It is suggested by an Eastern ex change that the ugliest factor in the ican spectators. It was never over looked for a moment by President Dole Kanakas of the royalist party. They have demonstrated their ability to deal them before there are fewer. They hav always had a good conceit of them events now occurring in Asia. They are ing and ambitious. They They are encouraged in these aspirations by the Japanese government an attentive eye or Hawali for years past, and has once (at least) shown a desire to meddle in its affairs. Honolulu has not to learn what Japanese war ships look like. Mr. Hatch, Hawaii's very intelligent minister of foreign affairs, said a thing or two during his recent brief stay in San Francisco, which should have an interest for American states-

It may not be generally known but It is a fact that the Japanese merchants are surely absorbing the trade of the islands and acquiring a position of great commercial importance. Already they are driving the Chinese merchants out of business. It is significant to the United States, for Japanese supremaco means the cutting off of valuable trade with the islands and its transfer to Japan. The commercial future of the islands rest with the United States or England. We are only a handful of people. We can take care of ourseive if let alone, but if Japan makes de mands upon us we can do nothing unless the United States or England gives up support.

When in the year 1867 the United States paid Russia the sum of \$1,200,000 for the territory of Alaska, the pur chase caused no end of comment, an try down as a block of lee on which Uncle Sam cooled off in summer. The territory was then forgotten until the disputes with Great Britain arose over the taking of seals, and with this came an arbitration which decide the United States to be wrong. Nov comes the annual report of Governo Sheakley, to the secretary of the interior, which renews the interest in this faraway land and tells a wonderful story whose details are very attractive The 580,107 square miles of Alaska rep resent a land surface twice as large as New York, Pennsylvania, Ohio, Illinois Indiana, Kentucky, and Tennessee with only 29,644 population, of which but 4,398 are whites. Governor Sheakley declares that the fisheries have been successful, the mines have yielded profitable returns, the population has been largely augmented by immigration, and the people have enjoyed a cases of unusual progress and prosscrity. The salmon canning industry alone, which began in 1883 with a pack of 25,000 cares, has increased to 200,000 cases, and salmen in the rivers "occuly anothers so great as to exceed all bellet." It stunds like the advertising sefteeness so nicely not to build up the specially lists at Thropean ports for the Repulls of America.

By growing. As indisputable evidence of this, it is only necessary to quote the statement of Sir John Jenkins, of swansea, Wales, recently made before the Chamber of Commerce of that great tin-making center. Sir John said that the falling off in demand for tin plates co cts was due to competition in this country, which has placed the mills in Swanse in a regious condition. There is a class of people in this country who will no believe that Americans can make tin newspaper published on the Columbia they still refuse to be convinced. Will t be possible for such stupid people to realst the evidence presented by Sh John Jenkins? He is interested in tin have admitted that Americans were quality of steel, which forms the body of the plates, and our process is ar xcellent one. Thoughts

On a dark, stor y night, when the tide is ebbing fast and the hardy fisherman finds it almost impossible to handle his net, has he ever stopped to think, should it become caught on a snag, what brand of twine would stand the greatest strain? Did he ever ask his brother fishermen what sort or twine they used? If so in nine cases out of ten, if they be successful fishermen, the answer has been "MARSHALL'S TWINE."

It is the ONLY Brand of Twine to use.
