

THE WEATHER TODAY

Portland, July 13.—For Oregon and Washington, fair weather; cooler west of the Cascades, and stationary temperature east of them.

YESTERDAY'S WEATHER

Local weather for the twenty-four hours ending at 5 p. m. yesterday, furnished by the United States Department of Agriculture weather bureau. Maximum temperature, 70 degrees. Minimum temperature, 56 degrees. Precipitation, none. Total precipitation from September 1st, 1893, to date, 97.45 inches. Excess of precipitation from September 1st, 1893, to date, 27.55 inches.

AROUND TOWN

Damant's barn has received a brand new suit of clothes. Swope, the painter, executed the job.

The steamer Elmore left for Tillamook yesterday afternoon. She carried a large cargo of flour.

The board of education have decided that the Uppertown school house shall be finished and will soon let the job to the lowest bidder.

Tent life will again be popular this season at the beach, and many families will live in tents who have heretofore rented cottages.

Fred Sherman cut his hand behind the thumb quite severely Thursday and Dr. Tuttle will have quite a job to save that member from amputation.

Don't spoil a nice plate of berries with milk, when you can get sweet cream fresh every morning of C. B. Smith, the Ice Cream Dealer.

There is to be a meeting of the legal fraternity at the office of Judge Taylor next Wednesday evening for the purpose of organizing a bar association.

The Union Pacific business has picked up considerably at this point since it has been announced that the road is opened for through Eastern business.

Several up the river brides are over at North Beach, and are as usual, trying to deceive the public into the belief that they have been that way a long, long time.

James Bennett and Frank Spittle returned from their Nasel fishing trip yesterday afternoon. They had a splendid time but found that some one had been there before them.

The Joe Leathers that had such a tough time in Portland Monday night being robbed of over \$100, is not our Joe, but a man by the same name who hails from Eureka, Cal.

Judge McBride will be here this morning to hold a short session of an adjourned term of the circuit court. It is not probable that the court will hold over until next week.

The fashionable summer bells now wears buckles on her bonnet, around her neck, at her waist, on her shoes, and even elsewhere, for all one can tell, there are so many of them.

Justice Abercrombie yesterday postponed the Peterson and Anderson examination until 10 o'clock this morning, owing to the absence of C. W. Fulton, one of the attorneys on prosecution.

The bids were opened yesterday for supplying the public schools with 150 cords of wood. Campbell Brothers were the lowest bidders, and secured the contract. Their price was \$3.17 a cord delivered.

Fashionable exchanges say that trains will be shorter this year. The American Railway Union is evidently bound to be in the mode. In fact, it is desirous, apparently, of cutting off trains altogether.

The tug Excelsior took the schooner Beulah out yesterday. The Beulah was to have sailed Thursday for San Pedro, but her captain considered it too rough outside and anchored until yesterday morning off Fort Stevens.

Black, says an Eastern exchange, is to be a favorite color in trimming lingerie hats. Inserted crowns of black chip, large bows of moire ribbon, stiff black alpacas, black tips, jet bands, and black roses and violets are among the effects noted.

Archie Jones, who was thrown from a horse on Tuesday, and sustained quite painful injuries, is getting along nicely under the physician's care. He will be able to join his playmates in a few days, the injuries being not as serious as at first anticipated.

The steamer Telephone had quite a passenger list for the Clatsop beaches last evening, all of them coming prepared to remain a while. The Telephone will probably commence laying over in Astoria on Saturday nights, going up the river on Sunday nights instead.

F. H. Gramms, the grocer, attracted a regular circus crowd yesterday morning on 12th street, where he was trying to keep his seat on a bucking broncho that he had unwittingly allowed himself to mount. He may not be as young as he used to be, but he knows how to break in a sky-lifting broncho, as was evidenced by yesterday's performance.

A petition is being circulated for spending up the alley between McGregor's Mill and Alderbrook, also widening it from 16 to 20 feet. This alley is the only roadway the residents of Alderbrook have for communication with downtown, and it is only justice that it be a serviceable one. Should it be opened the chances are favorable for the extension of the street railway company.

Chas. Ed. Hughes, John Fox, Sam Har-Old, and J. R. Waddell returned yesterday from a few days' outing in the neighborhood of Jewell. They return with their experience with the brook trout for which the streams in that

neighborhood are famous, but it is understood that there is just as good fishing here as before this quartet of expert anglers paid them a visit.

A union campmeeting is now in progress near the town of Ilwaco. Wash. Rev. Dr. Bushong will preach for the campers today at 10:30 a. m., and about the same hour tomorrow. A large gospel tent belonging to a wealthy merchant of Portland, will be used as an auditorium. Dr. Bushong will return to the city in time for the evening service at the Methodist church.

The steamer Columbia came into port from up the river this morning, just as the first streaks of dawn were breaking in the East. As there was but little freight to take on, 800 cases of salmon, the captain intended to get out over the bar before sunrise, but unforeseen trouble with some of the deck hands caused a couple of hours' delay. Postmaster Wise got up at 2 o'clock and made up a sack of California mail which he carried to the steamer and saw it stowed away with several tons of mail from Eastern points.

