ENTITLED TO REGISTER

The Charleston's Chinamen, So Says the Court.

BIG S. P. SUIT WITHDRAWN.

More Particulars From the Seat of War in the Far East—Fruit For Europe.

Associated Press.

San Francisco, August 4.—United States District Judge Morrow has ordered the local federal authorities to issue certificates of registration under the exclusion law, to Chinamen enlisted as seamen and serving as servants on the United States Steamship Charleston. Their duties kept them in foreign ports and prevented their registering during the period allowed for registration. These Chinamen will now be able to claim American protection, should the Charleston carry them into the dominion of their king.

BIG SUIT WITHDRAWN.

Los Angeles, August 4.—The great suit filed only a few weeks ago by United States District Attorney Denis against the Southern Pacific has been dismissed. This morning, in the United States circuit court, in which the suit was instituted, Denis said: "The attorney general of the United States has wired me ordering this suit dismissed without prejudice, and as he is our superior officer, and has control by law of this section, we ask leave, in his name, to move the dismissal of the bill without prejudice."

Judge Ross simply said: "Let the order be entered in accordance with the motion of the government's attorneys," and the whole thing was done.

JAPAN'S OFFICIAL ACCOUNT.

Tokio, August 4.—The official report of General Oshima, in command of the Japanese troops in the recent engagement in which the Chinese were defeated, says that after severe fighting during five hours from 3 a. m., July 29, "we won a decisive victory. The enemy's entrenchment at Chelion was captured and over 500 out of a total of 1,800 Chinese soldiers were killed or wounded. Our losses were five officers, and 70 soldiers. The enemy fled toward Hong Chow and perhaps intends to embark in Corvan boats near Gusan. We captured many flags, four cannons, many rifles and much ammunition. We occupy the enemy's headquarters."

Shanghai, August 4.—A dispatch just received confirms the report that a second battle was fought at Yashan between the Chinese and Japanese. The Chinese were defeated.

UNDER BRITISH PROTECTION.

Shanghai, August 4.—Captain Galtworthy, Chief Officer Tampline, and Quartermaster Evangelist, of the sunken transport, Kow Shung, rescued by the boats of the Japanese cruiser, have been taken to Sasebo, where they are held as prisoners. The commander of the British warship has been informed that the prisoners will be delivered to him today.

FRUIT FOR EUROPE.

Sacramento, August 4.—The first European export special, consisting of eleven cars of California green fruit, billed direct to London, leaves here at 2:40 tomorrow morning.

MORE DIAMOND CUTTERS ARRIVE.

New York, August 4.—Another party of diamond cutters and their families arrived in this country on Wednesday and were detained at Ellis Island on suspicion of being brought over under contract. On the same vessel were the three Zilver brothers, who claim to be the largest firm of diamond cutters in Rotterdam. They, too, were detained over night, but were allowed to land yesterday morning, as they swore that they were coming to this country to settle and establish their business. They said they found they could do much better here than in Rotterdam, and could pay nearly double the wages they did on the other side. They said that they were not bringing over any one under contract, although many of their workmen had come to this country, as the diamond business was dead in Rotterdam. The Zilver Brothers are going to start a factory in Brooklyn. The diamond cutters who came on the same steamer will probably be released today. The party numbers twenty-five in all.

STRIKERS KILL A DEBETER.

Connellsville, Pa., August 4.—A bloody affair occurred at Leisenyng this morning which shows the spirit of the striking Slaves is not subdued. While Sam Matthews, who recently deserted the strikers, was returning home from work, a number of Slaves attacked him,

Matthews was captured but struggled desperately to protect himself. He was stabbed in the arm and shoulder and finally killed.

AN APPEAL FROM THE A. R. U.

Debs Will Accept No Office from Constable to President.

Chicago, August 4.—The American Railway Union has issued a long resolution which it terms an address to the voters of the United States. The address, which is an urgent call to vote the Populist ticket, opens with the history of the American Railway Union, and goes into a detailed account of the alleged economical conditions at Pullman, which is followed by a long statement of how the union came to take up the cause of the Pullman strikers and declare the boycott. It is denied that the officials of the American Railway Union have in any way obstructed the operation of the inter-state commerce law. The address closes with an appeal to support "the party which bears the name of the sovereign people."

The union has issued an appeal declaring "the American Railway Union needs money, needs it badly, and at once." Debs says he will under no circumstances be a candidate for any office, from constable to president.

WILL REMAIN NEUTRAL.

The United States Will Not Interfere with China Treaty Ports.

Washington, August 4.—A strong denial was entered at the state department of a published statement that the United States will enter into a treaty with European powers to forcibly occupy and keep open the treaty ports of China. The attitude of the United States will be one of "benevolent neutrality." The entire United States fleet, in Asiatic waters now consists of the Baltimore and Monocacy. About a week ago orders were sent to Behring sea to have the Concord and Petrel sent over to join the China station, and that is all that has been done in that direction.

NO HOPE FOR THE ROYALISTS.

River and Harbor Bill Goes Back to the Conference for Correction.

Washington, August 4.—Wideman, one of the Hawaiian royalist commissioners, had an interview with Secretary Gresham today. As Wideman was given to understand that the commission cannot be dealt with officially by the department, there is ground for a presumption that the mission is at an end. Dolph, who yesterday submitted the conference report on the river and harbor bill, today asked leave to withdraw his report and send the bill back to the conference to correct the technical errors.

NEAR, YET FAR APART

Congress on the Point of Agreeing Yet Not Agreed.

BRYAN FOR U. S. SENATOR.

George Gould Has a Narrow Escape From Drowning—Other Late News.

Associated Press.

