It is believed by many that the O. R. and N. Co. will operate the Seashore road this summer in the event of Messrs. Bonner & Hammond purchasing it. It is a well-known fact that Receiver McNeill and his associates fortable appetite in the city are anxious to get hold of a road to may be spoiled by drinking the seashore, and would have taken poor whisky. We've studied the South Coast last summer could they have made the proper arrange ments with the owners. It is not proba able that Bonner and Hammond will attempt to operate and equip the road until the bridge is finished and the

Goble extension is completed into the city. It is to be hoped that the road will fall into the possession of the O. R. and N. for the time being, as it

will assure seaside visitors comfortable travelling for this season at least.
