NEARING AN END

Democratic Conferrees To Call in the Republicans Today.

THE BALTIMORE EXPOSITION.

Hard Mill Between Bowen and Carroll at New Orleans Declared a Draw.

Associated Press.

Washington, August 8.—When the Democratic conferrees adjourned today it was understood on all sides that the Democrats would report to a full conference tomorrow. Members of the conference supported the general faith by their statements, which were more or less sanguine or guarded, depending upon the temperament of the speaker, while the utterances at the time of the adjournment were not as strong as those which were heard early in the afternoon. They were sufficiently assuring to justify the statement that barring improbable contingencies, the Democratic members of the conference will find themselves prepared some time during tomorrow, or at latest on Friday, to call in the Republican members of the conference for a full meeting.

"I will not say," said Senator Jones, "that we have agreed, for that would not be true; but the situation is cheerful, and indications are that we shall finish tomorrow. If we do not come to an agreement tomorrow, I shall consider the conference at an end, for I do not see the utility of continuing our interview with the house conferrees longer."

About 2:30 the members of the conference and senators who had been closeted with them, confirmed it to the extent of saying that while the details had not been arranged, they felt confident this had been fixed upon, which the conferrees of both houses could stand, and the terms actually agreed upon which conservative senators would accept. Both Democrats and Republicans accepted this as the approach of the end, and as equal to a definite announcement of an agreement. The terms as given out were that of the sugar schedule as published last week, namely: Duty of 40 per cent ad valorem on raw sugar, 40 per cent on the value of raw sugar in the refined, and one-fifth of a cent differential in sugar; 40 cents per ton on coal, and free iron ore, with slight changes in metal, woolen and cotton schedules. They stated, however, that the coal and iron ore rates were among those which had not been fixed beyond recall. Indeed, the sugar appears from a statement given out, to be the only article upon which a definite conclusion has been reached, but it is understood that either coal or iron ore would go on the free list, and other articles would be dutiable at the senate rates. The metal schedule will have to be changed to accord with free iron ore. It is finally concluded that these articles are to be selected for the free list.

Members of the Louisiana delegation were not pleased with the reported agreement. There was much talk among them that the schedule would not receive their votes. Representative Catchings, of the rules committee, is hopeful that an adjournment of congress will occur next week.

The republican steering committee of the senate had a meeting after the adjournment of the senate today to consider the situation. The understanding among them was to the effect that the Democrats had not close enough together to allow the tariff bill to be reported back to the senate tomorrow. There were present Republicans who had information as to the status of the bill, and they stated that upon the manufacturing schedule the senate rates in the main were obtained, but on three principal items, sugar, coal and iron ore, a compromise had been reached. It was from this standpoint that the Republicans discussed the bill and the possibility of defeating it. It was first ascertained that the Republicans and Populists, Peffer and Stewart, would vote against the bill, and that Hill would also oppose it. Three more votes were necessary to defeat it.

An announcement was made with directness, that both Caffery and Blanchard, of Louisiana, would vote against it, though they were not considered absolutely certain. One of the senators had asked Senator Allen as to the position of himself and Kyle, who voted for the bill when it passed the senate, and while he had not received a positive answer, the inference was that the Populists seemed to think it was a part of their policy to vote against Hill. With the Republican side solid, and Hill, Caffery, Blanchard, and Allen voting with them, the bill could not pass. The Republicans had to acknowledge, however, that the prospects

of getting all three of the last named was extremely doubtful. The impression prevailed that a decisive vote would be taken tomorrow, and absent senators were telegraphed to return to Washington.

BALTIMORE'S EXPOSITION.

Five Millions Will be Expended by the City.

Baltimore, August 8.—The Manufacturers' Record, of this week, publishes an interview with Fred H. Brackett, who has been selected as general manager of the Baltimore Centennial Exposition, to be held in 1897, giving particulars regarding the magnitude of the undertaking. Brackett states that the exposition will be the greatest ever had in this country, except the Centennial and the Chicago World's Fair. It is said that outside of the expenditures of private concerns, or individuals, at least \$5,000,000 will be expended upon the fair. A detailed report of the proposed construction expenses shows a total of nearly \$2,500,000 for buildings and improvements to the grounds. While the exposition will be national and international in scope, large exhibits from foreign countries being expected, it is proposed to supplement the work of the Atlanta Southern Exposition by the most comprehensive display of Southern resources and Southern manufacturers' products ever gathered in any section.

A HOT FIGHT.

Jim Carroll and Andy Bowen Have a Mill at New Orleans.

