There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. ## ONE HUNDRED KILLED

As Many More Injured in a Railway Wreck.

LATEST REPORTS OF DISASTER

The Latest News From the Inter-Oceanic Railroad Wreck is Appalling.

Associated Press.

City of Mexico via Galveston, March 1.—It is now known that 200 people were killed and injured in the terrible wreck on the Inter-Oceanic Railway yesterday. It is impossible to say as yet how many of this number are dead, as the wreck has not yet all been cleared away and reports are very conflicting. It is feared, however, that over 100 are dead.

The train was an excursion carrying nearly 1200 passengers returning from a pilgrimage to the Sacre Monte Shrine. Near Pedro Blanca there is a sharp curve and at this point from some reason as yet not definitely learned, five coaches jumped the track and went down the side of the mountain. Three of them were smashed completely into kindling wood. As soon as word was received in this city a relief train was sent out with surgeons and a wrecking force and the work of rescuing the wounded and taking out the dead has been progressing since. As fast as possible the wounded are brought to this city, President Diaz having ordered the military hospital with its staff to care for all survivors. A gentleman who returned on one of the relief trains says he saw fourteen bodies taken from one coach. The bodies were mangled in a most shocking manner; some of them were in fragments, and the limbs and heads and bodies were mixed up in such a manner as to make identification almost impossible. The scene about the wreck was most sickening as well as sorrowful. Relatives were searching for missing members of their families, and women and children who had lost husbands and fathers were crying and moaning in a heartrending manner. Further details from the scene are expected later this evening, but the telegraph service is unsatisfactory. This is the most serious wreck in Mexico since 1891, when a train load of soldiers went through a bridge, 400 of them being killed. The most careful inquiry in this section of railroad people indicates that there were no Americans on the train, the passengers, as far as learned, being natives. The train crew were not Americans, and in accordance with the Mexican custom, all who were not killed will be arrested, the Mexican law placing the responsibility on the train men for such affairs, and are stringent.

TRAGEDY NEAR BAKER CITY.

Two Miners Shot, One Killed and the Other Seriously Wounded.

Baker City, March 1.—News was brought to this city this evening that an awful tragedy occurred yesterday afternoon near the Sparta mining camp situated thirty miles from here, in which James George lost his life and L. A. Lurchin was seriously wounded. The murder was committed by G. E. Chamberlain, who used a Winchester shot gun. His feeling had existed for some time between the parties, which arose over a disputed placer claim. Chamberlain took his victims unawares coming upon them while they were at work in the mine. The first shot took effect in Lurchin's neck, which felled him to the ground, and he was left for dead. Chamberlain then blew out George's brains. A 15-year-old son of the deceased was a witness to the horrible deed and as the boy started to flee he was fired upon, but the shot scattered around him. The deceased leaves a wife and eleven children. The murderer is still at large.

THE EUGENE SENSATION.

Eugene, Or., March 1.—The trial of Miss Mary Berger on a charge of sending obscene matter through the mails was the principal topic of conversation throughout the city today. She was examined before United States Commissioner Walton and the greater part of the day was consumed in the examination. She was bound over to appear before the United States jury, with bonds fixed at \$200.

The principal evidence on which she was arrested was that she had written a letter to Mrs. McKenny, from Fairmount, and Mrs. McKenny answered it, sending a detective to watch at the postoffice and see who should call for the letter. This detective swore positively in the trial of Mrs. McKenny, that Miss Berger called and got that letter from the Fairmount postoffice on a certain day. It was thought to be conclusive that the person who wrote the letter to which this was an answer was the author of many obscene missives that have been received by prominent ladies. Today Miss Berger proved an alibi to the charge, that she was

## NEGRO FIEND HANGED

Lanched From the Scaffold the Second Time.

HIS HANDS ARE FREED

And in His Frantic Contortions He Disrobes Himself—Other Telegraph News.

Associated Press.

