

LOOK TO YOUR DAUGHTERS.

The Wives and the Mothers That Are to be.

Sheir Thin, Pale Cheeks and Lack of Spirit Leaves No Doubts.

The Nerves Are Poorly Fed and Blood Lacks in Red Corpuseels.

O, my boys are never nervous. One couldn't stand that. But with girls, you know doctor, it is different.

Too many mothers reason like that. They do not like to hear their girls called tomboys, and they hasten to make them "lady-like," to keep them from running, climbing, and from vigorous games, while the boys are laying in a stock of health that will last them far into middle age.

The least sign of physical failure on the part of girls at the critical times in their lives should ring a grave alarm. Pale lips, nervous habits, retarded growth, a lack of high, youthful spirits and a poor condition of the skin, urgently demand a better and a more complete nutrition.

In all cases, whether it be a young child or an aged person, Paine's celery compound adds vigor and increased weight by strengthening the very foundation of health, by feeding blood and nerves richly and promptly. It is only when the nerve centers are healthy that the other bodily functions can be healthy.

If anxious mothers will only follow the advice of the most careful physicians, and make sure that their children are getting sufficient material to meet the big demands made by their growing nerves and tissues, there will be an end to the weakly condition, the continual headaches, "the blue days," and the general ill-health that so few young girls escape.

The best ally against nervousness and irritability is that remarkable nerve food, Paine's celery compound, first prescribed by Dartmouth's greatest educator. Day by day, when taken with the regularity and care that physicians say is indispensable for excellent results, comes invariably a steady gain in weight, which can mean but one thing: a gain in quantity and quality of the blood. Trifles begin to worry them, less sleep, comes naturally and refreshing, appetite increases, and their frames grow plump with solid flesh, because all the delicate parts of their nervous system, upon which the nutrition and well-being of the body directly depends, are beginning to be fully nourished and to work without friction.

A body thus fed by Paine's celery compound makes those joys and little innocent pleasures possible, without which childhood and girlhood is sad to look upon.

COMMUNICATED.

To the Editor:

I propose, in the way of local development, that the city of Astoria purchase of the Seashore Road Company, that portion of its proposed bridge across Young's Bay which is already constructed, together with the franchise therefor, extend its corporate limits to the bridge site, amend its charter at the coming session of the legislature to authorize its acts, issue and sell the necessary bonds and complete the bridge by the common council, making a toll bridge for foot-passengers, teams, etc., and also railroads, street and suburban lines. Then, in connection with this, let the county, which already has a road over part of the line, assisted by all concerned, construct a good road from the west end of said bridge directly to the ocean beach, a distance little less than four miles. When this is done, and not until then, Astoria will become a summer resort, will have a drive equal to any on the coast, and will reap great advantage therefrom. Clatsop Plains will, if proper efforts are put forth to that end, become the greatest seaside resort on the northwest coast, on account of its being easy of access, and convenient to a city of the size of Astoria, and Astoria will become the base for its supplies.

If the bridge is owned and operated by the city, any and all roads, whether railroads, or street or suburban lines, can be admitted over it upon equal footing, thus doing away with the necessity of other bridges across the bay, until our population shall be materially increased. The completion of this bridge will, at once, give us a railroad from the heart of the city, along Clatsop Plains, to the seashore, which, of itself, all agree, will be of great benefit to the city.

I know there is a tendency toward economy in public, as well as in private affairs, and we all favor reduction in municipal taxation; but where an improvement can be made which will be self-supporting from the start, and will, in all probability, produce a revenue to the city in the near future, the objection which is being made to the inauguration of enterprises and expenditures on the part of the city cannot apply. It seems to me that next to the proposed railroad to transcontinental connection, the building and ownership of the bridge by the city, is the matter of most importance to this city today. Let us all unite in carrying this matter forward to completion, and whether or not we get the Gobel road, or the Nehalem road, we will get a road to the beach, and

will, in addition to the financial benefits to be derived therefrom, have as fine a drive as there is on the coast.

NOTICE TO MARINERS.

Owing to a scarcity of water at Point Conception Light station, it may become necessary to reduce the working of the fog-signal, or discontinue it altogether until the rainy season sets in. Every effort will be made to keep the signal in operation, but mariners are cautioned to be on their guard in that vicinity and not trust to hearing the signal to determine their position.

By order of the Lighthouse board,
HENRY E. NICHOLS,
Commander U. S. N.
Inspector 12th Lighthouse District,
San Francisco, Nov. 8th, 1894.

NOTICE TO MARINERS.
