

HOW CANBY WON.

An Account of the Big Game of Football on Friday.

The game of football on Friday evening on the Astoria Football Club grounds between that club and Fort Canby was one of the most exciting and best contested ever played in this city.

Throughout the game the interest of all was keen, and quick plays numerously strewn throughout the match caused a continuous rattle of applause all around the ground.

There were no accidents of any kind beyond the ordinary trifling sprains and bruises which will by Monday be only remembrances. The game played by the soldiers was throughout a splendid exhibition of football, and from beginning to end there was not a single instance of rough or ungentlemanly play on either side—a result that says a good deal for the sportsmanlike character of both teams.

To revert to the game itself. A strong wind was blowing down from the grand stand goal, and Captain Wilson, of the Fort, winning the toss, decided to take advantage of the breeze and kick to the southern end.

When play was resumed, the wind had died down a little, but the change of sides at once made a perceptible difference in the play of the Astoria boys, who buckled down to work in fine style and put the soldiers on their mettle in a way that brought out a good deal of hearty applause.

Fort Canby—3 goals. Astoria—1 goal. The local boys came home defeated, but not by any means disgraced. McKinley and Hansen played the best combination forward game that has yet been shown by the home team, and Bennett in goal proved that the judgment of those who selected him for that important place was not at fault.

BEWARE OF FIRE.

The governor has issued the following proclamation:

"In accordance with the provisions of an act of the legislative assembly of the state of Oregon, passed at its several regular sessions, entitled, 'An act to protect timber and other property from fire, I do hereby make proclamation calling the attention of the people of the state to its provisions, and warning all persons against violating the same.'"

By the provisions of the act alluded to by the governor, if any person shall maliciously with intent to kindle a fire by which the property of others shall be destroyed, he is subject to a fine of from \$20 to \$1,000, or imprisonment in the county jail from three to twelve months; or if any person without malice kindle any fire in a field not his own without the consent of the owners, by which property is destroyed, he is subject to a fine and imprisonment; or if any person shall willfully set fire to any forest belonging to the state or United States, he shall be deemed guilty of a misdemeanor and shall be subject to fine and imprisonment.

AN ABSOLUTE RULER.

Interesting Account of Rev. William Duncan's Island.

The following interesting account of the missionary home of Rev. William Duncan is from the last issue of the Alaska Herald, published at Sitka. It will be of special interest to many Astorians who have visited the noted missionary on Annette Island, Alaska, where he has resided with his Metlakatla charges for many years.

Rev. William Duncan, who has for thirty-seven years been a missionary among the Metlakatla Indians, has built a principality which is a model and practical demonstration of good and effective missionary work. His flock number 800, and are steadily increasing. Rev. William Duncan is absolute ruler over his small domain, which is known as Annette Island. The island is about fifty miles long and twenty-five miles wide. All around the shores are valley and rolling lands, on which are great forests of pine, cedar, and similar trees. Father Duncan's wards are all well-trained, industrious, and energetic. They have a sawmill, cannery, etc., all of which were erected by the Indians.

Rev. William Duncan is accomplishing a noble work and is making a record for heroic self-sacrifice. The following is the declaration of residents:

We, the people of Metlakatla, Alaska, in order to secure to ourselves and our posterity the blessings of a Christian home, do severally subscribe to the following rules for the regulation of our conduct and town affairs:

- 1. To reverence the Sabbath and refrain from all unnecessary secular work on that day; to attend divine worship; to take the Bible for our rule of faith; to regard all true Christians as our brethren; and to be truthful, honest, and industrious.
- 2. To be faithful and loyal to the government of the United States.
- 3. To render our votes when called upon for the election of the town council, and to promptly obey the by-laws and orders imposed by the said council.
- 4. To attend to the education of our children and keep them at school as regularly as possible.
- 5. To totally abstain from all intoxicants and gambling, and never attend heathen festivities or countenance heathen customs in surrounding villages.
- 6. To strictly carry out all sanitary regulations necessary for the health of the town.
- 7. To identify ourselves with the progress of the settlement, and to utilize the land we hold.
- 8. Never to alienate—give away—or sell our land, or building lots, or any portion thereof, to any person of persons who have not subscribed to these rules.

TIMBER FROM PUGET SOUND.

Used in the Gold Mines of Johannesburg, South Africa.

A traveler recently returned from South Africa tells the American Contractor that for use in the gold mines of Johannesburg, the Puget Sound fir is leading all others.

It will be remembered that during the past year one of two cargoes have gone that way, as well as to Calcutta and other far-off ports. The gentleman says that it has been discovered to be the best material obtainable for timbering the mines, and he may look for an extensive export trade from Oregon, Washington, and Vancouver during the next few years. Norway pine was first used, then the southern pine shipped from Mobile, Ala., but both were found to be too heavy to give first-class results. Finally some of the mining engineers from our western mines, who have secured fine berries in the Johannesburg district, induced some of the big owners to try Oregon pine or spruce. The first trial order was promptly followed by a second order for 1,000,000 for this one mine, and when I left I understood that a number of other big mines would soon order their timber supply from the Pacific coast.—Seattle Telegraph.

PLEASE EXPLAIN.

To the Editor of the Astorian:—I would like to know by what authority Herman Wise, the present postmaster, takes one of the letter carriers off his route and pays him doing clerical work in the postoffice which should be done by the postmaster himself. By doing this he breaks the laws of the postoffice department, delays the delivery of mail, and throws more work on the remaining carriers than they are able to do. If Mr. Wise can not do his hire in the office himself, why don't he hire some one else to work in the office and not make the public suffer because he is not willing to pay a few

dollars out of his pocket for extra help.

"Gentlemen:—Please send Krause's Headache Capsules as follows: Two boxes to Flora Seay, Havanna, N. Dak. Two boxes to Little Wilcox, Brookland, N. Dak. I have always been a great sufferer from headache and your Capsules are the only thing that relieves me." Yours very truly, FLORA SEAY, Havanna, N. Dak. For sale by Chas. Rogers, Astoria, Or., Sole Agent.

ON THE SAFE SIDE.

Everybody knows this is a good place to be, but everybody does not take measures to be there. An efficient preventive places us on the safe side of incipient disease, and there is no more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease, diabetes, dropsy, oedema, are but the outgrowths of neglected inaction of the kidneys and bladder. They should be checked at the outset with Bitters, which will prevent their progress by arousing the renal organs to activity, and thus place those who resort to this saving medicine on the safe side. This preservative of safety also conquers constipation, liver complaint, malarial fever, nervousness and dyspepsia.

"She Looketh Well"

to the ways of her household." Yes, Solomon is right; that's what the good housekeeper everywhere does. But her ways are not always old ways. In fact she has discarded many unsatisfactory old ways. For instance, to-day she is using

the New Shortening, instead of lard. And this is in itself a reason why "she looketh well" in another sense, for she eats no lard to cause poor digestion and a worse complexion.

COTTOLENE is much better than lard for all cooking purposes, as every one who has tried it declares. Have you tried it? For sale everywhere.
