Of ready-made trousers will answer if you can stand in a barrel all day. They're hardly safe to wear about the streets.

Some kinds of ready-made clothing look very well behind plate glass windows, when all pressed up, embellished with bright satens and millinery bouquets. It never looks as well elsewhere.

The prices on such goods will positively surprise you. It may even sometimes occur that you'll wonder how they are sold so cheap. You'll wonder less if you ever try them. Experience is a powerful teacher. Better profit by the other fellows' whenever you can.

ELMORE, SANBORN & CO.

The great labor leader of Massachusetts, is ex-Senator "Bob" Howland, who for the past twenty years has been engaged in the effort to shorten the hours of labor and raise the rate of pay. BRANCH HOUSE.

The Great Kimball Factory Establish Headquarters in Portland.

Fine Display of Kimball Pianos and Organs at 335 Morrison Street, Marquam Building.

The W. W. Kimball Co., of Chicago, has recently opened a branch house in Portland, under the management of its Pacific Coast representative, Col. L. V. Moore, and a fine display of this company's own make of pianos and organs can now be seen at its ware-rooms, 335 Morrison street, corner of 7th.

The W. W. Kimball Co. is the largest piano and organ manufacturer in the world. Its factory embraces over eleven acres of floor space, and turns out over twenty pianos and sixty organs per day. It is also a very wealthy corporation, its capital being exceeded only by a few of the largest banks of the United States.

This will be good news to the public, who can now get a high grade piano or organ from a reliable, responsible company at a reasonable price and on favorable terms.

The Kimball piano has been used and endorsed by every grand opera company appearing in Chicago, since it was placed on the market, and is used and endorsed by musicians, composers, and leaders of orchestras of unquestionable reputation and standing, such as Adelina Patti, Lilli Lehman, Minnie Hank, Lillian Nordica, Emil Liebling, Chas. Kunkel, P. S. Gilmore, John Philip Sousa, Hans Balatki, Julius Perrotti, and many others, while the Kimball organ has received the first premium at state fairs throughout the middle states, is endorsed by organists of the leading churches of Chicago, and by a great many organists and musicians of wide reputation. And, again, both the Kimball piano and organ received the highest awards at the World's Fair, and no one will hesitate about buying a kimball as its endorsements should satisfy the most skeptical in regard to the musical quality, and the standing of the Kimball Co. itself is a guarantee that the material and workmanship is the best, which ensures its durability.

A cordial invitation is extended to the public to call at the company's ware-rooms when in Portland and inspect its stock, or to write for catalogue and prices, which will be furnished promptly free of charge.

METHODIST CHURCH CONCERT.

Elsewhere we announce a grand vocal and instrumental concert, to be given on Tuesday evening, November 6th, at the Methodist Episcopal church, under the direction of Mrs. H. T. Crosby.

Since the advent of Mrs. Crosby in Astoria a year ago, it has been our pleasure to observe a marked improvement in the tone of the public musical performances given in our midst. On every occasion in which her advice or service has been sought in aid of public of private entertainments of this nature, it has been cheerfully given, and the results have proven the value of her artistic knowledge and cultivated powers. The public appreciates success, and nowhere has that been more apparent than in her organization and musical of "The Schubert Club," whose success formed so charming a feature of last season's social enjoyment. To her also is due the organization and direction of the choir of the Methodist Episcopal church, the rendition of whose elevating and beautiful selections has accompanied the devotional thoughts of many of our people. Those of us who were fortunate enough to attend the concert given at that church on the evening of the fourth of July last, will not soon forget the classical beauty of the program and the finished style of its performance.

The concert is to be given under her direction will be one of the best that this season will afford, and will amply repay the attendance of all lovers of good music.

Frank L. Stanton, the Georgia poet, preserves a queer memory of General Sherman. When the Union forces invaded Savannah, the general placed a guard at the house of the poet's father, who was a northern man, and afterwards visited him. While he was there the infantile poet came into the room, and Sherman, taking him upon his knee, said: "This is a fine fellow, but his head is a heap too big." Stanton became a "devil" in a printing office, afterwards a compositor, before he began to produce the verses that have made him celebrated in the South.