Now that tomatoes are becoming large and finer, browned tomatoes will be found very appetizing. An Astoria housewife gives the following recipe for their cooking: Take large round tomatoes and halve them, place them, the skin side down, in a frying pan in which a very small quantity of butter and lard have been previously melted; sprinkle them with salt and pepper, and dredge well with flour. Place the pan on the hot part of the fire and let them brown thoroughly; then stir and brown again, and so on, until they are quite done. They lose their acidity, and their flavor is superior to stewed tomatoes.

ALONG THE DOCKS

Yesterday was a very quiet day along the waterfront, scarcely any work being done except by the smaller steamers which have their regular run to the different towns. The boats making the run to the railroad trestle carried over considerable freight and a number of passengers for Clatsop, but their return cargo was light. There are no vessels at the mills now, loading lumber, but several are expected in early next week. The steamers from Portland continue to bring down large numbers of passengers for seaside resorts, though the heavy travel oceanward will hardly commence for a couple of weeks.

INTERESTING PUBLICATIONS

E. R. Quinn, of this city, has a couple of old papers that are very interesting. They are the Chicago Tribune, of January 5, 1856, and the Daily Alta Californian of September 9, 1861. Both publications are brim full of interesting information, especially the California, which bristles with live Pacific coast news, as well as dispatches from all parts of the globe.

The dispatches were received by telegraph from St. Louis to the station 95 miles west of Fort Kearney, Nebraska, thence by pony express to Carson City, and thence by telegraph to San Francisco. The state news was all brought in by pony express, as was also all Eastern mail. It was the custom in those days to publish the list of all letters due from the East by the express, the names being forwarded by wire from Sacramento. Their European and Eastern news was fully a month old when published. It is brim full of the "latest war news," which even at this date is very interesting reading.

WHAT IS IT?

Placed among the shoes in Goodman & Co.'s window is an instrument that has a history. It is like a trick dog of a circus who has lost his master and could do lots of tricks if some one would come along and tell it what to do. Mr. Goodman bought it cheap at an auction, supposing it to be an instrument belonging to a ship, and that he could easily dispose of it to some seafaring customer. Astoria gets her share of seagoing vessels, but none of their crews have ever been able to tell what the auction purchase is good for. Yesterday three inquisitive citizens stepped in and inquired what it was, and Mr. Goodman took one of them aside and said, "I'll tell you what that's good for, but don't tell those other fellows; it's an invention of a German professor and with it you can tell whether a fish is a blueback, silverside, steelhead, or a chinook salmon. All the cannerymen want me to sell it to them, but if I sell to one, the others will get mad, so I'm just going to keep it."

PERSONAL MENTION

A. L. Adams, of Pendleton, is in the city, staying at the Occident. Harry Bell and James Gindlay came up from Cannon Beach yesterday. Mrs. Gerlie Smith left for Portland last evening on the steamer Telephone. M. J. Canning, of Portland, passed through the city yesterday enroute to Seaside. Prof. Wright is expected home from Los Angeles about the 20th of this month. John McCormack goes to Seaside today, where he will remain during the summer season. Joseph Walsh, of Cannon Beach, returned from Megler's cannery yesterday afternoon, where he has been visiting. Mr. Copeland, of the Bee Hive, has been delayed thirteen days in Southern California by the strike. He was expected home two weeks ago. ing with Samuel Matlock. Mr. Walsh has one of the finest summer resorts at that famous beach, and contemplates making some extensive improvements about the place this summer. B. E. Allen is an athlete in an amateur way, and practices club swinging with three pairs of Indian clubs. Yesterday he picked up the lightest pair to

undertake some new moves and the result of his manœuvre are a very, very bruised eye. The bruise is so that he cannot paint it, either, and his friends are having numerous jokes over the accident.

SCRATCHED 3 YEARS

Suffered, Scratched and Bled. Doctors No Relief. Cured by Two Sets Cuticura Remedies.

Nothing like CUTICURA REMEDIES was ever manufactured. For three years I suffered with a sore head. I would break out all over my face with pimples which would form a watery matter, and I would have to scratch until I would bleed. After doctoring with two doctors for three years, more or less, I finally made up my mind to try your CUTICURA REMEDIES, with result entirely satisfactory to me. After using two sets I am entirely cured. I have recommended your remedies to several persons, and they all are cured. I have a nice business in CUTICURA REMEDIES, since my cure. I have given him the privilege of using my name as proof of their efficiency. I enclose my portrait. A. F. GRAMM, Photographer, Mt. Horeb, Wis.

SALT RHEUM CURED

My wife has been troubled with the salt rheum for four years. During this time doctors of Wisconsin, Illinois, and the most eminent of Chicago, failed to give relief. I bought the CUTICURA REMEDIES, and she used only one box of CUTICURA, one case of CUTICURA SOAP, and half a bottle of CUTICURA RESOLVENT, and these have cured her completely. C. M. STONE, 141 State St., Chicago, Ill.

CUTICURA WORKS WONDERS

There is no doubt that the CUTICURA REMEDIES daily perform some wonderful cures than all other skin and blood remedies combined. They instantly relieve and speedily cure every humor of the skin, scalp, and blood, with loss of hair, from infancy to age, from pimples to scurfiness, when the best physicians fail.
