under the command of Lieut. Gen. Smith, 700 strong, seized a freight train at Arcadia station yesterday and went to Rocklin. Engineer Williams, a member of the party, was placed under arrest by Constable Fleckinger. Gen. Smith and Col. Paisley protested. A quarrel ensued, and Fleckinger drew a pistol and pointed it at Smith, who jumped to one side. The constable shot and killed Paisley. The industrialists became furious and started to lynch Fleckinger. Gen. Smith, however, protected him, and aided him to escape.

FOUR DROWNED.

Ellensburg, May 11.—A report has just been received that four of the men who started down the river this morning were drowned by the capsizing of the boat. Twenty-five wealers started, and the boat got in an eddy and was capsized. One of the survivors, Wright, of Seattle, brought the news here. The accident occurred about two miles below the town. Wright drifted two miles before being able to land. There is no hope of recovering the bodies.

JAILS NOT BIG ENOUGH.

Topeka, May 11.—Marshal Nesley has sent a telegram to Attorney General Olney that there is not jail capacity here, and recommending the Coxeyites be taken to Fort Leavenworth.

THEY TAKE IT EASY.

Topeka, May 11.—Senders' 400 Coxeyites, captured in Western Kansas last night, in charge of United States Marshal Nesley, arrived at Topeka this afternoon. They all wore red badges. As the train pulled into Topeka the industrialists were singing.

ternoon. They all wore red badges. As the train pulled into Topeka the industrialists were singing.

A SENSATION AT CORVALLIS.

Dr. Applewhite Shoots at the Husband and Then Carries Off the Wife.

Corvallis, May 11.—A report reached town at 7:30 p. m. that Charles Kenyon and his wife had been shot by Dr. J. A. Applewhite, treasurer of the state agricultural college. On the complaint of Kenyon, Applewhite and Mrs. Kenyon were arrested recently on a charge of adultery, for which they were indicted by the grand jury, and the case is now pending in the supreme court. Mrs. Kenyon turned state's evidence before the grand jury and the charge against her was dismissed. The shooting affair tonight is the outgrowth of the amour, and is supposed to have been done in a fit of jealous rage. The tragedy occurred near the Kenyon farm house, three miles from town. Kenyon was in town during the afternoon, and after receiving a threatening letter through the mail, he says that he purchased a revolver and cartridges and started for home. He got out to open the gate, when Applewhite stepped from behind a tree and began firing. Mrs. Kenyon, who sat on the seat beside him, leaped from the wagon, exclaiming, "I am shot." She fell, but rose again, when she was seized by Applewhite, who shielded himself with her person. The affair, after several shots had been fired by both, terminated in the disappearance of Applewhite and the woman. It is not certain that the woman is wounded. Sheriff Osburn, with deputies and half a hundred citizens, are in pursuit of the pair. Kenyon's wound is not serious.

SHOCKING ACCIDENT.

One Man Killed and Another Injured at a Pole Raising.

Baker City, May 11.—A shocking accident occurred this afternoon, which will probably cost Jake Canaday, a carpenter, his life. Preparatory to raising the city flag pole, 36 feet of the pole, to which a tackle and rope were attached, was raised. It was supported by four guys fastened to 12-inch stakes driven in the ground. Canaday climbed to the top of the pole to adjust the blocks for raising another support, tying the end of the rope to his waist. A stake gave way and the pole fell. The unfortunate man was unable to extricate himself and struck on his head, sustaining a compound fracture of the skull and a broken ankle. The other pole struck Chas. Waltz, a carpenter, on the shoulder. He was picked up unconscious, but soon rallied, and is not seriously injured.

DELMONICO'S EXPENSES.

(Caterer's Journal.)

There are many things that are interesting about the Delmonico places in New York. He employs 900 waiters, and his monthly pay roll is \$18,000. These waiters receive the largest remuneration in tips, as they do in all first-class New York restaurants. The waiters are supposed to be the most expert men of their kind, but last year, with the assistance of guests they broke \$14,000 worth of china and glass ware.

