A FIGHT BREWING.

Indications show that the president is to be attacked as soon as congress meets by the Democrats of the West and South and by the Populists, on the ground that his issue of bonds was in flat defiance of congress, was without proper authority of law because the gold is required for current expenses, and not for redemption of notes, and that it was unnecessary and a wanton gift of the people's money to a few bankers.

While such an agitation is to be regretted, it was pointed out to the president as an inevitable result of the course he has taken. It was not a pleasant thing for Democratic congressmen to have their shameful failure to provide for the necessities of the government thus advertised before all the world.

That they cannot publicly resent, but they can jump on the president for rushing forward to put out bonds before congress can assemble, as if conscious that it would stop such a performance if in session.

In President Cleveland's previous controversies on the money question he has been cordial and patriotically sustained by Republicans, without regard to the consequences to either party, because he was in the right.

But in this case he will not have that advantage, for it is not possible to show that there was real and pressing necessity for an issue of bonds in November, or that the treasury needed replenishment of its gold reserve a week ago, as much as it did in August, when that reserve was shown below \$52,500,000.

There has been palpable sacrifice of public to partisan interest, first in the delay during the campaign, and then in hurrying the issue to anticipate a session of congress. But most Republicans will probably go further and deny that there is any real necessity now, as it has appeared there was none in August, for borrowing money on bonds.

They will find it easy to show that the president in August could have insured a great increase of revenue by simply vetoing a tariff bill which he denounced, but suffered to become a law for partisan reasons only, and that he could even now restore prosperity and revenue in a great degree, beyond a doubt, if he had the patriotism to propose a prompt repeal of the measure which the people have overwhelmingly condemned.

The Democratic leaders in the house are preparing to begin work preliminary to the opening of the session, but so many of them fell outside the breast-works on November 6, that they can have little heart for the necessary legislation before them.

Another discouraging circumstance in the practical working of the revenue act over which there was so prolonged a pother at the long session. Some of the Democrats believe in a tariff for revenue only, but under this bill they are not getting enough for the running expenses of the government.

Judging by October and November, there will be an annual deficit of \$125,000,000 or upward. This renders economy somewhere necessary, and the making of appropriations will be a more difficult task than usual.

The New York Journal of Commerce calls the new loan "the short-sighted makeshift of a fiscal neophyte." This epithet is new, but then, none of the old ones do justice to the financial results of the present administration.

Mr. Ira B. Malin has resigned his connection as foreman of the composing room of the Astorian, to become the proprietor and publisher of the Weekly Acorn. Mr. Malin's relations with the Astorian have always been pleasant and satisfactory, and he carries with him in his new field of labor the best wishes of all associated in any way with the paper.

New York seems about to start a monument fund for Dr. Parkhurst. By this plan the great-grandchildren of the reverend gentleman will have a chance to contribute something toward honoring their celebrated ancestor.

We note that all our rural exchanges have not yet printed Thanksgiving proclamations, but the turkey joke is abroad in their columns, and it's just as surely a harbinger of the same day.

With three women in Colorado's legislature, we may confidently expect defeat for all western attempts to legislate on the theatre hat question.

After passing through a Bill Dalton experience, it is not entirely easy to feel a perfect confidence in the reported death of Cherokee Bill.

We again feel obliged to remark that the reform appetite for municipal jobs in New York has the same old Tam many zest about it.

Boston is gradually growing un-American. The school board there has prohibited the schoolboy from eating pie at lunch time.

Let us hope that Li Hung Chang's chance for a winter overcoat will not be complicated by a cloakmakers' strike in Peking.

It's a trifle strange that those enterprising Denver newspapers have not yet named him "Jack the Strangler."

The Printz-Crain Drug Co. are coming to the front and outstripping their rivals:

1. Messrs. Printz and Crain are both thorough druggists, each having had nearly twenty years' experience in the business, and have the confidence of both the physicians and the public.
2. They are always pleasant and obliging to every one who enters their store, whether they wish to buy anything or not.

3. They have no clerk hire to pay, their rates are reasonable, and their experience in the wholesale department enables them to buy goods in a way that they can compete with the best of them on prices. Give them a call and you will be convinced that the above is true.
