

Tide Table for June.

Table with columns for Date, High Water, Low Water, and other tide-related data for the month of June.

AROUND TOWN.

Plain sewing and dressmaking by the day. 385 Genevieve street. John T. Hay is out again, after a three week spell of sickness. There are several localities that claim the worst stretches of sidewalk in the city. The Stutz band was out last night serenading the new sheriff, James W. Hare. Bloodshed is threatened in Uniontown. They are talking of organizing a brass band. Orders can be left at Carnahan's store for the Astoria Wood Yard for all kinds of fuel. R. C. Voeth is the father of a 71-2 pound girl, and is as happy as a successful candidate. Greenwood is a beautiful cemetery, and yet no one wishes to get there early to avoid the rush. Go to the Astoria Wood Yard for the best kinds of wood; also best grades of coal delivered in quantities to suit. The current in the river at the present high stage of water is unusually rapid, and a man's life would not stand much chance should he fall overboard. There's a good time a-coming in Astoria, and no defeated candidate will have to sit up nights thinking how he will have to choke the wolf at the door. For a delicious plate of pure ice cream, go to C. B. Smith, the Ice Cream Dealer. Ice Cream Soda a specialty. Private parlors for ladies. 483 Third street. Yes, Mr. William Welch will soon be sought after to sign a contract for several magazine articles, in which the clause "Now let the galled jade wince" is liable to appear quite often. There are about 125 traveling men held in Portland by the floods, but they like it. There is one thing about Portland that always makes the cigar drummer feel at home. All the Portland girls know the handkerchief flirtations. What is the matter with our evening contemporary? It ought at least to encourage home talent. Yesterday it published a half column article which originated last week in 'The Astorian' and then gave the Portland Telegram credit for it. Columbia Harbor, No. 22, Masters' and Pilots' Association, paid on the 4th inst. its first insurance loss. The amount of the claim was \$175.50, and the policy was held by Mrs. Charles Carlson, widow of the late Capt. Carlson, of the steamer Chilcat. The London Timber Trades Journal of April 28 says: "The Gov. Ames, from Puget Sound all timber laden, is on the way here chartered for orders, but we hear that her cargo is already sold to arrive. This highly meritorious timber is slowly making headway in the markets of Europe, but its progress into circulation is not expected to be as rapid as was the case with pitch pine from the Gulf of Florida, the conditions of freight being so different; and this will be the great obstacle to its development in the markets of Europe until some means of cheaper transport are devised. The wood is splendid in every way, but 14,000 miles by sea is a long way to bring it."

Do you need any Bill Heads, Statements, Letter Heads, Circulars, or any other kinds of Printing? If so, give this office the order. We have engaged a first-class job printer, who will give any work entrusted to us his Thoughtful, Mindful, Careful and Intelligent Consideration. It takes downright hard work to do this, but we do it. THE ASTORIAN.

FOOTBALL PRACTICE GAMES.

Hereafter the members of the Football club will practice on Mondays, Wednesday and Friday evenings. On each Wednesday evening there will be a match game between picked teams from the club. It is the intention to give the first eleven as much practice as possible before the big match with the Multnomah team on the Fourth of July. A strong second eleven has been picked, and interesting contests are expected, especially on Wednesdays, when the motor will leave at 6:30 p. m. sharp. There will be no charge for admission to the grounds. A large number of the admirers of the game will go down to the grounds this evening.

A meeting of the active members of the club will be held tomorrow evening at 7:30 o'clock, for the purpose of selecting the second eleven and appointing a captain for that team. It is possible a special match game between the two teams will be played on Saturday evening.

NOT FOR SALE.

In the State of Washington and British Columbia considerable attention has been given of late to Point Roberts a small point of land jutting out from the mainland of British Columbia on the United States side of the boundary line. This small point of land contains some four thousand acres, and was set aside as a military reserve, but it is understood that it has been or will be shortly abandoned as a reserve. British Columbia is most anxious to obtain possession of it, and with that end in view, the government of the province has lately been memorialized to petition the Dominion government to enter into negotiations with the United States looking to its acquisition, one proposition that has been mooted being that the Canadian government should exchange for it some land opposite Alaska. The reason of this anxiety to secure the point is its importance in connection with the salmon fishing industry.

The Fraser river, as is well known, is one of the leading places in the world for salmon canning, there being about thirty canneries along the river. At present there are two canneries located at Point Roberts, and they distribute some \$30,000 to \$40,000 a season. It is estimated that of all the salmon that go up the Fraser river about one-half pass around Point Roberts, and while the Fraser river canneries are harassed by a high license and a short season, the Point Roberts fishing grounds are free from such embarrassments; the fish are numerous, and there is room there for some six or seven more canneries. Situated as it is, Point Roberts is a good place at which to establish canneries and to intercept the fish before entering the Fraser river, and its acquisition by Canada would practically place the control of this growing industry in this section in the hands of the Canadians.—Bradstreet's.

GREAT CANADIAN STEAMERS.

The London Times, May 21, published a description of the steamships that are to be employed in the Anglo-Canadian mail service in connection with the Pacific line. "The dimensions of the four Atlantic vessels are 572 feet in length, 52 feet beam, and depth of hold 42 feet, with a load draft of 30 feet, making them the deepest vessels afloat. They are two feet deeper than the Cunard liner Lucania. This great depth is rendered possible by the fact that the Canadian and English harbors have deeper waters than the harbor of New York. The greater depth of the new steamers allows of a stronger hull and will give better results in a seaway, and also assist in the development of speed. The freight carrying capacities of the steamers is fixed at 3,500 tons each, in addition to a coal bunker capacity of 3,000 tons. The engines are of 21,000 horsepower, and they will drive the vessels at a speed of 20 knots per hour in ordinary weather."

STUTZ THEATRE.

The "Colleen Bawn" drew another good house last night. The drama will be repeated tonight and tomorrow night. In preparation, the great "Streets of New York."

The undersigned hereby most cordially thanks the members of Seaside lodge, No. 12, and all neighbors and friends, who so generously extended a helping hand during the sickness and death of my beloved wife, also to all those who paid her the last respects attending the funeral yesterday. THE COUNTY RESULT.

Prof. Lyman and Two Democrats Possibly Elected by Small Majorities.

The returns are coming in very slowly from the outlying county precincts. The race between Fox and Smith has been surprisingly close, and there is still a small chance that Fox may be elected. It is generally conceded that Prof. Lyman, with Messrs. Pohl and Oberg, on the Democratic ticket, are elected.
