## STRAPPED TO HIS BED

A Chicago Millionaire in the Inebriates Home.

### ANOTHER BATTLE REPORTED.

More United States Cruisers to Proceed to the Asiatic Station Other News.

Associated Press.

Chicago, August 14.—Strapped down to his bed, imprisoned by barred windows and locked doors, in a barren room on the fourth floor of Washington Home, "Plunger" Ed. Partridge, who yesterday threw the board of trade into a turmoil by fighting with the door-keeper, is undergoing a most rigorous treatment for alcoholism. He was brought to the home yesterday by his son, who was assisted by several friends. The nervy speculator had to be conveyed to the home in a closed carriage, and was placed in charge of the doctors by main force. He became violent when he was being searched preparatory to a protracted stay, and it required four attendants to carry him upstairs and install him in one of the cell rooms, which are reserved for the worst patients. Partridge is one of the most prominent men on the Chicago Board of Trade, accounted a multi-millionaire, proprietor of one of the largest dry goods stores in the city, and an operator of great nerve. He is a unique figure on the floor of the board. For months he has been on the bear side of the wheat market, and his winnings on change last year are said to reach into seven figures. Partridge has of late worshipped freely at the shrine of Bacchus, and has created several scenes on change. A few days since, he appeared on the floor in an unsteady condition, and threw money broadcast about the pit, raising such an uproar that he was suspended for sixty days. Yesterday he attempted to go on the floor, and after a fierce fight with the door-keeper, was finally carried from the building. At Washington home, Partridge succeeded in creating as much excitement among the inmates today as he did on change yesterday. Two attendants went to the "lunger's" room and subdued him. Later, when he heard steps in the hall, he made ready to brain some of his captors with a chair, and one of the attendants barely escaped. Superintendent Somerville said: "It is our belief that we shall effect an ultimate and permanent cure, but just now, he is not in a very encouraging condition."

### POLITICAL REFUGEES.

Salvador's Deposed Vice-President on Board the Bennington.

San Francisco, August 14.—In naval circles and along the water front here, a lively interest has been awakened by the case of Gen. Antonio Ezeta, deposed vice-president of San Salvador, who is now on board the United States ship Bennington, with other refugees from San Salvador. The outcome of the proceedings to be brought in California, whereby the Salvador government, which is exciting every effort to extradite the fugitives, is lost sight of at present, in a general expectancy of the exciting developments when the Bennington shall arrive in port. The cruiser is expected to put into port at any time.

It is generally believed that the government will intercept the Bennington and hold her outside the heads until a warrant for Ezeta's arrest arrives from Washington.

### CORBETT HAS HIS SAY.

New York, August 14.—Police Captain Glor, of Newark, who is Fitzsimmons' backer, received the following from Wm. Scholl of the Olympic Club, New Orleans: "Have wired puglist Corbett, at Ashbury Park, offering him a purse of \$20,000 to meet Fitzsimmons, the winner to take all. Fitzsimmons has accepted."

The proposition was telegraphed to Corbett, and the following answer came: "I never saw a dollar of Fitzsimmons' money. Why does he not come out like a man and issue a challenge to the world, backed by cash, and if no one accepts it, it is my duty to do so."

### A FIENDISH CRIME.

St. Louis, August 14.—The Kahn farm, about three-fourths of a mile east of East Carondelet, Ill., was the scene Tuesday night, of a murder that surpassed in horrifying and inhuman details, anything in that section of the country. The slaying of a defenseless old man by his wife and a farm hand in order that the victim might not discover an illicit intrigue, and that the assassins might reap the benefits of an insurance policy on his life, was accomplished by shooting Kahn and then forcing out his brains with a double-faced, boiler-maker's hammer, and a revolver. The body was found about 150 yards

from Kahn's home. The murderers were arrested a short time after the discovery. They confessed their horrible crime yesterday and are now locked up in the county jail at Belleville.

### PENSION FOR WIDOW SCHWATKA.

Suit Against the Stanford Estate to Begin at Once.

Washington, August 14.—The house committee on pensions has agreed to the senate bill to pension the widow of Lieut. Schwatka Arctic explorer, at \$30 a month. There is reason to believe the Government's claim against the estate of ex-Senator Stanford will be tested in the courts before there has been any actual default in payments. Under the conditions, the attorney general proposed, if the executrix would waive any rights she might have by reason of the premature bringing of the suit, he would gladly consent to have the proceedings begin at once. No conclusion has yet been reached, but it is expected no objection will be made to that course, especially as a speedy adjudication of the claim would be to the interest of the estate. The suit also would determine the status of the government's claim against C. P. Huntington and others.

### BANKERS ON TRIAL.

Tacoma, August 14.—The trial of Walter J. Thompson, Henry Drum, Samuel Collier, and R. J. Davis, former officers of the Merchants' National Bank, now in the receivers' hands was begun today in the federal court before Judge Gilbert. They are charged with misappropriating funds and credits of the bank, and making false entries in the books. A jury was secured, and several witnesses examined. The defendants have retained several of the most prominent legal firms in the state.

### THOUSANDS AT WORK.

## WILL CLEVELAND SIGN

The Tariff Bill Will Reach Him Today.

### GRAIN RATES REDUCED.

The Big Suit Against the Stanford Estate Will be Commenced Soon.

Associated Press.

Washington, August 14.—It is not thought possible to pass the free coal, iron ore, and barbed wire bills in the senate. There is little doubt, in case a direct vote could be had, the free sugar bill would be passed. If it should fall of being referred to the finance committee, the Republicans would offer a bounty amendment which would carry if Stewart's vote could be had, otherwise defeated by a tie vote. It is said the bill would be debated at such a length that it would go over till the next session.

