The gentleman had rigged his machine with two fron braces over the forward wheel, which supported a neat wicker basket, in which reposed a baby, seemingly as contented in its peculiar carriage as if at home wrapped up in the family cradie. The gentleman rode along with apparently as much unconcern as if he were alone on the wheel.

This is a new and useful application of the bicycle—in these parts.

Eczema, Turning to Blood Poison. Treated by Specialists Seven Months without One Particle of Success.

BODY RUNNING SORES. Condition Terrible. Life a Burden

Tried CUTICURA. In Three Days Attends to Business. Cure Permanent.

In the spring of 1831 I took that dreadful skin disease, Eczema, which turned into blood polson. I consulted the beat known specialists in this city. They treated me for sowen months but I never derived a particle of good from any of them. They had given it up as a hopeless cure. I was covered with cores from head to foot; I had running sores all over me, some of them as large as a box of your Curtoura. It cost me hundreds of dollars with these so-called specialists. My condition was terrible, life was almost a burden in to noe. I could not eat, drink, or sleep, I was meable to walk and had given myself up as dead. I tried all medicines imaginable, until a friend who had got relief advised me to try Curtoura Research. I sent out and got them, and when I took the first does of your Curtoura Resouvery I was a new man. In three slays I was up walking around and attending to my business, and It is the Curtoura and Curtoura Resouvery that saved me from the jaws of death. This is two pears ago. I wanted to see if it had been driven out of my system, and I cas saw I have never had any trouble since for two years.
