St. Valentine's Vows.

"A valentine when rightly done, Slight of sincerity should favor, And mostly be composed of fun, With just a sentimental flourish."

PRITHEE pretty- maiden will you marry me? So speaks the spirit of the day set apart to his Valentine Saintship. So whispers youth into the listening ear of youth, and so will until youth's oppressor, age, has put by the St. Valentine of the present among the faded pictures of the past.

All the world want a-wwooing ones; all the grass was green, the fields fresh, the flowers fair.

All the world, young or old still loves a lover. So be pitiful to poor St. Valentine.

THE LA GASCOGNE SAFE

The Big French Liner Arrived Last Night.

DOCKS LINED WITH PEOPLE.

People Weep with Joy at the Company's Office—New York Wild with Joy.

Associated Press.

New York, Feb. 11.—The French steamer La Gascoigne, nine days overdue, anchored outside the bar at Sandy Hook at 11:21 o'clock tonight. Everybody on board is reported all right. In answer to queries from the tugs the steamer said that at no time were they in danger, although they encountered terrific gales.

Not since the Umbria reported two years ago after a perilous voyage across the Atlantic with a broken shaft, has there been such excitement in this city as this evening. When the news was flashed across the wires that a steamer resembling the long missing La Gascoigne had been sighted off Fire Island, the inference that the French line steamer was safe did not for a time reassure the generally incredulous public. It was too good to be true, and it was only when a bulletin was announced that the La Gascoigne was slowly making her way to her port of destination, that the long-pent-up feelings of those who had anxiously waited day by day for tidings of the missing craft broke out. In every hotel, in every club, in almost every home in the city, the sole topic of conversation was the arrival of the ship, a hope of whose rescue from the terrific storms which have caused such terrible disasters in the maritime world had almost deserted the hearts of the most sanguine.

In the offices of the French line, the scene when the telegram was received, announcing the safety of the big liner, was a striking one. The news spread quickly through the city. Hundreds of persons besieged the pier of the company as though they expected the La Gascoigne would in an hour or two be moored at her dock. This crowd was re-inforced every moment.

When told the ship was safe, they shook hands with each other and laughed and wept with joy. Several thousand people decided on staying on the dock until the La Gascoigne arrived, and it was not until after a conspicuous announcement was displayed on the outside of the company's pier, that she would not leave quarantine until tomorrow morning that the anxious watchers slowly went to their homes.

M. Forest, agent of the line, was hugged, punched and slapped; and actually kissed by those whose joyful feelings overcame them. One man, Mr. Riche, broke down completely and sobbed as if his heart would break. Riche has three daughters on board the La Gascoigne. Fifty newspaper men have been waiting at quarantine for the steamer for several days, and tonight 100 more went down the bay in tugs.

The cause of the steamer's delay was due to an accident to her steering apparatus.

A TRAMP'S HARD LUCK.

Sentenced to the Penitentiary, but Probably Innocent.

Portland, Feb. 11.—John Snyder, the tramp who was a few days ago sentenced to the penitentiary for two years for burglary, will probably be pardoned by the governor as evidence has been discovered which will undoubtedly show he is innocent of the crime. Last summer the residence of E. Quackenbush was burglarized and a quantity of silverware and other articles stolen. Among the articles stolen were a pitcher and a suit of clothes which were pawned at a broker's office. Snyder was arrested for the burglary and convicted. Three reputable witnesses are now ready to swear that Snyder was in Kalama at 6 p. m. on the day the articles were pawned, and in order to have committed the burglary he must have come from Kalama, robbed the house and pawned the articles all before 4:30 p. m. of the same day. Albert Abraham, attorney for Snyder, moved for a new trial, and was given

ten days in which to prepare a motion, but before the time expired Judge Stevens sentenced Snyder and he was taken to the penitentiary.

ROYALTY WANTS HER.

London, Feb. 11.—Miss Annie Bocker, the only woman of the Elbs who was asked, today received a command from the queen to visit her at Osborne House, the royal residence on the Isle of Wight.

BIG FIRE AT KANSAS CITY.

Kansas City, Feb. 11.—Reeves & Co.'s straw packing factory and the buildings of the Campbell Paint Co., and the Creamery supply Co. on Eleventh street, were burned this afternoon, causing a loss of \$100,000.

THE MAYOR A KING.

Albany, N. Y., Feb. 11.—Gov. Morton has signed the power of removal bill which gives the mayor power to depose heads of departments of the New York City government.

CRANSTON WILL FIGHT

Exiled From Hawaii Without Cause or Trial.

Should He Prove His Assertions the Government Will Take Up His Claim for Indemnity.