Atlanta, Ga., March 1.—Joe Dean, the coal-black negro who murdered A. B. Leap, a well-to-do farmer of Campbell for his money and afterwards confessed to his crime, was hanged in Fairburn today. By order of the court the execution was to be private, but a crowd of 5,000 excited people that had assembled tore down the high fence around the gallows and made it public. The wretched man had to be hanged twice. The first time the rope broke. Like a dead man he was taken back on the scaffold and again swung off. Meantime his hands had become unfastened and in his frantic contortions he disrobed himself. The drop fell at 11:55 and eleven minutes later he died. During the morning Dean, in response to his earnest entreaties, was allowed to make a speech from the courthouse steps. He described his murder of the old man, and said his love of money and ignorance and the devil had done it.

DECLARED A DRAW.

Joe Wolcott and Billy Smith Fight 15 Rounds at Boston.

Boston, March 1.—In the presence of 4,000 people at Murray's Hall tonight Joe Wolcott and Billy Smith, formerly of Portland, Oregon, fought fifteen rounds for the welter-weight championship of this country, and Referee Aarons decided at the close of the 15th round that the fight was a draw, amidst wild excitement and applause and hisses. At the close of the 15th round Wolcott insisted upon fighting to a finish, but it was decided that the fight was over. Wolcott did the cleverest leading and landing throughout. Smith was game and put up a good fight. Smith was the aggressor. In the sixth round Smith floored the colored boy and punched him to the ropes. Smith, however, was terribly punished, but pluckily held his own. The fight was a series of rushes and punches.

THE MARY DODGE.

Has Probably Taken Her Cargo of Powder to China.

Tacoma, March 1.—No tidings yet have been received of the schooner Mary Dodge, which left San Francisco for Tacoma 23 days ago, with a cargo of giant powder and dynamite. Some old sea captains and other mariners are of the opinion that the vessel is all right and probably went to China or Japan with her cargo of powder and that it is intended to be used in the Japan-China war.

DOINGS AT OLYMPIA.

Business in Both Houses Lagged Through Useless Discussion.

Olympia, March 1.—Business lagged in both houses this morning with long, useless discussions. The chief interest centers in the Helm bill which the railroads are waging a strong fight. The committee is preparing for an investigation of the state land commission. In the house this morning the principal bill passed was to prevent fraud in the manufacture and sale of dairy products. Other bills passed by the house were: By Albertson, governing the descent of real estate of deceased persons. By Mitrov, to prevent the employment of females in places where intoxicating liquors are sold. The bill providing for a grain commission and inspector was made the special order for Wednesday next. The bills passed by the senate were: By Taylor, to provide for appraisal of property before the sale on foreclosure of execution proceedings. By committee to permit municipalities or corporation to summons sureties on bonds for the purpose of determining their solvency. By Range, giving judgment debtor 2 years in which to redeem on foreclosure. By Wilson, permitting women to hold office of county superintendent. By Dorr, permitting laborers to recover attorney's fees in actions for earnings.

LAST DAY BUT ONE.

But Little of Interest Transpired in the House Yesterday.

Washington, March 1.—The house is approaching the close of the session with unusual calmness and equality. Not a sensational incident occurred on this last legislative day but one of the session. The entire day was devoted to the consideration of bills on motions to pass them under suspension of the rules. Five recognitions for this purpose were made by the speaker, of which three passed and two failed to receive the necessary two-thirds. Those which passed were: The substitute for Dingley's bill to authorize the president to arrange for a point committee to consist of three representatives of this government, Great Britain, Russia and Japan to investigate the conditions of fur seals and the regulations necessary to their preservation and pending the rules of the committee, to negotiate for a modus vivendi to protect the seals during the approaching season, and in case such modus vivendi cannot be negotiated, to give the secretary of the treasury authority to kill seals, found on the Pribiloff Islands; the senate anti-lottery bill and the bill to pay the state of West Virginia its share of the direct tax refunded by the act of 1891.

REFUSED TO CONCUR.

Sacramento, March 1.—The senate, by a vote of 22 to 9, refused today to concur in the joint resolution from the assembly memorializing congress for the annexation of the Hawaiian Islands. The senate is composed of 25 Republicans and 15 Democrats.

