The Astorian guarantees to its subscribers the largest circulation of any newspaper published on the Columbia river.

Advertising rates can be obtained on application to the business manager.

This paper is in possession of all the telegraph franchises, and is the only paper on the Columbia river that publishes genuine dispatches.

The Daily Astorian's circulation is five times as great as that of the combined circulation of the other daily papers of Astoria.

The Weekly Astorian, the third oldest weekly in the state of Oregon, has next to the Portland Oregonian, the largest weekly circulation in the state.

Subscribers to the Astorian are requested to notify this office, without loss of time, immediately they fail to receive their daily paper, or when they do not get it at the usual hour. By doing this they will enable the management to place the blame on the proper parties and to insure a speedy remedy.

Handley & Haas are our Portland agents and copies of the Astorian can be had every morning at their stand on First street.

**THE YANKEES OF THE ORIENT.**

The action of the Japanese at the recent battle on the Yalu proves to have been a brilliant affair and worthy of the gallantry of the Western races. They crossed the river in the face of the Chinese, strongly entrenched and provided with artillery, the Japanese, as before stated, consisting of a flying column of light infantry, or riflemen, led by Col. Sato. It seems that the Celestials fought well behind their works, holding out for nearly three hours, but when driven out fled in disorder. At daybreak today Field Marshal Yamagata's plan of a concerted and concurrent attack on the Chinese army was to be carried out, but a night attack may have been made, a sort of warfare in which the attacking party generally has the advantage, and at which the little Islanders have already shown some skill. The alert invaders have planned to capture Moukden before November 3, which is the birthday of their emperor. This ancient capital, with its stores of treasure and munitions of war, would have made a most imperial gift, but the emperor with a modesty and consideration worthy of General Grant, depreciated strongly any needless risks for the realization of this sentimental idea, and it was not attempted. But the incident is valuable as showing the patriotism and devotion of the army and the people of Japan.

The Japanese hold every strategic point in Corea, and the country is tranquil.

Japan is doing well. Let her alone.

Mr. John W. Goff went at Mr. Sheehan, the police commissioner, the other day in the spirit of a destroyer and with the fine touches of an artist. The fact that Sheehan did not know the location of station houses served to show that his mighty mind was occupied about other matters largely. Then his history was a typical chapter of Tammany. He arrived in New York in July, and got a \$4,000 place in August, and a law practice, in which he never had occasion to go into court. He is in a firm whose business relates to excise, and draws \$5,000 a year, and his police commission salary is also \$5,000, and he has a ponderous pull in contracts, always the lowest bidder, and that sort of thing. There ought to be another \$10,000 a year in those contracts. This, for a young man who went from Buffalo six years ago, is the reward of talent and the improvement of opportunity.

Among local Democrats it is regarded as significant that such an astute gambler as Mike Dwyer, of race-track fame, should express himself as willing to wager a large amount of money upon the success of David B. Hill in New York. It seems strange that the experience the voters of the Empire State have had during the past two years has not been sufficient to make them once and for all renounce their allegiance to that party whose success has been so disastrous to their pockets. Mr. Dwyer evidently thinks he reads the signs of the times correctly, as he bears the reputation of being almost infallible in cases where he backs his opinion with coin.

The attempted outrage upon the crew

of the Iroquois by the Turk-"Bunce" Kelly outfit yesterday, was the most flagrant instance of brutality and dishonesty to sailors that has been exposed during many years past. It is true the attempt was foiled by the firmness of Captain Nickels, but it is a matter of regret that the law cannot reach such scoundrels as Turk and mete out to them the punishment they so richly deserve.

**PERSONAL PARAGRAPHS.**

Chauncey M. Depew, Henry Irving, and Dr. Horace Howard Furness have become members of the Edwin Booth Shakespeare League, of New York.

Joseph T. Field, of Red Bank, N. J., is just 122 years of age. He has three children, born since he was 72, and he is mentally as bright as the youngest.

Mrs. Dent Casey, a sister of Mrs. U. S. Grant, has leased her residence in Washington and will spend the winter in New Orleans, with her youngest daughter.

The late president of the Argentine Republic, Dr. Pellegrini, is now a partner in a firm of auctioneers, while the ex-minister of finance is very appropriately a money lender.

The French Duchess d'Uzes has between 12,000,000 and 14,000,000 bottles of champagne in her cellars in the Rue de Temple, Paris, and as many more in her vaults at Rheims.

Colonel James H. Church, of Todd County, Kentucky, dreamed he was to die at a certain time and place. He was a corpse to the minute. His funeral was a grand one.

Tennyson's biography, now being prepared by his son, will not be ready for two or three years. A great deal of material has to be sifted and arranged, including 50,000 letters, many of which have been loaned.

David McCoy, of Redlands, Cal., who is of the reputed age of 104 years, is taking his old-time interest in election matters, in the golden state, and expects to vote next month as usual. He is a Republican.

Miss Braddon has now been writing for over thirty years, with undiminished reputation. She usually commences work soon after breakfast and considers her task completed when she has composed 3,000 words.

Francisque Sarcy writes in a recent feuilleton that he never replies to attacks on him, because he is convinced that the public judges a man by the sum total of his own work, and not by what a casual enemy may say about him.

**EXTENDED SYMPATHY.**

"Do unto others as you would have others do unto you," is sympathetically shown in the following lines, the presumption being that sympathy is born, or akin to pain or sorrow:

"Gentlemen—Please send Krause's Headache Capsules as follows: Two boxes to Flora Seay, Havana, N. Dak. Two boxes to Lillie Wilcox, Brookland, N. Dak. I have always been a great sufferer from headache and your Capsules are the only thing that relieves me." Yours very truly,

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical world. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address,