Each year the coal that warms the places and cooks the food costs \$13,000, and the ice that cools the wines served \$15,000. To enable his patrons to see what they are about costs, for gas and electric lights, \$7,000 every month, and through the atmosphere of his rooms curled last year the smoke of cigars for which he paid \$114,000, and received in return very much more. His baker makes every month \$7,000 worth of bread, but this includes \$100 worth per day that is sent to private families. The butter used at the table costs Delmonico every month \$2,000. The men who market for Delmonico spend every week \$15,000. To give taste to his salads 200 gallons of oil are consumed weekly.

This is all outlay. What is the income? Last year Delmonico's total receipts were \$3,000,000. They have reached as high in one year as \$4,200,000. The average for a year is about \$3,750,000. For the past ten years the clear profit has been about \$2,000,000.

DID YOU?

Did you ever have your picture taken, when a scholar at school, with all the others, and think lots of the picture for a long time afterwards because a certain blue-eyed or black-eyed "he" or "she" was in it, too? Did you ever save one of those pictures and look at it years afterwards, when you had been fairly launched on this life's waves, and you realized how those schoolmates had been scattered to the four winds, some for good and some for bad? If you do recall one of those picture groups, you can appreciate how the scholars in Miss Grant's room at the Cedar street school felt yesterday, for they had their "pictures" taken for the first time, and no doubt in some future year they will look back, sigh, and wonder as they gaze from face to face where they have drifted.

VOTING COMMENCED.

The Senate Disposes of Some of the Tariff Schedules.

PULLMAN EMPLOYES STRIKE

Kentucky Women Against Breckenridge—Merchants and Professional Men Boycotted.

Associated Press.

Washington, May 11.—When the senate today took up the tariff bill the pending amendment was that of Perkins to the amendment of Jones, of Arkansas, to change the duty on boracic acid. The Perkins amendment was to increase it to the present rate, five cents. The Perkins amendment was laid on the table by a strict party vote—31 to 25. The question then recurred upon the Jones "compromise" amendment to change the duty from 30 per cent ad valorem to two cents per pound. It carried by a practically unanimous vote. Mills alone voted against the amendment.

The vote on the next amendment offered by Jones, changing the duty on chromic acid from 10 per cent ad valorem to four cents per pound (an increase of 25 per cent), was taken without debate.

The Republicans again voted with the Democrats and it was adopted. Allen and Mills voted against it.

The next was that of increasing the duty on citric acid, from 20 to 25 per cent ad valorem.

Harris moved to lay the amendment on the table. Carried—29 to 20. The amendment increasing the rate to 25 per cent ad valorem was then adopted.

THE PULLMAN STRIKE.

Two Thousand Out and Three Thousand to Go Out Tomorrow.

Chicago, May 11.—Two thousand employees of the Pullman Palace Car Company quit work today. They asserted that the entire force of 4,500 will strike before night. The men demand the restoration of the 33-1/3 per cent cut made last year.

AN OVATION FOR OWENS.

Lexington, Ky., May 11.—William C. Owens, Col. Breckenridge's chief opponent, is to speak in some day next week, and the women of this city conceived the idea of emphasizing their protest against Breckenridge's candidacy by personally joining in making the meeting a big ovation for Owens. The women are so thoroughly aroused they are withdrawing patronage from merchants favorable to Breckenridge, and in several instances family physicians have been dismissed.

THEY WERE ADMITTED.

Portland, May 11.—Judge Bellinger this afternoon ruled that Git Foon, the Chinese wife, and Ah Loon, child of Que Hoo, a Chinese merchant of Astoria, were entitled to land. Git Foon and Que Hoo were married in China ten years ago and came to America, where Ah Loon was born, in Astoria. The woman and little girl returned to China two years ago. With the application for a writ of habeas corpus the original marriage certificate or contract was produced, with an English translation of same. The certificate sets forth the identity of the parties in minute detail. The collector of Astoria refused to land the woman and child on the ground of the invalidity of the marriage contract. Judge Bellinger, in commenting on the case, said the contract was worthless, but the fact of the cohabitation of the parties as husband and wife, which was proven, was prima facie evidence of marriage. "There are few persons in Oregon," he said, "who could prove their marriage in any other way, particularly those married in foreign countries or the distant states."