New Orleans, August 8.—Jimmy Carroll and Andy Bowen met tonight in the auditorium of the Athletic Club and fought for \$1500. Both men weighed in at 150 pounds.

In the first round, Bowen knocked Carroll down and landed a right on Carroll's face. In a hot rally Bowen had the best of it, and pushed Carroll through the ropes.

The second round was a roaster, the fighting being fast and furious. In each round to the ninth, the fight was of a very interesting character, neither appearing to have any advantage materially. In the ninth, Carroll struck Bowen under the jaw, knocking him down. Fighting continued to the 25th round, the contestants being fairly matched in the matter of giving and taking punishment.

In the 25th round, Carroll seemed to have the best of the fight, and the opinion was general that he would have won in a few rounds more, but the referee decided the fight a draw and the purse will be equally divided.

GOV. MCGRAW'S PROCLAMATION.

Tacoma, August 8.—A special to the Ledger from Olympia says: The governor has issued the following proclamation:

Whereas, there will be opened on the fifteenth instant at Tacoma, an interstate fair, consisting of the combined exhibits of industrial and natural resources of the states of Montana, Idaho, Oregon, Washington, Province of British Columbia and Territory of Alaska, which fair will continue until the first day of November next; and whereas the citizens of said states, province and territory, have evidenced their appreciation of the objects of said fair, and the benefits likely to accrue therefrom, by pecuniary assistance, and by a generous placement of exhibits, now, therefore, I, J. H. McGraw, of the state of Washington, do hereby request that each county in the state present a suitable exhibit of its industrial and natural resources, and earnestly urge ardent co-operation of the citizens of Washington, to the successful consummation of the purposes of said fair, thereby rendering an incalculable impetus to the future advancement and prosperity of our state.

TO THE NEGRO DEMOCRATS.

Washington, August 8.—Robert G. Still, as chief of the American bureau of organization of the Democratic congressional committee, has issued an address to the Democrats of color of the United States. The address says in part:

The national negro Democratic league will convene at Indianapolis on the 14th inst. It is to be hoped that the negro Democrats from every state and territory will be represented, to evidence by their presence and show their loyalty to the principles of the administration. At no time in the history of the negro Democracy has there been a greater necessity for counselling together to determine the future cause and policy of the negro in America.

This is the first time the negro has been directly appealed to, and its response was evidenced by the return of a large Democratic majority in every negro section of the state.

MILLS RESUMING BUSINESS.

Pittsburg, August 8.—The Mahoning Valley mills are resuming after long periods of idleness. Coleman & Shields, of Miles, Ohio, have been idle a year. The Girard, Ohio, Rolling Mill has been closed six months. All are running in full today.

IS BECOMING SERIOUS

The Packing House Butchers Are Creating Trouble.

OREGON'S "ANTI" GOVERNOR.

A Woman Politician Who Will Wed the Man Who Withdrew in Her Favor.

Associated Press.

Omaha, August 8.—The crisis arrived tonight, and if there is no improvement by morning, several companies of militia will be sent to South Omaha, and the packing house district placed under martial law. The situation is most serious, and the 1500 strikers have been doing about as they pleased. At 6 this evening, they forced the picket line that has for forty-eight hours surrounded the packing houses, under the walls of the big buildings, and their number was increased by the addition of several hundred. At 8 o'clock Mayor Johnson, of South Omaha, went before the Omaha police board and asked that a detail of police be sent there, as he was powerless to control the lawless element.

HIS OUR GOV'NR.

Anti-Railroad, but Carries a Pocketful of Annuals.

Portland, August 8.—The Oregonian says:

This afternoon Governor Penney, a Populist, Hon. A. Bush, a Democrat, and Hon. E. P. McCormack, a Republican, boarded the train at Salem, bound for Portland. They were soon seated together, and an animated political discussion followed. The conductor was seen coming down the aisle toward the group. Bush smiled knowingly and told the governor to get his ticket ready, adding: "Now is my chance to see a real live governor produce a railroad ticket he has really paid for. We will now see the Populist battle cry of 'anti-railroad pass' demonstrated. Of course, Governor, after your speeches during the recent campaign, about public officials being influenced by railroad passes, you, of all men, won't present one."

But the governor was not a bit disconcerted. Calmly drawing a small leather card case from his inside pocket there flashed into view any number of complimentary transportation annuals. One marked "Southern Pacific" was pushed to the top. The conductor passed on with the governor's "number." Bush winked at McCormack. Penney said something about the extreme heat, the subject was dropped, and the political incident was ended.

