BEGINNING TO WEAKEN

Senate Bill Advocates Growing Less Confident.

MINNEAPOLIS' COSTLY FIRE.

Troops At Sacramento Start For Home—Dispatches From All Parts of the Globe.

Associated Press. Washington, July 30.—The senate wore an aspect of peace and serenity today in striking contrast to the excitement of last week. Vice-President Stevenson had returned, and occupied his accustomed seat. Among the bills introduced was one by Allen to provide for the issue of \$50,000,000 in treasury notes caused the senators who are most in haste "for the relief of the worthy poor." It was referred to the finance committee.

For the first time since the tariff bill has been in conference there were signs of wavering from the strong line that has stood behind the senate bill. "Senate bill or none" has been repeated during the day, but with less frequency and with less emphasis than heretofore. The only explanation for the brief conference today is the fact that the house conferees feel that the situation is changing in their favor. There are many reasons advanced to show that this statement has a good foundation. It is known that the mails are bringing to the Democratic senators urgent appeals to pass the bill which will not favor trusts, and which will be in line with the Democrats of the party of reform.

In fact, these requests upon the senators are endorsements of the position of the president and the house in the main. That these telegrams are having an effect cannot be denied, and have caused the senators who are most insistent upon the senate bill as regards coal, iron ore and sugar, no little concern. The house members also find considerable comfort in their analysis of the speeches made by the Democratic senators when the conference agreement was before the senate, in which they find but one Democratic senator besides Mr. Hill who made any pledge of his vote, and that was Senator Caffery, who declared if the Louisiana sugar interests were not protected that he would not vote for the bill. None of the other senators, it is claimed, burned the bridges behind them; none of them declared absolutely that they would vote against the bill if the one-eighth differential on sugar was not retained, or if the duty on iron ore or coal was stricken out. But more than this, many of the senators declared their desire to obtain a bill which would secure 43 Democratic votes. It is pointed out that none of these senators, not even Caffery, have placed themselves in a position in which they cannot support the bill if it is returned without a differential protection to sugar refiners, and with coal and iron on the free list.

The Democratic members of the conference found themselves in a complete deadlock when they met during the forenoon, and the full conference called for 1 o'clock, found without business before it, convened.

The impression which ex-Speaker Reed obtained of the situation was embodied in a rough diagram which he drew while the conference was in session, which represented the senate as a locomotive rushing down a steep grade under full steam. Stretching across the track and distinctly in front of the engine is an immense, well-supported bumper, which is labelled "House." Republican house conferees being represented as safely lodged in tall trees. "That is the situation. We all know what must happen when irresistible force strikes an immovable object." This is as much of a statement of the situation as could be obtained from any source. The Democratic members of both houses appreciate to the utmost, the gravity of the situation. Democratic senators who say anything on the subject, say that to all appearances the house conferees are as unyielding as they have been at any time.

Washington, July 30.—Beyond passing a few unimportant bills by unanimous consent, nothing was done by the house today. Boutelle offered a resolution congratulating and recognizing the Hawaiian republic, but on point of order it was referred to the committee on foreign affairs. Two hours were spent in an attempt to secure the adoption of a special order to force a consideration of McCrea's bill to protect the public forest reservations, but the Republicans, by absenting themselves, succeeded in enforcing an adjournment.

Under the act of March 3, 1893, the president reserved the public timber lands from sale and disposal, and set them aside for forestry purposes. The total number of acres so reserved aggregated 17,764,800, and included lands in Alaska, Arizona, California, Colorado, New Mexico, Oregon, Washington and Wyoming. The bill for which consideration was today sought, empowered the secretary of the interior to sell under restrictions, not exceeding fifty per cent of the timber of commercial value on these reservations, to regulate the occupancy of the same, and to protect the same against fire and depredations.

SOLDIERS GOING HOME. Complaints to be Prepared Against the O. R. U. Prisoners. San Francisco, July 30.—At Sacramento the six companies of the Eighth Regiment broke camp this evening and started for their homes. The state troops at Dunsmuir will be held there for an indefinite period, United States Marshal Baldwin having reported that the strikers at that point are still in a mood to make trouble. Strong forces of United States regulars are still on duty at Sacramento, Rocklin, and Truckee. There is no probability of their being withdrawn for several days.