WHERE DID IT GO?

New York, May 11.—In the Northern Pacific investigation today the books of the Oregon Transcontinental were put in evidence. The books showed that when the Chicago and Northern Pacific issued bonds for the purchase of various properties the Oregon Transconti-

ennial advanced its capital seven or eight millions, sold most of the bonds at 90 cents on the dollar and received a commission of 3 per cent. The \$20,000,000 of bonds of the Chicago and Northern Pacific sold at 90 per cent should have brought \$18,000,000, but only about \$9,000,000 appeared on the books as received.

DEFECTIVE ARMOR PLATES.

Secretary Herbert Has Been Investigating the Monterey.

San Francisco, May 11.—An evening paper publishes a sensational story to the effect that representatives of Secretary Herbert began an investigation of the plates of the Monterey at Mare Island and discovered serious defects in their construction. It is claimed that Secretary Herbert's present trip to the Coast is partly in connection with the Monterey investigation.

ROBBERS BLOW OPEN A SAFE.

The Dalles, Or., May 11.—News has just been received from Dufur that robbers entered the general merchandise store of Johnson Bros. in that place, last night, blew open the safe and secured about \$50 and escaped. They piled flour, rice, etc., over the safe to deaden the sound of the explosion, but used too large a charge of powder and the store is badly wrecked, all the windows and doors being broken out. People were not aroused by the noise.

A TRAMP ASSAULTS A GIRL.

Des Moines, Ia., May 11.—A tramp today entered the house of a widow named Grubbs, living near Maxwell, and assaulted her daughter Stella, aged 12 years. Over 100 men with dogs are searching for the villain.

PRESIDENTIAL NOMINATIONS.

Washington, May 11.—The president today nominated Charles D. Walcott, of New York, director of the geological survey, vice John W. Powell, resigned.

A FARMER'S VIEW OF IT.

Editor Astorian: To the thinker and investigator at least two facts have been demonstrated by the party now in power—i. e., that the tariff is a question of political economy and not one of politics in the general acceptance of that term, and that tariff reform by which the Democratic victory of '92 was won is the cheapest kind of democracy.

Yet, despite the cheapness of the means employed, it has proven to be the most expensive, damaging, and disastrous lesson in the experience of the American people. If these "reformers" could today command every dollar of current money in the United States, they could not reimburse the people financially, let alone atone for their suffering—and the end is not yet, and will only come when this reform begins its practical work among the wealth producers of the nation, which will culminate in the financial and intellectual disintegration of the American farmer.

Now that I am a farmer and stock raiser I want to say right here to my brothers, be they Republicans, Democrats, or Populists, that self-preservation is the first law of nature. Are we ready to take the risk of the world's markets? Are we ready and willing to pay the freight upon all surplus products to a foreign port to feed the labor engaged in producing the necessities you have to buy, and again pay the freight upon these necessities? Are we ready and willing to share the fate that has overtaken our brothers in England since the inauguration of Free Trade? They are financially ruined and almost pauperized by the world's markets, and have abandoned their farms to grow up in worthless weeds. All of this is the result of a system which it is proposed to establish in this country today.

QUINIAULT INDIANS HAVE A SNAP.

A local fish company received a ton shipment of Quinault salmon last evening. This is the first catch of this kind of fish of the season. These fish are said to be the only kind of fresh salmon that can be got at this time of the year in the northwest. They commence running about May 10 and run out usually by July 1. The Quinault river is said to be only stream they run in. The Indians of the Quinault reservation do all the fishing for them and make quite a good thing out of the business during May and June. They are a very pretty fish, weighing five or six pounds apiece.

Tacoma Ledger.