Associated Press.

Washington, Feb. 11.—The state department will take vigorous measures in the case of J. Cranston, who arrived at Vancouver yesterday on the Warrimoo, exiled from Hawaii. A brief statement has been received from the United States commercial agent at Vancouver, alleging that Cranston, an American citizen, guilty of any participation in the rebellion, was forcibly placed aboard the steamer, and exiled without any trial, and to his pecuniary loss. Should Cranston's assertions be borne out by inquiry, he will have a good claim for indemnity against the Hawaiian government.

FOR AN EXTENDED CABLE.

A Bill Introduced Yesterday Incorporating the Pacific Cable Co.

Washington, Feb. 11.—A bill to incorporate the International Pacific Cable Company for a cable from California to the Hawaiian Islands, thence to Japan and other points in the Pacific and the mainlands of Asia and Australia, was introduced in the house today by Representative Charles W. Stone, of Pennsylvania.

The project for a cable from San Francisco to Japan has been the work of Admiral John C. Irwin, recently retired from active service, who held large interests in Hawaii and Japan. The capital stock is to be \$5,000,000, with a right to increase it to \$20,000,000. The bill includes the authorization for 5-per cent bonds to the amount of \$20,000,000 to constitute a first lien on the property, and provides for an annual report of the company's affairs to the secretary of the treasury.

KNOWN IN SEATTLE.

John Cranston Given an Unsavory Reputation Here.

Seattle, Feb. 11.—John Cranston, the man who has threatened to enter a claim for damages against the Hawaiian government for banishment from the country, is well known in this city, having worked for about five years for the Seattle Transfer Company, as foreman of the dray teams, and has also been in the draying business for himself, in which he failed. He bore an unsavory reputation both in business and domestic affairs.

He informed several parties shortly before leaving that he was going to the islands to "catch on to something."

WATCHING FOR THE LOAN.

Europeans Keep a Close Eye on the Doings of Congress.

New York, Feb. 11.—The Evening Post's London cablegram says: The markets were quiet today but disgruntled by the American situation, and the uncertainty whether congress at the eleventh hour will authorize a gold loan. It is felt here that President Cleveland has wisely so arranged matters as to attract the attention of the American nation to the currency problem. Business in American stocks was quiet today, but the market is being watched. Operators are endeavoring their commitments in other markets to be ready at the right moment for Americans, as no public opinion of the world is being expected here before the ten days' limit has expired.

STEAMSHIP VICTORIA.

Damaged in a Collision at Shinonosiki, Japan.

The Accident Will Cause a Delay of Three Weeks in the Oriental Mail.

Associated Press.

Tacoma, Feb. 11.—The Northern Pacific Steamship Co. has received a cablegram from Nagasaki, Japan, announcing that the steamer Victoria, due here February 21st, was damaged by collision on January 25th at Shimenosiki, Japan, and proceeded to Kobe for repairs. Further details are not given, except that the steamer will be delayed three weeks. This will bring her here March 14th. Forwarding the United States mail will be somewhat interfered with, as the post-office department on Saturday ordered all Oriental mails arriving at San Francisco, after the sailing of the Oceanic, to be sent here for dispatch on the Victoria, to sail February 25th.

W. W. STOW DEAD.

San Francisco, Feb. 11.—W. W. Stow, park commissioner and a well known politician, dropped dead in his office this afternoon.

PERSONAL MENTION.

Hon. Jno Fox returned to Salem Sunday evening.

Mr. W. T. Chutter returned yesterday from the metropolis.

Mr. Samuel Maddock was in the city yesterday from Brookfield.

Mrs. M. A. Crow went to Portland last evening. She will return Thursday morning.

Miss Ross Thiel returned from a long and extended visit to friends and relatives in Salem and Portland.

Mr. T. M. Hawes and wife, who have been in Portland on a brief visit, will return home on today's steamer.

The Columbine came into port from up the river yesterday afternoon, and she looks like a brand, spanking new vessel. All the injury she received by the destructive sea a few weeks ago, while crossing out between the heads, has been repaired, and now the steamer is in as good, if not better condition than ever. While in Portland, judging by the papers of that city, Captain Richardson and his brother officers have not spent a very dull existence. Sunday's Oregonian has a nice little account of an impromptu musicale given the general captain on Thursday evening by the chorus of the M. A. C., a local organization, followed by a visit from the Ashland ladies' quartet. The latter left their autographs under the following: "From Ashland's vale, o'er hill and dale.

We came to see the Columbine; Long may her prow the ocean plow. And this may be her valentine."

They are piling up ice at Fabius, Mo., as a precaution against another drought. Such forethought deserves the cake.