SHREWD POLITICAL DEAL.

A Dakota Woman Knows a Thing or Two in Politics.

Minneapolis, August 8.—A paper published near Forman, North Dakota, brings out a romantic incident in connection with the nomination by the Republican state convention, of Miss Emma Bates, of Valley City, to be state superintendent of schools. Miss Bates had charge of her canvass for the nomination, and found considerable opposition in John Devine and Prof. J. H. Holland. She was able to sidetrack the latter by making herself solid with the Young Men's Republican League. She then entered into negotiations with Devine, first demanding unconditional surrender. This he resisted. After further negotiation it is said he agreed to pull off the track, provided, if she was elected state superintendent, she would make him her deputy, and marry her in the bargain. She agreed to do this, providing he would stump the state for her. As he is a powerful speaker, with abundant wit and repartee, Miss Bates is conceded to have made the shrewdest political deal ever known.

FOR THE INTERSTATE FAIR.

Washington, August 8.—The secretary of the interior has issued a circular to all the customs officers calling their attention to the act of congress recently approved by the president admitting free of duty all foreign exhibits for the interstate fair which opens at Ta-

coma August 15, and directing that the regulations issued by the treasury department governing the importation of articles intended for the Chicago fair shall apply at the Tacoma fair. Exhibits may be transferred from the California Midwinter Exposition at San Francisco to Tacoma by any boat or railroad, bond being taken from the owner (without security, conditioned upon due entry of the exhibits at Tacoma.

THE NEW YORK MARKET.

New York, August 8.—There was another panic in the corn ring on the produce exchange today. This time the bears won and the bulls were getting out long holdings in a dazed sort of way. Country speculators especially, felt the effects of the break, as they have been making big bulls on corn. September corn opened 64, broke to 59 1-2. This happened within half an hour, amid a great uproar. Wheat opened weaker, and advanced a trifle and then dropped 1 1-2 to 1 3-4.

Chicago, August 8.—Grain opened excited and higher again today, but the fluctuations of early trading were not so wild as yesterday. Country buying orders continue to push the prices upward. Local professional traders have been fighting the advance ten days, feeling assured that rain must come before the absolute rule of winds. Instead of rains, there are hot winds, and the result is that country speculators have been making money hand over fist.

THE DREADED TYPHOON.

Washington, August 8.—In speaking of the probabilities of the pending war between Japan and China, an official of the Japanese legation recalled the fact that the season of the monsoon and typhoon is now rapidly approaching. The presence of the former is not regarded as a menace to sea maneuvering, but the fear is of the latter. The typhoon is a revolving wind storm, whose effects are disastrous. It is believed by the officials of the legation that the naval movements during the typhoon season, at least, will be somewhat circumscribed. The Chinese will not venture a great distance from their coast, but will keep close to port. Japan, it is thought here, will wage an aggressive war against China, and some of her objective points in all probability, will be Chinese ports.

ANOTHER BATTLE.

Yokohama, August 8.—Zikoon has been taken by the Japanese with a trifling loss. The enemy fled in the direction of Kaitu. The Japanese are in possession of Yashan. The imperial ordinance just issued permits Chinese to reside in Japan on the condition that they engage in peaceful pursuits. The greatest excitement prevails here and at Tokio, and at other large towns as the result of the victories of the Japanese troops. Rumors, however, are current that the Japanese naval forces have been defeated in an engagement with the Chinese warships.

HUNDREDS OF INDICTMENTS.

Colorado Springs, August 8.—Dr. J. T. Reed, a prominent mine owner and politician, has been arrested as one of the principals in the Tarnsey outrage. The grand jury returned 321 indictments, mainly growing out of the Cripple Creek troubles, and in presentment, says: "The executive officers of the county have been seriously interfered with by the executive department of the state in the execution of writs."

A SWIFT DEPUTY.

Moscow, Idaho, August 8.—George N. Hincley, deputy county auditor of Latah county, was arrested at Boise tonight on a charge of raising county warrants. His shortage already discovered amounts to \$15,750, and it may reach \$25,000. He was a fast liver.

TO IMPEACH OLNEY.

Washington, August 8.—Representative Bryan, of Nebraska, has a petition bearing 1000 signatures, for an investigation of the course taken by Attorney General Olney during the recent strike, looking to his impeachment.

CHOLERA IN LONDON.

London, August 8.—Four patients from the steamship Balmora, which arrived at Gravesend yesterday from St. Petersburg, are found to be suffering from Asiatic cholera.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.

Royal Baking Powder

ABSOLUTELY PURE
