ON THE SAFE SIDE.

Everybody knows this is a good place to be, but everybody does not take measures to be there. An efficient preventative places us on the safe side of incipient disease, and there is no one more reliable than Hostetter's Stomach Bitters in cases where the kidneys are inactive, which is the preliminary to various destructive maladies, which disregarded have a fatal termination. Bright's disease, diabetes, dropsy, oedema, are but the outgrowths of neglected inaction of the kidneys and bladder. They should be checked at the outset with Hostetter's Bitters, which prevent their progress by arousing the renal organs to activity, and thus place those who resort to this saving medicine on the safe side. This preservative of safety also conquers constipation, liver complaint, malarial fever, nervousness and dyspepsia.
