

Somekinds

Of ready-made trousers will answer if you can stand in a barrel all day. They're hardy safe to wear about the streets.

Some kinds of ready-made clothing look very well behind plate glass windows, when all pressed up, embellished with bright satens and military bouquets. It never looks as well elsewhere.

The prices on such goods will positively surprise you.

It may even sometimes occur that you'll wonder how they are sold so cheap. You'll wonder less if you ever try them. Experience is a powerful teacher. Better profit by the other fellows' whenever you can.

We're the apostles of good "honor bright" clothing, preaching it all the time, and practicing what we preach.

A few days ago a Sherman county farmer drove 13 hogs into Rufus which weighed 4900 pounds, and eight of them weighed 500 pounds each. For these he received 5 cents a pound and they were fed on damaged wheat that he could not sell at any price. This is a very successful experiment of feeding grain to hogs, and one that will pay better than selling wheat at 30 cents a bushel.

The R. E. French Company drew a good house last evening to witness the performance of "Davy Crockett," and the audience was well pleased with the way in which it was put on. Mr. French as Davy was all that could be desired and elicited well merited applause; in fact, the whole company acquitted themselves creditably. Pete Smith and Lottie Ellis in the great act "Dutch Courtship," brought down the house. "Dr. Jekyll and Mr. Hyde" tonight, and the theatre should be crowded to the doors.

Yesterday L. E. Selig, manager of the theatre, was arrested on a complaint sworn to by Chief Engineer Foster, of the fire department. Foster was at the theatre Wednesday night and demanded of Manager Selig that he unlock the outer doors during the performance. This the theatre manager refused to do. He claims that in case of fire, there is an attachment on the door whereby it could be opened much quicker than in any other manner. The chief said nothing until yesterday, when he swore to a complaint charging Manager Selig with violating a city ordinance relating to such matters. Mr. Selig was released on his own recognizance, and will appear this afternoon for trial before Judge Osburn. Manager Selig claims that his arrest was a piece of spite work on the part of Foster, and swears that the end is not yet.

The Rev. L. J. Trumbull, of Santa Cruz, Cal., has received a call from the First Baptist church of Astoria, for one year. Rev. Trumbull is well known in Oregon, having done good work in Albany, LaGrande and other

places. He was called to Astoria by Eastern Oregon Baptists, and is before him, in and out of Astoria, a good field for missionary work, he has decided to "pitch his tent" in our midst. In other words, he has accepted the call, and we feel that we have the right man in the right place. But while we are pleased to have Bro. Trumbull here to work with and for us, and while we anticipate great pleasure in receiving Mrs. Trumbull before the winter is far advanced, we regret that we cannot have his daughters with us so soon. The youngest, Miss Grace, who has been an invalid for some years, but has improved greatly since going to Santa Cruz, they think advisable should remain there for the winter, at least. And there are many in this city besides the Baptists who would be glad to have Rose, the "White Rose of Oregon," with us. But we must be content to hope that, in the near future, she may come. At present she must remain in California with her sister. But while Bro. Trumbull may be a worker, we must not forget that Mrs. Trumbull is no idler. She usually has a class of Chinese which she takes great pleasure in teaching, having been assisted in the past by her daughter Rose. And the "boys," as Youen Fong, (of the firm of Sing Lung & Co.) who is a convert from her school in Albany, tells us, think there is no one like Mrs. and Miss Trumbull. And no doubt she will have a class as soon as possible after her arrival.

THE TRAMP'S SEE-SAW.

A tramp with a blasé manner laconically walked up to the rear entrance of a farmhouse and gently tapped at the door with his finger tips. The door was opened by a sharp-faced vision, who inquired what the gentleman of leisure desired.

"Madam," he said, with a very profound bow, "I have a request to prefer."

"Well, sir, be quick about it," was the not encouraging reply.

"Madam, I would fain eat."

"Do you see that wood, sir?" she replied, pointing to a large pile of timber that had not been shortened to the required stove length.

Slowly he turned his head and looked in the direction of the pointing finger, then, with as much calmness as he could command, he spoke thus:

"Madam, you saw me see the wood, but you won't see me saw the wood."

