San Francisco, Jan. 22.-Rain is still falling at every point in California, north of San Luis Obispo. Heavy rains are reported in Sacramento valley and the river is rising steadily. There are now 175 square miles submerged in the valley.

The storm, which has steadily increased in severity, is one of the worst of a bad season. Water in all the rivers and streams is higher than for many years. In a heavy freshet on Klamath river, a wealthy Chinese miller was swept away and drowned by the torrents.

The town of Napa is flooded, rivers coursing down through the streets. Many citizens were taken from their houses in boats to higher ground.

> WORK CAN NOW COMMENCE. A Splendid and Legitimate Offer Made for the Water Bonds.

Those on the outside who have not been familiar with the whole affair, have doubtless criticized Mr. Van Dusen and the water commission in general that some proposition has not been accepted for the purchase of the bonds. ed with affairs of this kind, that unless personal study is made of them, the general public cannot readily understand. It was so in the bond sale by the water commission, and since fifth regiment has been ordered to hold their rejection of the Lamprecht Bros." contract, Mr. VanDusen has been be seiged by telegrams and letters from various parties who claimed to be anxlous to take the bonds. But there are sharpers and fakirs among bond buyers-or brokers, rather-as well as in any other business.

In conversation with an Astorian representative a couple of days ago,

Mr. VanDusen sald: "Yes, I have received quite a numbe of offers for the bonds, some of which are legitimate. But there are a good many of the offers that come from parties wholly irresponsible, who only want an option on the bonds, that they may peddle them around the streets of eastern money centers, chancing their being placed. To these people we pay no attention. In fact, Astoria is not in that great a hurry to have her bonds sold, that she need ruln her standing through this class of brokers. We will get a good offer for the bonds yet,

will be the gainer by the delay." It now transpires that Mr. Van Duon as well as the rest of the commis stoners, has acted with excellent judgment through the whole bond controversy. A gentleman representing one of the strongest trust companies of New York city, will arrive in Astoria this morning for the purpose of closing up a purchase of the \$300,000 worth of 16-vear 5-per-cent bonds.
