## IT MUST NOT BE DONE.

The undertaking to convert Astoria's only place of general amusement into a common variety theatre, with the usual beer hall attachment, is meeting not only with the protest of property owners in that vicinity, but the vigorous opposition of many other citizens as well.

Waiving the question of whether a resort of the character intended is needed at all, or should be encouraged or permitted in any part of Astoria, there will be a unanimity of opinion that a far more suitable location can be found in another section of the city, where its presence will not be likely to give offense, or come under the notice of a more fastidious class of our citizens.

Some kind of a conditional lease, it seems, has already been secured on the Stuts property, but that should by no means settle the question of whether that building can be used for such purpose. The city authorities can refuse to grant the promoters of the enterprise a license, unless they consent to go elsewhere with it; and this is exactly what they must do or incur the censure of a large majority of Astoria's citizens.

It is still uncertain how the senate in the next congress will be divided politically. According to one classification it will stand as follows: Republicans 45, Democrats 35, and Populists 5, the two senators from Nevada being placed on the Republican list. Irby, of South Carolina, is on the Democratic list, but it is believed he will identify himself with the Populists when his colleague Tillman, gets into the senate. A classification will then be as follows: Republicans, 42; Democrats 37, and Populists 5. No party will have a majority the Populists will hold the balance of power, and the Democrats may organize the senate.

The existing condition of public affairs utterly fulfills the predictions and promises of the Democrats when they passed the tariff bill. They assured the country that that measure would bring immediate relief to the treasury by materially increasing its revenues, while at the same time it revived industries and gave new life to business. None of these things have been realized, and the prospect, if somewhat gloomy, is far from reassuring. The country is indeed paying dearly for Democratic folly and incompetence, and the misfortune is that it is likely to go on doing so for several years.

The bakers of Astoria might profit by the experience of their fellow craftsmen in Port Huron, Michigan, who have been indulging in a bread war, the outcome of which has mightily surprised them. In their attempt to ruin each other, they actually cut down the price of 5-cent loaves to 2 cents, and then it became a question of which one of them would go under. But the people of the town all stopped doing their own baking and bought baker's bread, the result of which is that all the bakers are making money at 2 cents a loaf, and there is no talk of going back to the old price.

Gleason lines in the message of Governor Patton to the Pennsylvania legislature, contain the summing up of his statement regarding strikes in that state for the past year. He says that the loss of wages by employees in fifty-three strikes was \$1,350,000, while the losses of employers amounted to \$1,100,000. These losses of employees do not include the loss of permanent employment, but those who would not get work after the strikes nor the expense of living in idleness for months while

unable to get work. A strike is a dangerous experiment for men dissatisfied with low wages and other incidents of hard times. But it is an expensive luxury.

Near Bakersfield, Kern county, Cal., says the New York Tribune, a tract of land has been secured by a large creamery company of Elgin, Ill. It was found by tests that cattle fed on alfalfa with no scientific care, produced more butter than the best stock in Illinois fed on the scientific plan. The results were so remarkable that the creamery, which is one of the largest in the West, will be removed to California this year.

Thanks to the manner in which it is constituted, the water commission is composed of exceptionally prudent and conscientious men. Whatever their ultimate decision in the matter of the bids now pending for the new water works construction, every citizen of Astoria is confident they will be actuated solely by the highest consideration of public duty and the best interests of the community.

To be forewarned is to be forearmed and the Republicans of Oregon, especially those in Clatsop county, want to bear in mind that the only hope of future success by the Democrats or any Demo-Populist combine, lies in their ability to foment dissensions and sow the seeds of discord within the ranks of the Republican party.

The facility with which the water commission has floated the bond issue for water works and the competition for the construction contract go to show that Astoria has a good standing away from home, and will have no difficulty in getting all the money needed for other improvements in future.

Prominent Episcopallians of Washington are becoming enthusiastic over the prospects of the new Episcopal cathedral in that city, which will, they say, the grandest temple of worship on the American continent.

## HOPE CRUSHED TO EARTH

Will rise again in the bosom of a dyspeptic who enough to substitute for the pseudo-tonics, which has bamboozled him out of his belief in the possibility of cure, the real invigorant and stomachic, Hostetter's Stomach Bitters. The bilious, the nervous, the dyspeptic, the rheumatic alike derive speedy benefit from this healthful botanic medicine. Persons suffering from indigestion will gain no positive permanent good from the fiery, unmoderated stimulants of commerce, too often used recklessly. The future is immeasurably to be preferred to these as a tonic, since its pure basis is modified by the conjunction with it of vegetable ingredients of the highest remedial excellence. Malaria is prevented and remedied by it, and it infuses vigor into the weak and sickly. A wineglassful three times a day is the average dose.

## "AM I MARRIED OR NOT?"

asked Mr. A. despondently. "I declare, my wife is so nervous and irritable that I don't stay in the house a moment longer than I can help. My home isn't what it used to be." "Mrs. A. is suffering from some functional derangement, I presume," said B. "Yes, she has been an invalid for years." "Exactly. Her experience is that of my wife, but she was cured by Dr. Pierce's Favorite Prescription. Get this remedy for Mrs. A. and the happiness of your home will soon be restored." Mr. B. was right. The prostrated, painful periods, irregularities in menstruation, all "complaints" peculiar to the female sex—the "Favorite Prescription" is a sovereign specific.