Before the woman had recovered from her surprise, he had waded away with the parting breeze.—New York Herald.

HAPPY DAYS.

Oh, these here are the happy days—No matter what they say; There's more good fun in all the ways Than's been there many a day!

The cracking of the teamster's whip—The shoutin' of a boy; As the hick'ry nuts come tumblin' down—That's joy for you—big joy!

Oh, these are the happy days; The farms are full of life; The feller with a sweetheert Is a-thinkin' of a wife.

There's plenty in the corncrib, There's honey in the hive; And a feller's kinder feelin' That it's good to be alive!

ORIENTAL WAR NEWS.

(Continued from First Page.)

quantities of ammunition, which were supposed to be stored at the naval stations have about given out.

Definite news has at last been received concerning the two Japanese students who were arrested as spies in Shanghai and surrendered to the Chinese by the consul-general of the United States, in obedience to instructions from Secretary Gresham. October 5 they were decapitated in Nanking, by order of the presence of all the high officials of that city, and of a mob that kept shrieking, "kill the foreign devil," from the moment that the condemned men appeared upon the execution grounds until their heads fell. That the native authorities of Shanghai are disposed to repeat these proceedings as often as they can is shown by successive attempts to get possession of Japanese travelers on the same pretext. Towards the end of last month, they sent a body of guards on board an English ship, and, without warrant, seized a passenger on his way home to Yokohama, alleging that they acted with the knowledge and consent of the British consul-general, an assertion that has not been denied, and which gains color by the indifference of the British local officials to the fact that two other steamers under their flag have been unlawfully boarded by Chinese soldiers and their Japanese passengers brutally maltreated. These outrages occurred many weeks ago, and so far as known, no reparation has been exacted. In the case now referred to, the victim—a harmless missionary—escaped through the exertions of a foreign superintendent of police, who was determined to prevent the recurrence of an iniquity like that which cost the two students their lives.

Count Inouye, minister of state for home affairs, the most important portfolio in the Japanese government at present, has been appointed to the post of representative in the Korean capital. It is a significant event, that Japan's two most prominent and trusted statesmen are Count Ito, now minister president, and Count Inouye. By sending the latter to Seoul, she publicly declares her unflinching resolve to carry out the administrative reforms for which she drew the sword. There is not a worse governed kingdom in the world than Korea. Bribery and corruption hold the judicial and executive reins. Family interests take precedence of state safety. The imposition of taxes is limited only by insurrection. The ruling oligarchy takes no thought whatever of the national welfare or the development of the country's resources. The spirit of independence has died in the shadow of Chinese domination. Ceaseless emetics and intrigues present easy opportunities for foreign interference. Such is the Austrian stable that Japan has undertaken to cleanse. She has not yet made much progress with the task. So ingrained among Koreans is the spirit of political intrigue that in the bouleversement caused by Japan's reformatory efforts, they see only a fresh opportunity for schemes and plots. Japan offers them a warning and the world a guarantee by sending to Seoul one of the ablest statesmen she possesses. If Count Inouye cannot succeed Corea's case is hopeless.

WASHINGTON TIMES.

Ever since Hero sought death in the waves of the Hellespont because her Leander had perished in its flood suicides innumerable of fond lovers have been chronicled. But few of them, it is true, have had their sorrows and untimely takings-off embalmed in verse by poets and romancers, but the indisputable fact remains that many lovers have committed suicide for diverse and sundry more or less insufficient reasons.

Recently the suicidal epidemic among lovers of both sexes, either singly or in pairs, has become apparently very pronounced. Whether it is really increasing or simply more noticeable because of the greater publicity given to all events through the newspapers may be open to question, though we incline to the belief that suicides among heart-sick youths and maidens are becoming alarmingly frequent.

The psychological question opens up: What is there in love that should predispose its victims to the "felo de se" process? What subtle connection exists between the "passion of passions" and the tendency to inflict death upon one's self? Of course it will be answered that the suicidal mania afflicts a comparatively small percentage of lovers, male or female, but yet the number of self-slain beaux and belles is constantly swelling, and the subject is well worth investigation, for "all the world loves a lover," and does not want him, or her, or them, to shuffle off this mortal coil in any but the orthodox and approved fashion.