Washington, August 4.—When the Democratic tariff conference adjourned tonight after an all day session, it looked as though they were nearer an agreement than at any time thus far, and yet the agreement itself, which is the great end in view, had not been attained. The hopes of the conferees last night that definite results would be reached and made public today, failed to be realized. An agreement on sugar had not been reached beyond a possibility of recall, nor had agreements been reached on iron ore or coal. The day closed, however, much better than it opened. It had brought out that the new sugar schedule submitted as an ultimatum by the conservative senators, would be accepted by the house conferees, and that there was little else than a formal and final announcement of the correspondence to make an agreement on sugar complete. So fully satisfied were the house conferees that the schedule would prevail, that they urged its advantages on their colleagues on the house side, and pointed out that in their opinion it would reduce the benefits by fifty per cent over the original senate schedule. In view of the fact that the proposition came from the senators, this willingness of the house men to point out its advantages and features, indicated the common ground they occupied. Indeed, one of the conferees spoke of the result of this day's work as equivalent to an agreement on the sugar schedule, but said it was not such a binding agreement as to cut off the possibility of disagreeing to it on Monday. Thus it stands, with the conferees on the point of agreeing, and yet not actually at that point. As to the quasi-agreement will become absolute finally, the conferees had no definite idea when they separated tonight. As Secretary Carlisle was with them part of the day, it is concluded that the schedule is also satisfactory to the administration.

BRYAN'S ANNOUNCEMENT.

A Request of the Free Coinage League Granted.

Washington, August 4.—Representative Bryan, of Nebraska, has written a letter to T. E. Ong, president, and to other members of the executive committee of the Free Coinage League, in response to their letter requesting him to become a candidate for United States senator, and asking him to state the principles which will guide him in the event of election. He expresses concurrence in the views of the league, that the people should be permitted to elect senators by direct vote, and continuing, says: "In compliance with your request I therefore announce my candidacy for the senatorial term beginning March 4, 1895, and shall make as thorough a canvass of the state as the circumstances will permit."

Bryan makes the following declaration of political principles: "I shall continue to labor for tariff for revenue only, more deeply convinced than ever before by my short experience in congress that a protective tariff, as we have known it, is only a system of legalized spoliation by which an organized few are able to plunder the unorganized, many for pretended public good. I shall favor an income tax as a permanent part of our financial system, preferring the graduated tax. I favor the immediate restoration of free and unlimited coinage of gold and silver at the present ratio of 16 to 1, without waiting for the aid or consent of any nation on earth."

SENATE SESSION.

Washington, August 4.—The senate held a short session, the conference report on the river and harbor appropriation bill, for the consideration of

which it met today having been temporarily withdrawn. In lieu of this, private pension bills were considered, and seventeen passed, including one granting a pension to the widow of Arctic Explorer Lieutenant Frederick Schwatka. A bill for the exclusion or deportation of anarchists was taken up and discussed, and then went over till Monday.

The conference report on the river and harbor bill which was presented by Dolph just before adjournment yesterday, was withdrawn on Dolph's request, and the bill sent back to the conference to correct errors in the engrossment of the bill.

The bill to subject to state taxation the national bank notes and United States treasury notes was taken up, and after an amendment, was passed. As passed, the bill provides that the circulated notes of the national banking association and the United States legal tender notes and other notes of the United States payable on demand, and circulating and intended to circulate as currency, and gold and silver or other currency, shall be subject to taxation as money on hand or on deposit, under the laws of any state or territory, provided that any such taxation shall be exercised in the same manner and at the same rate that any such state or territory shall tax money or currency circulated as money within its jurisdiction.

The provisions of this act not to be deemed or held to exchange the existing laws in regard to taxation of the National Banking Association.

AGREED TO DISAGREE.

Washington, August 4.—The tariff conferees began work today with the sugar schedule. The senate conferees pointed out that the schedule which was presented yesterday would not receive the votes of the Louisiana senators because no bounty for this year is provided. The schedule provides for a duty on raw sugar at 40 per cent, on refined sugar at 40 per cent, on a quantity of raw sugar necessary to make the amount refined in any importation, and a fifth cent additional, also a tenth cent additional from the countries paying bounty on sugar exported. When a short recess was taken, the house conferees announced that no agreement had been reached on the three main items, sugar, iron, and coal. Some of the conferees said it might take three or four days more to bring the members together.

SUGAR GONE OVER.

Washington, August 4.—It developed today in the conference held at the White House last night, at which were the president, Speaker Crisp, chairman Wilson, Secretary Gresham and some others, that the new sugar schedule was gone over, and the subsequent action of those present warrants the inference that the president and others believed it advisable to accept the proposition. It was with this understanding that the house conferees met the senators today, but the objection of the Louisiana senators developed an unexpected obstacle.

TO BECOME POPULISTS.

Kansas City, August 4.—Thomas B. McGuire, of New York, a member of the general executive board of the Knights of Labor, is making a tour of the west, organizing local assemblies. "Every effort," said he, "will continue to be made till the election, to persuade all workmen to join the Populist party. Since the loss of the recent strike it has become apparent that the ballot is the only remaining source of hope for the workman."

TROUBLESOME STRIKERS.

Chicago, August 4.—There are 600 men working at the Pullman shops today. When they left at noon, a hundred strikers followed them, hooting. John Swanson, a carver, was terribly beaten.

A NARROW ESCAPE.

Cowes, Va., August 4.—George Gould had a narrow escape from drowning today. He fell from a steam launch while following the Virginia and was rescued with difficulty.

OFFICIAL NOTIFICATION OF WAR.

Washington, August 4.—The Japanese legation has received a telegram containing a formal announcement of war against China.
