

Daily Astorian.

TERMS OF SUBSCRIPTION.

Published by Charles F. West, 25 cents per week, 1.50 per month, 4.50 per quarter, 15.00 per year.

WEEKLY.

Sent by mail, per year, 12.00 in advance. Postage free to subscribers.

The Astorian guarantees to its subscribers the largest circulation of any newspaper published on the Columbia river.

Advertising rates can be obtained on application to the business manager.

This paper is in possession of all the newspaper franchises, and is the only paper on the Columbia river that publishes news dispatches.

The Weekly Astorian, the third largest weekly in the state of Oregon, has next to the Portland Oregonian, the largest weekly circulation in the state.

Headier & Hays are our Portland agents and copies of the Astorian can be had every morning at their stand on First street.

THE REPUBLICAN STAND.

The following stirring editorial published some time ago in the New York Tribune has been either re-published, endorsed, or favorably commented on by nearly every leading and influential Republican paper in the country.

The Republican party stands for Good Government, Good Money and Good Times. That means that it can have no sympathy with any party or faction which looks with favor upon debasement of the currency, or the dilution upon any pretext of the one hundred cents in the dollar which is alike the obligation of the debtor and the honest due of the creditor.

In conjunction with the committee appointed by the Washington legislature to confer with a like committee from the Oregon assembly on some form of appropriate joint legislation looking to the protection of the salmon fisheries, Senator John H. Smith now has the opportunity presented to fulfill his pledges made to Oregon fishermen last spring that if elected he would have the fish traps abolished.

The growth of Atlanta is an example of the expansion of the new South. A house-to-house census of the city just completed shows a population of 105,544. The figures of the census of 1890 were 65,553. Few American cities have reached such a percentage of increase.

An intense heat wave is now passing over Australia. The thermometer ranges from 10 to 115 degrees. An epidemic of low fever prevails at some points, and many persons have died. The brush fires have caused a great loss to property.

An Irishman in Winsted, Conn., succeeded in selling his wool at 5 cents the other day, and when asked if he knew what this decline meant, he said: "I do; I voted for free wool, and I came within 3 cents of getting it."

It is now very clear that if Cleveland had vetoed the Wilson bill, he would have done the most popular thing in all his political career.

Horace Chilton, of Tyler, Texas, who is to succeed Senator Coke, is not yet 30 years of age. He is a well-built man, with a bearing at once dignified and kindly. Though not an orator, he is master of a simple and lucid style.

Representative Roe, of Worcester, Mass., made an interesting historical address at the opening of the new state house in Boston. He pointed out that the legislature of Massachusetts is the oldest continuous legislative body in America.

THE INFLUENCES OF CLIMATE ON HEALTH. It cannot be denied that influence of climate upon health is great, and it is in recognition of this fact that physicians send patients suffering with pulmonary diseases to great distances for "change of air."

The Democratic party in the Western States has been requesting with the new party ever since it came into existence. By open alliance with it, it has seemed to have gained something like success. But the entanglement has brought them only the embarrassments under which the people have seen them vainly laboring for the last two years, while the country has been plunged into distress on account of it.

On the 15th of December last the senate adopted a resolution introduced by Senator Washburn, of Minnesota, requesting information intended to show the effect of the abrogation of the reciprocity treaty upon the trade of this country with Cuba. The resolution was forwarded to the consul-general at Havana, and the secretary has forwarded his reply to the senate.

In conjunction with the committee appointed by the Washington legislature to confer with a like committee from the Oregon assembly on some form of appropriate joint legislation looking to the protection of the salmon fisheries, Senator John H. Smith now has the opportunity presented to fulfill his pledges made to Oregon fishermen last spring that if elected he would have the fish traps abolished.

Up to a certain point in the progress of consumption, Dr. Pierce's Golden Medical Discovery is a positive remedy. But delay is dangerous with consumption. In all the conditions that lead to it, the "Discovery" is the remedy. With severe lingering coughs of weak lungs, nothing acts so promptly. Every disease that can be reached through the blood yields to this medicine. The scrofulous affections of the lungs that are called consumption is one of them. Feeble and for every other form of scrofula. For all blood-taints and disorders, and all chronic bronchial, throat, and lung affections, the "Discovery" is the remedy. It is a certain that, once used, it is always in favor.

Can anything else be "just as good" for you to buy? Don't you believe it.

SHILOH'S CURE, the great Cough and Croup Cure, is in great demand. Pocket size contains twenty-five doses only 25 cents. Children love it. Sold by J. W. Conn.

Iron John H. Carlisle was once the 50th of his party. Where is that party now?

This is it. This is the new shortening of cooking fat which is so fast taking the place of lard. It is an entirely new food product composed of clarified cotton seed oil and refined beef suet. You can see that

Cottolene is clean, delicate, wholesome, appetizing, and economical—as fat superior to lard as the electric light is to the tallow dip. It asks only a fair trial, and a fair trial will convince you of its value.

THE N. K. FAIRBANK COMPANY, ST. LOUIS and Chicago, New York, Boston.

Thoughts for Fishermen. On a dark, stormy night, when the tide is ebbing fast and the hardy fisherman finds it almost impossible to handle his net, has he ever stopped to think, should it become caught on a snag, what brand of twine would stand the greatest strain? Did he ever ask his brother fishermen what sort of twine they used? If so in nine cases out of ten, if they be successful fishermen, the answer has been "MARSHALL'S TWINE."
