A QUEENLY HEAD.

Can never rest on a body frail from disease more than the lovely lily can grow in the sterile soil. When Consumption fastens its hold upon a victim the whole physical structure commences its decay. At such a period before the disease is too far advanced, Dr. Pierce's Golden Medical Discovery will arrest and cure it. Send six cents in stamps for a book (160 pages) on Consumption and its cure. You don't want a carpet sweeper that barks the furniture or brushes the life out of the carpet, or kicks up dust in stead of gathering it, or lops its handlabout for you to trip over. You may come across that sort under one name or another. Pass on, and remember Bissell's Grand Rapids Sweeper. It comes as near to "broom work" as a machine can. Pronounced by Physicians the most Favorable in America

for Sufferers from . . .

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been giad to take advantage of its beneficial climate, has been a lack of suitable accommodation. The Southern Pacific Company, takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio sta-tion, that will be rented to applicants at reasonable rates. They are fur-nished with modern conveniences, supplied with pure artesian water, and so situated as to gove occupants all the advantages to be derived from a more or less protracted residence in this de-lightful climate.

(From the San Francisco Argonaut.)
"In the heart of the great desert of the Colorado—which the Southern Pacific road traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain invalids, there is no spot opthis pignet so favorable." for certain invalids, there is no spot or this planet so favorable."

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight.

* Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort, —here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil, for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no heattancy in recommending this genial oasis as the haven of the afflicted."