The United States district attorney is preparing an omnibus complaint against all the American Railway Union men who are in jail in Northern California, charged with offenses against the federal laws. The complaint will probably be lodged before United States Commissioner Heacock as committing magistrate, tomorrow. This complaint is to take the place of the multiplicity of complaints now on file against the railroad strikers. The charge will allege interference with interstate commerce and trade, and conspiracy to retard the progress of United States mails.

A DESTRUCTIVE FIRE. Damages Property to the Extent of Half a Million Dollars. Minneapolis, July 30.—The third disastrous fire in the history of Minneapolis broke out about 3:30 this afternoon in the lumber yards of the Shevlin-Carpenter Co., on the bank of the Mississippi river, at the foot of Eighth avenue north. It spread with remarkable rapidity, and before it was controlled destroyed property valued at nearly \$500,000. Besides 20,000,000 feet of lumber, the gas manufacturing plant of the Omaha Railroad company, round house, tool house, sand house, and also the turntables of that road, nearly forty freight cars, some loaded with merchandise, and the office building of the Shevlin-Carpenter Co. were burnt.

Help was summoned from St. Paul, and seven engines with full crews, were sent over from that city. The insurance is about \$350,000.

PASSED THE HOUSE. Tacoma, July 30.—Congressman Doolittle wires tonight that his bill extending the bonding privilege on foreign exhibits from the midwinter to the interstate fair passed the house today and was sent to the senate. One hundred tons of exhibits have arrived from San Francisco. The grounds and buildings are being put in shape for the opening day, August 15th, which will be made a gala day.

THEY HAVE OBJECTIONS. Chicago, July 30.—Selah Reeves and Julia B. Pollette have filed a bill in the superior court to restrain Samuel P. Partridge from accepting a sheriff's deed to some mining property in Douglas county, Washington, in which the complainants claim an interest. It is alleged the property was mortgaged without plaintiff's knowledge, and the mortgage foreclosed by the holder of the notes.

MURDER AND SUICIDE. Portland, July 30.—Cornelius Mees, a Belgian, killed his wife early this morning with a hatchet while she was lying in bed. Mees then hanged himself. The murder was prompted by jealousy.

STEEL FOR THE OREGON.

Washington, July 30.—Secretary Herbert has finally accepted three hundred tons of barbed armor intended for the battleship Oregon, represented by the 17-inch Carnegie Harveyized steel plates which have been tried in Indian Head. On the first trial the shot perforated and cracked the plate, and in a test had stopped there. As is usual, the lot of plate would be rejected, but the contractors asserting that projectiles of a quality surpassing the standard shells in the preceding tests had been used, asked for another trial under the old conditions. This request was granted, and a fragment of the plate came out victorious on a second trial.

A DOWN EAST CYCLONE.

Manchester, N. H., July 30.—From 5:30 yesterday afternoon until this morning, the city was entirely cut off from the outside world by telegraph and telephone, as the result of the most disastrous storm of this section for years. At Lake Massabesic, four miles from this city, the cyclone wrecked buildings, blew down large trees and destroyed much property. There were scores of pleasure boats on the lake, and it is feared that some did not reach the shore. Two small steamers were unroofed, and another wrecked. At Goffstown ball stones as large as walnuts fell. As far as learned no lives were lost, although several persons were injured seriously.

HEAVY LIVE STOCK RECEIPTS.

Chicago, July 30.—The live stock receipts today were the largest ever known. Hogs, 60,000; cattle, 25,000; and sheep, 12,000. This extraordinary movement is attributed to a failure of the corn crop. Over 2500 men went to work at the Illinois Steel Company's plant today. One thousand more will be employed soon.

HIS LETTERS PRESENTED.

Washington, July 30.—Gonzo Tateto, Japanese minister, presented his letters of recall to the president today. There was an exchange of speeches, which made clear the fact that the minister's recall is in no way due to a friction between the two governments.

MINISTRY RESIGNED.

Sydney, July 30.—The ministry, presided over by Sir George Dibbs, has resigned. Mr. Reid, leader of the opposition, has consented to form a new ministry.