Manderson objected to a second reading of the free list bills. Hill gave notice of an amendment repealing all income taxes. The bills will come up tomorrow. Hill introduced a resolution for printing 50,000 copies of the house bill known as the "sugar tariff bill." Vest protested against this title.

### THEY ARE STUCK.

Trying to Adopt a Course on the Supplemental Tariff Bills.

Washington, August 14.—The Democratic leaders of the senate have occupied a considerable portion of the day in trying to determine what course to pursue with reference to the supplemental tariff bills. The Democratic steering committee was in session two hours after the senate adjourned, trying to determine upon the most advisable policy under the circumstances, and previous to a meeting the conservatives had a conference upon the same subject. It is understood the conservatives advocate the reference of the bills to the finance committee, while the steering committee is apparently somewhat divided on the question. The appearances indicate, however, that a large majority of the Democratic senators would like to have the bills passed if they would feel assured their passage would not reduce the government revenues to too great an extent. The interest on these bills, as in the main tariff bill, is the sugar question, and it is to the free sugar bill that they are giving their attention.

There is an evident tendency on the part of the majority of the Democratic senators toward amending the sugar bill, so as to make it a revenue bill, pure and simple, and it is now the program of the Democratic leaders to amend the bill if there should prove to be a prospect of its becoming a law, reducing the duty, making it uniform, and striking off the differential on refined sugar.

Secretary Carlisle was at the capitol today while the conference was in progress, and was asked to supply his estimate, which he promises to do.

A leading member of the steering committee expressed an opinion that a duty on sugar of 25 or 30 per cent would afford all the revenue from that source that is needed.

### BIG INCREASE EXPECTED.

The Customs are Expected to Amount to Over a Million a Day this Month.

Washington, August 14.—The treasury officials anticipate a great increase in the receipts from the internal revenue services within the next ten days in case the president allows the tariff bill to become a law.

Large amounts of whisky and spirits at all the great distillery centers have been regauged at the solicitation of owners, and as it cannot be regauged again, it will be assumed that practically all of it will be drawn if possible, before the tariff bill becomes a law. During the next ten days, the internal revenue receipts are expected to reach \$1,500,000 a day. The customs officials of the treasury expect also a marked increase in customs receipts from now on, and particularly during the next month or so. Large quantities of goods

now held in the bonded warehouses at New York, Boston, and large seaports, will be withdrawn as quickly after the bill becomes a law, to meet the demands of fall trade. The withdrawal of 50 cents per pound duty on cigars is expected to stimulate the trade to some extent in that line.

### THE TARIFF BILL.

Will Try and Induce the President to Sign.

Washington, August 14.—As the house of representatives adjourned till Wednesday, the tariff bill cannot be sent to the White House until tomorrow. It will be enrolled carefully, compared today, and tomorrow will receive the signatures of Speaker Crisp and Vice-President Stevens. Great pressure will be brought to bear on the president to induce him to sign the bill, but the statement made by the Associated Press yesterday, that it is his intention to let the bill become a law without his signature, can be reiterated today. A member of the cabinet said today that if the president should conclude to affix his signature to the bill, it will be accompanied by a statement of his reasons.

### WILL REPORT TODAY.

Washington, August 14.—The conference committee of the two houses concluded the consideration of the sundry civil bill today, and will report a disagreement tomorrow. The senate will receive from the amendment appropriating \$150,000 for public buildings at Boise, Cheyenne, Helena, and Spokane. The house will accept the amendment of the senate for land surveys in the states of Washington, Idaho, Montana, South Dakota, and Wyoming, in regard to the soldiers' additional homesteads, and the amendment containing the donation of 1,000,000 acres of land to arid land states for the encouragement of irrigation remained in the bill, but in an amended form.

### THEY REDUCE THE RATE.

Portland, August 14.—General Manager Kendrick, Assistant General Manager Dickenson, Attorney Ashton, and Assistant General Freight Agent S. G. Fulton, of the Northern Pacific, and Receiver McNeill, and General Freight Agent Campbell, of the Oregon Railway and Navigation Company, held a conference in this city today, which resulted in a reduction from \$5.70 to \$4.50 per ton on wheat from Walls, Walls, Pendleton, and Riverville districts to the seaboard, and the adoption of a \$5 per ton rate from points east of the Blue mountains.

### THEY HAD A CONFERENCE.

Washington, August 14.—The Chinese minister had a long conference with the state department today, with Secretary Gresham, respecting the concluding phases of the negotiations upon the new Chinese exclusion treaty just ratified by the senate. The minister has notified his government of this action, and as soon as the treaty is ratified in China, the documents will be mailed to the United States, and ratifications will be exchanged in Washington, all of which is expected to consume about six weeks.

### WILL GO TO CHINA.

Washington, August 14.—Secretary Herbert has ordered the United States Cruiser Charleston now at Mare Island, to prepare to sail for the Asiatic station.

The Baltimore and Monocacy have been there for some time, and recently by the Concord and Petrel, forming a part of the Behring Sea patrol fleet, were ordered to join them.

### ST. LOUIS HAS A HOT DAY.

St. Louis, August 14.—Today was the hottest experienced in this city for eight years. The thermometer at 3 p. m. was 102, at which point it stood for two hours. Reports from this and adjoining states point to the same condition. Many prostrations are reported, and one death.

### REJECT THE BILL.

London, August 14.—The evicted tenants' bill has been rejected by the house of lords by a vote of 249 to 30.

### TEXAS DEMOCRATS MEET.

Dallas, Tex., August 14.—The Democratic state convention met today and a split is threatened on the silver question.

Highest of all in Leavening Power.—Latest U. S. Gov't Report.