Cruelty old bachelors will not be lacking to say that as love is a species of insanity, it is not at all strange that those saturated with it should do all sorts of unaccountable things, suicide among them. But this opinion, coming from a prejudiced source, cannot and will not be accepted as of any value. Some other reason must be sought. If the severe strain under which the people of the close of the nineteenth century live, the wear and tear upon their physical and mental organizations, exercising its influence even upon those to whom it should be "all seasons summer and all space a temple?" Have the materialistic tendencies of the age invaded even the realm of romance, and tinged with darker hues the lover's rosy horizon?

What is the matter, anyway? Can somebody tell?

A DYNAMITE PLOT.

Plan of the Chinese to Blow Up the Japanese Navy Frustrated.

Washington, Nov. 7.—A dispatch from Yokohama, published this morning, stated that two Americans and one Chinese passenger on board the steamer Sydney were arrested by the Japanese authorities a few days ago after which the steamer was permitted to proceed on her voyage. Behind this simple announcement lies a story of dramatic interest. About six weeks ago the report was circulated in diplomatic circles that Mr. Moore, one of the men of the Chinese legation, had been recalled to Peking by the home government. It was said that he had been ordered back in disgrace, and his friends were profuse in their expressions of sympathy. It was noticeable, however, that Mr. Moore bore his ill-fortune philosophically, but by many it was feared that his return to his native country would be followed by his speedy decapitation. It now appears that the supposed recall was not in any sense a recall, but that Mr. Moore was returning to China in pursuance of a clever scheme which had for its purpose the destruction by dynamite and torpedoes of the Japanese fleet now in Chinese waters.

Mr. Moore is the Chinaman referred to in the foregoing dispatch, and his associates are John Wild, an inventor, of Providence, R. I., and a Mr. Cameron, a Scotchman, who was employed for a time as a workman in the Hotchkiss torpedo manufacturing at Providence, R. I. Messrs. Wild and Cameron had, it appears, satisfied the Chinese government of their ability to successfully destroy the Japanese vessels, and Mr. Moore was instructed by the Peking government to conduct them to Shanghai. They traveled to San Francisco, and thence to Yokohama, under assumed names. Mr. Wild being known as Howie, and Mr. Cameron as Courtney. The Japanese government, through sources which it declines to reveal, learned of the plot, and when the trio sailed from Yokohama they were arrested en route at Kobe, a Japanese seaport city. The particulars of their arrest are contained in a cable dated at Hiroshima, the headquarters of the Japanese navy and ar-

my, yesterday, and which was received at the legation this morning. The dispatch is as follows:

"A Chinese official, with two foreigners—an Englishman and an American—were arrested at Yokohama a few days since on the steamer Gaelic. All were under assumed names. The foreigners were suspected of entering into an agreement, through Chinese officials with the Chinese government, for the purpose of engaging in the war against Japan. They landed at Yokohama and took passage on board the steamship Sydney for China. The captain of the Japanese war vessel Taikuba, under orders from headquarters, exercised the right of visitation and search on board the harbor of Kobe, and found in the possession of these persons an agreement with the Chinese government to destroy the entire navy of Japan within eight weeks by the use of torpedoes. Other official documents on the same subject were found. In consequence, the three were arrested and taken ashore and the ship released from detention."

It is understood that none of the trio will be punished by the Japanese government, but they will probably be held as prisoners of war indefinitely.

ALLEGED EMBEZZLEMENT.

Tacoma, Nov. 8.—George W. Boggs, ex-city treasurer, was arrested tonight, upon information by the county attorney charging embezzlement of \$25,303, the sum deposited by him in a suspended state savings bank. He immediately gave bail.

SUICIDE OF LOVERS.

Washington Times.

Ever since Hero sought death in the waves of the Hellespont because her Leander had perished in its flood suicides innumerable of fond lovers have been chronicled. But few of them, it is true, have had their sorrows and untimely takings-off embalmed in verse by poets and romancers, but the indisputable fact remains that many lovers have committed suicide for diverse and sundry more or less insufficient reasons.
