

ASTORIA WOMEN.

Unworthy Habits of Haste Among Them.

MANY WHO SEEM TO BE ACTING A FOOLISH PART.

Are Not Satisfied By Going About Quietly.

They Hurry and Worry, Then Don't Get Sleep.

Paine's Celery Compound Their Best Relief.

In prescribing Paine's celery compound for a patient the other day, an Astoria physician, who is a specialist in nervous difficulties, declared that there were thousands of such women who were literally killing themselves by too rapid movements.

"They are not satisfied," said he, "with going about doing things in a quiet, ordinary way, but rush through with their work and ruin their health as fast as they can. So firmly fixed is this habit that they run up and down stairs when there is no need for this hurry."

"They not only rush but worry, and between these two, subject their nervous systems to more wear and tear than anything short of wrought steel could endure."

Whatever the cause, our women, our young girls, and even business men are rapidly growing more and more nervous. Prof. Phelps, the great Dartmouth scientist, saw this alarming state of things and concentrated all his energy to remedying it. It was from the formula of this eminent student and thinker that Paine's celery was prepared.

It's success in restoring nerve strength and building up the worn-out body repaid the years of study and investigation that Prof. Phelps conscientiously devoted to the diseases of the stomach and kidneys, the result of impure blood and impoverished nerves. The astonishing results that have come from its careful use have been the subject of discussion in all the prominent newspapers and magazines in this country, Canada, and throughout Great Britain.

The record of this great blood cleanser, from the time of its discovery up to the present day, has been a marvelous one.

It has cured literally thousands of cases of nervous debility, rheumatism, kidney and heart troubles, and has made sound sleep possible to countless men and women whose irritable and impoverished nerves were slowly draining them of vitality.

THE UNEXPECTED DISCHARGE OF A CANNON

Close by would not have a more disturbing effect upon the nerves which are vigorous, than an ordinary noise upon those which are weak and unstrung. As a nervous Hostetter's Stomach Bitters is unrivaled. By promoting digestion and assimilation they overcome that gastric disorder, which is the most prolific cause of nervous debility, and which, so long as it exists, defeats in a large measure the action of sedatives and opiates. Such remedies, moreover, necessitate the use of increasing doses, and finally cease to act altogether, except in dangerous quantities. They never reach the fountain head of the trouble, and quiet the nerves only by semi-paralyzing them. Equally objectionable are fiery unmedicated alcoholic stimulants. Kidney, bladder and liver trouble, malaria, constipation, and rheumatism are relieved by the Bitters, which also promotes appetite and nightly repose.

The WREN IN Business

It is characteristic of the Wren that it will sneak in and occupy the nest made by another bird, in preference to building one of its own. This same trait is often seen in business. It is shown by the imitators of

COTTOLENE

No sooner has the wonderful merit of this new vegetable shortening, so much better than lard, created for it a remarkable sale and popularity, than the business wrens are ready to move upon the market with many worthless counterfeits. Any housekeeper can be easily and cheaply convinced of the value of COTTOLENE by simply giving it a trial. They will then be unwilling to go back to lard, or go down to fraudulent imitations

Oregon's Great Seaport.

The prediction of shrewd old John Jacob Astor is about to be fulfilled. The city of Astoria, Oregon, is about to become the greatest seaport and metropolis of Northwestern America.

Its location and resources have attracted the attention of capital, and it is today the best field for the investment of money, brains and muscle on the American continent.

This "Largest civilized city in the world without a railroad," is to experience the impetus of a connection in different directions with two of the greatest continental railway systems.

Astoria's harbor advantages (the best on the whole Pacific Coast) are now understood and appreciated; its fishing interests (already paying to the hands employed in the salmon canneries alone over \$250,000 of wages each month) are to be augmented by the investment of outside capital and the erection of large and latest improved plants. The immense forests of Oregon pine surrounding the city are to be converted into lumber for the Australian, Chinese, Japanese, and South American markets.

The great coal fields within a few miles of the city are to be immediately opened, and the product thereof shipped in every direction.

A dairying region unsurpassed in the whole world is to be opened up and afforded an outlet to market.

A harbor, better than that of San Francisco, and the only one with this exception on the more than two thousand miles of Pacific coast, is to be supplied with increased dockage and coaling facilities, and immense grain elevators will be built to store and load the wheat of the Columbia basin directly on the merchant fleets of the world.

Astoria offers openings for many new industries, namely, grist mills, saw mills, paper mills, stave, box, barrel and tub factories, show case works, sash and door factories.

There will be room for many live, energetic and wide-awake men and women with or without money. All inquiries promptly answered. Papers and data supplied on application.
