

IS OLD AGE PITIABLE?

Not While Vigor and Zest in Living Lasts.

Bismark, Gladstone and Holmes Full of Years and Honor.

They Keep Their Blood Well Stocked--Their Nerves Well Fed.

Some people carefully disguise the fact. But a coat of paint on an old building only makes it look smart; it doesn't keep the rickety old staircase from creaking, nor make the framework stronger.

What is needed is fresh bricks and mortar. Fresh blood and new tissues are the building materials that tired human bodies need.

One is never older than he feels. Many are young at 70, and the world is full of men and women who are old in heart and spirits at 20.

Nothing "ages" one like illness. To keep young, keep well; keep the nerves calm, the blood ruddy, the system well fed.

And when the sudden attack of fever or the heavy cold comes the sturdy, because well nourished, body, will resist and prevent calamitous results.

Over all the country there are hard-worked business men, and men in public offices, subjected to incessant criticism and fearful nervous strain, who appreciate the saving power of Prof. Phelps' remarkable discovery, Paine's celery compound.

In the thousands of cases where overwrought trains have at last refused the sleep that they so vitally needed, this great modern nerve nutriment has brought the happiest results.

Multitudes of women reduced in strength, half-sick, and on the road to becoming life-long invalids, have sent in heart-felt stories of their rapid gain in vigor after a trial of Paine's celery compound.

"It takes years off their aching shoulders." As the years go on, the regular tick-tick of the heart and the rhythmic action of the digestive organs and the brain slow up and the strength must be economized.

The important organs need frequent assistance and encouragement. Paine's celery compound gives just the needed stimulus to digestion and assimilation that the system requires.

It purifies the slowly moving blood of any bad humor that its stagnant flow is apt to engender and thus removes rheumatism, neuralgia, heart palpitation, nervous weakness, sleeplessness, and troubles with liver, kidneys and stomach.

It was a favorite remark of the famous Dr. Parr, when 106 years old, that he had always taken care to keep his body well nourished. Pure blood and healthy activity of the nervous system makes a happy, hopeful, useful old age.

Paine's celery compound makes people well. DOORS CLOSED AGAIN.

Portland Savings Bank Goes Into Liquidation. The Oregonian.

The doors of the Portland Savings bank will not open for business this morning. For a second time in its history the bank has been unable to meet its obligations.

and Circuit Judge Stearns has turned over its affairs to Judge O. N. Denny, whom he appointed receiver late yesterday afternoon. Lack of public confidence and a heavy and unremitting withdrawal of deposits are assigned as the reasons for closing the bank.

No further effort will be made to open it, and the depositors will have to wait until the affairs of the institution are settled up before they can hope to realize on their accounts.

The following brief statement of the assets and liabilities of the bank was made by one of the stockholders last night: Assets, \$1,650,000; liabilities--deposits, \$1,150,000; bills payable, \$280,000--\$1,430,000; surplus, \$220,000.

The amount on deposit in the bank prior to the panic of 1893 was \$2,050,000, so that it can be readily seen from the above figures that the sum of \$1,900,000 in cash has actually been paid out to depositors since the public withdrew their confidence and money.

This is a remarkable showing when the hard times are taken into consideration, and indicates the character of the bank's securities, and, generally speaking, of its assets. Every effort was made to save the institution from downfall, but as the money was being demanded by depositors faster than the directors could be realized upon, the directors, at a meeting yesterday afternoon, resolved to close the bank's doors in time to avoid another panic.

Accordingly, Cleveland Rockwell, in a suit for a nominal sum against the bank, appeared before Judge Stearns yesterday afternoon and asked for the appointment of O. N. Denny as receiver. As Mr. Denny's appointment was satisfactory to all parties concerned, that gentleman was instructed to take charge of the affairs of the bank at the earliest possible moment.

The closing of the bank was undoubtedly hastened, and perhaps precipitated, by the death of Mr. Frank Dekum, the president, which occurred a month ago. Since the bank resumed business on May 1, the withdrawal of deposits was quite marked, but it developed almost to a riot after the death of Mr. Dekum. The stockholders held frequent conferences, and a strong ef-

fort was made to effect a re-organization, but it was unsuccessful, owing to the general apathy of capital to invest in any enterprise. Now no further effort will be made to recuperate the affairs of the bank. It will never again be opened, and the receiver will be permitted to pay dividends to depositors as rapidly as he can realize on the assets.

The Portland Savings Bank was established in 1831, with a capital stock of \$200,000, in a building at the corner of First and Ash streets. Later the capital stock was increased to \$350,000, and the bank removed to its present site, corner of second and Washington streets. It was during the panic of 1893, on July 27, that the bank first closed its doors. Mr. D. P. Thompson was appointed receiver, and as the result of his efforts, the bank resumed business May 1 of this year, under an agreement with the majority of the depositors that they were to draw out, quarterly, ten per cent of their deposits, and no more. While this was the general agreement, many depositors signed other agreements to allow their deposits to remain undemanded for longer or shorter periods of time. Many depositors who refused to sign off under any conditions, withdrew their deposits as soon as the bank opened its doors, and their action aided materially in precipitating the suspension. Four payments of ten per cent each, were made to those depositors who signed off under the quarterly payment agreement.

The Portland Savings Bank, at one time, had close relations with the Commercial National bank, but the latter, under its reorganization, has no business connections with the Portland Savings bank. The main financial interest in the Commercial National is now the great Wells-Fargo bank, of San Francisco.

TO THE VOTERS OF THE THIRD WARD. My political opponents have circulated rumors to the effect that if elected I shall oppose the contemplated improvement of the alleyway through blocks 2, 3, and 4, Adair's Astoria. I hereby stamp such reports as false and pledge all honorable support to said improvement, believing same to be for the welfare of the city.

The reader of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical world. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. THREE REASONS WHY. The Printz-Crain Drug Co. are coming to the front and outstripping their rivals:

1. Messrs. Printz and Crain are both thorough druggists, each having had nearly twenty years' experience in the business, and have the confidence of both the physicians and the public. 2. They are always pleasant and obliging to every one who enters their store, whether they wish to buy anything or not. 3. They have no clerk hire to pay, their rent is reasonable, and their experience in the wholesale department enables them to buy goods in a way that they can compete with the best of them on prices. Give them a call and you will be convinced that the above is true.

Yon Have Heard the Story of Gen Jackson when making a speech from the rostrum, how a stanch but imprudent admirer seated just behind him on the platform, put his pen-knife into what he supposed was the old hero's cork leg and urged him sotto voce to "tip 'em a little Latin, General." The old hero had no cork leg, and, instead of "tipping 'em a little Latin," he astonished his hearers by exclaiming, viva voce, "*** what---?---!! You --- *** !!---?---!!!"

We do not vouch for the story, nor for the emphatic Jacksonian language, but we know that since it has become a known fact that Marshall's Twine received the Gold Medal at the Midwinter Fair over all others, it has caused the agents of other twines to "tip a little latten."

We daren't tell you the truth about our sales of this twine nor the number of prominent fishermen on the river that are now using it. We should have the fable-makers after us and sour our brethren who handle other twines. They would not believe us, and you don't care.