At the charity ball in Berlin Emperor William and Ambassador Baynon exchanged anecdotes and jokes in the utmost good fellowship. The funny story is an American specialty against which Emperor William desires no embargo.

## Eastern Jobbers of Dry Goods Report the Trade Brighter Than Was Only.

Foreign dress goods are inactive, and domestic fabrics correspondingly slow. Heavy arrivals of foreign wool depressed the market. Domestic mills are gradually filling spring orders.

CONDENSED TELEGRAPH.

St. Louis, March 1.—A special telegram from Havana says the insurgents have defeated a force of 2000 Spanish troops, but no details are given. It is reported that Vicenti Garcia, a brother of Manuel Garcia, was also killed in an engagement near Asnua Caba. Another battalion of government troops left Havana for the East. Many encounters are reported in Matanzas. One thousand trained men have left Havana in the last sixty days a few at a time in order to so disarm suspicion. Several former Cuban chiefs, among them the insurgent band led by Marrero near Jague Y Grande and the province of Matanzas, have been dispersed by the regular troops.

Washington, March 1.—A secret meeting of the executive committee of the bimetallic league, which has been in progress for nearly two weeks, may be continued until after the adjournment of congress. Prominent Democrats say the probable result of the meeting will be a declaration looking to a new party. They advocate independent action on the silver question and will compel no man to put aside his convictions upon any other issue.

Hiroshima, March 1.—Field Marshal Count Oyama reports under date of February 27, that he met the enemy near Taiping Shin and defeated them on Feb. 24. Thirteen thousand Chinese troops attacked Hai Ching but were repulsed and retreated to Yin Kao. The Japanese lost 200 killed and 250 wounded, and the Chinese 200 killed.

Paris, March 1.—The May Day committee decided last evening to appeal to all socialists to cease work on May Day.

Desatur, Ill., March 1.—Fifty tramps came into the city last night, stealing, begging and frightening women. The marshal and posse drove the tramps across the railroad bridge east of town when they opened fire on the police with revolvers. The police returned the fire, and a battle ensued. The tramps finally fled, carrying three of their number, who were either killed or badly wounded.

Minneapolis, March 1.—The Hayward murder trial proceeded today in spite of the fact that county attorney Nye is confined to his bed from nervous prostration.

Paris, March 1.—Mr. Percher, one of the editors of the Journal des Debates, was killed in a duel with swords this morning by M. LeCheteller, an officer of marines, the result of a personal difficulty.

Washington, March 1.—The senate rejected the nomination of A. D. Lindley to be postmaster at St. Louis, S. D.

Washington, March 1.—Representative Wilson's nomination to be postmaster general was confirmed by the senate this morning.

Omaha, March 1.—Nebraska legislature decided to revive the beet sugar bounty by paying the producers \$5 per ton for all beets produced.

Clara Louise Kellogg, whose sweet voice once charmed two continents, is living in New York in comparative poverty. Once she was worth nearly \$1,000,000, but it has all been swept away by unfortunate business ventures. The once famous woman has lost her voice entirely, and has no way of recouping her shattered fortunes.

The total disappearance of the eods and his chivalrous associations is sadly apparent in Alabama. A mayor and a legislator, both colonels of high degree, during a somewhat affectionate encounter, smashed three chairs and two bookcases before the doctors intervened and stitched the fractures.

Boston Courier: "You were born to hang," said the conductor to the man who handed him a plugged nickel. "I guess you are right," said the man, "I have hung to these straps every morning and night for over six months."

Chicago Record: "Why are you sure that Blinks has succeeded so remarkably?" "They used to call him a disreputable stock jobber, and now every one calls him an enterprising and brainy speculator."

Puck: The Housely—That moth and his wife have separated. The Cookroach—Yes; they were thoroughly incompatible. He was very fond of books, while she cared for nothing but clothes.

An English artist has made a bust of Chauncey M. Depew. It is said to be superior to the banquet variety.
