

THE COLUMBIA AND EASTERN.

Articles of Incorporation of a New Railroad Were Filed Yesterday.

Articles of Incorporation of the Columbia and Eastern Railroad Company, says the Sun, were filed with the county clerk yesterday afternoon by Colonel R. W. Mitchell, Henry C. Grady and C. W. Johnson. The capital stock is placed at \$500,000, divided into 5000 shares of \$100 each.

The company proposes to construct a railroad from a point in Clatsop county, at or near the mouth of the Columbia river, through the valley of the Nehalem, then through Columbia, Washington, Multnomah, Clackamas, Marion, Linn, Harney and Crook counties, to a point near the Snake river at Ontario, or near Owyhee. If practicable, the company will purchase the Astoria and South Coast railroad, running from Young's Bay to Seaside, and connect it with the proposed line. Branch lines will be built wherever and whenever necessity demands. The company will also engage in the manufacture of lumber, quarrying rock, mining coal, and in the operation of ferries.

The proposed line will pass through a rich country, especially from Astoria to Portland, as undeveloped coal mines abound in the Nehalem valley. This scheme embodies the plans of the Schofield line from Portland to Astoria, on which some grading was done in 1892. It is entirely different in its features from the line which the Union Pacific intended to build. The latter which is a company composed of R. W. Baxter and other Union Pacific officials intended to build, was practically a consolidation of all interests, it being proposed to give Astoria rail communication with Portland by a connection with the Northern Pacific at Goble, and to tap the Nehalem by branch lines. Some railroad men claimed that this scheme would not be a profitable one as the company could not meet river competition. They advocated a line through the Nehalem such as the new company intends to build, with extensions in other directions.

From the articles of incorporation, it would appear that the new company is incorporated for the object of building a line to a connection with the Union Pacific, which would give that company communication with Portland and the sea independent of the Oregon Railway and Navigation Company. As proposed, the line will run directly from Astoria to Ontario, a town in Malheur county, located on the line of the Union Pacific, forty miles from Huntington, where the Union Pacific terminates. It remains whether the road is to be built for that purpose. The incorporators are well known in Portland. Colonel Mitchell is adjutant general of the Oregon National Guard; Mr. Grady is United States marshal, and Mr. Johnson is a well known railroad man. He was superintendent of the Oregon Railway and Navigation Company about eight years ago.

MACHINE VS. HAND COMPOSITION London Printers Have a Falling Out Over Type-Setting Machines. The trouble which has been brewing for some time among the members of the London Society of Compositors regarding the American type-setting machines, which are now used by many of the journals of the metropolis, has culminated in the secession of many of the members and the formation of a new trades union, under the name of the Mutual Society of Linotype Operators and Employers.

The new union is intended to be a national organization, comprising the provinces as well as the metropolis. The desirability of admitting to membership such hand compositors as work in offices where the type-setting machines are now in use, is now under consideration. It is not thought, however, that such a move will be made, as the opposition of the hand compositors to the machine operators has been bitter.

Nelson, order made allowing final account and upon administrator filing receipts to be discharged. In the matter of the estate of J. W. Bottom, deceased, continued until December 12th and alias citation ordered issued. "40 Years Without a Stomach" was Carlyle's expression of the experience of many people who reach middle life before their digestive organs loudly protest against improper food. The first warning generally comes from food cooked with lard. How often we hear the remark, "I like it, but dare not eat it." To anyone in this common condition Cottoleone the new vegetable shortening, is indeed a boon.
