THE GREATEST NEED.

If it were not so serious a matter, it would be amusing to see how some people in Astoria pin their faith on the prospect of a railroad. They do nothing, and have done nothing for years, but stand around day after day patiently waiting for a railroad to come and solve the whole question of the town's future.

Speaking of the question of states rights, how singular it is that the great states of the union, like New York, Pennsylvania, Ohio, and others—states that by reason of their enormous and diversified commercial and financial interests, and the large excess of federal taxes they pay beyond what they receive from the government in order that the south may have equal mail facilities with themselves, and that great river and harbor improvements may be made along the coast of Texas might be supposed now and then to have occasion for differences with the federal authorities—never find it necessary to protect against the invasion of their "sacred sovereign" rights.

It is, of course, highly improbable that any intelligent Democrat elected to the legislature would be so false to the interests of the state, or so indifferent to the sentiment of the best element in his party, as to lend his countenance or give his vote to the election of a Populist to the United States senate.

TEXANS HAVE AVAILED THEMSELVES OF ANOTHER OPPORTUNITY TO EMPHASIZE THEIR HOSTILITY AND CONTEMPT FOR NATIONAL AUTHORITY BY STIRRING UP A CONFLICT BETWEEN THE CIVIL AUTHORITIES AND THE UNITED STATES ARMY.

It is complained that while neither Missouri, Texas nor Arkansas possess a worsted mill or a carpet factory, nor have Texas and Arkansas a single specimen of a paper mill or an iron or steel industry, yet the representatives of these states have made the tariff schedules for New England.

IT IS UNDERSTOOD THAT THE PAPERS IN COURSE OF PREPARATION BETWEEN THE SUBSIDY COMMITTEE AND VISITING CAPITALISTS ARE NOT YET COMPLETED.

Why do some papers take such a delight in conveying the impression that something is wrong with all the war ships constructed in this country? It is now reported that there are defects in the Monterey, at the Mare Island navy yard.

THE NEW YORK TRIBUNE ASKS: "DOES THE DEMOCRATIC MAJORITY IN THE SENATE OF THE UNITED STATES INTEND TO PERMIT ITSELF TO BE LOOKED UPON BY THE AMERICAN PEOPLE AS A MERE ATTACHMENT TO THE SUGAR TRUST?"

The Democrats have converted Republicans to at least one claim they so often made some time ago—namely, that there are no tin-plate mills in operation in this country.

AN INVITATION FROM THE CHAMBER OF COMMERCE TO VISIT THE JETTY WOULD DOUBTLESS BE READILY ACCEPTED BY SECRETARY HERBERT.

Progress and Cookery. "The World Moves." There is no better illustration of this old saying than the numerous schools now-a-days devoted to practical kitchen processes. These schools have been alert to find a reasonable substitute for lard, the use of which is so generally condemned. This want has been fully met by

COTTOLENE the new vegetable lard. When science strikes the kitchen, it strikes home and everybody gets the benefit. Cottolene is a clean, delicate and economical substitute for lard—cleaner than the hog, delicate as the finest vegetable oil, economical from its low price and small quantity required to be used. Prove it for yourself by a trial.
