A milliner in Eastern Oregon actually advertises that she has gone to Portand to "get the latest spring styles." To Portland for style-dear, dear, isn't I wenty yards that awful!

> The lighthouse tender Columbine is expected back from the Sound the first of the week. She has done a great deal of work shifting, replacing and establishing new aids to navigation on Puget sound while away, and will leave that portion of the district in excelent condition.

D. B. Worthington, who opened a hydrant of eloquence last spring in nominating General Compson for governor, has the distinction of being the only editor in Southern Oregon who can stand at the head of the banquet table and mix up a salad in true metropolitan swell club style.

Try the P. N. Corset and The Sarah Dixon came down yesterday with a big cargo of freight for the canneries and merchants. The Dixon is in better condition now than at any time since she first slipped Taxes will beinto the water a new boat, and being both fast and comfortable as a night boat, she is sure to command a goodsized slice of the river business.

Mr. Grover states that the self-registering thermometer at his office shows that yesterday morning was colder than at any time during the past winter. The temperature fell to 27 de-See Swope about decorating and sign grees. Only once, and that during the latter part of last January, did the thermometer approach this point, when the temperature fell to 28 degrees.

C. S. Norris and wife, of Chicago, were in the city yesterday at the Occident. They will leave for California Why do you suffer with that cold when E. O. Cough Syrup will cure it; for sale at the Printz-Crain Drug store. this morning on the ocean steamer. Mr. Norris represents the Booth Packing Company, of Chicago, Mrs. Norris Beaver Hill Coal. No Smoke, no Soot. For sale at Finlayson's shipping and commission agency, 9th street wharves, at \$5.50 per ton. being a daughter of A. Booth, the senfor member of the company. After the American fisheries and, therefore, not fishing season opens, Mr. and Mrs. Norris will return to Astoria and remain for a few weeks.

Architect J. E. Ferguson has completed the specifications for the stone wall to be erected around the residence of little too slow or a little too fast, bring it to J. H. SEYMOUR. He will at-tend to it. He knows how. He learn-Councilman Young, and is now busy on plans for a fish station to be built on the Washington side of the Columbia. He has orders for a number of residences, but their construction depands wholly on the successful beginning of the Astoria-Gobel railroad.

> A Clatsop beach rancher was in towr vesterday and hearing that there was to be another log raft built at Stella, sent up word to the builders that the heavy timbers from the last raft that went to pieces, and requested that a quantity of dressed lumber be included in the next one so they could pick up nough lumber to finish up a house if this raft went to pieces also.

Yesterday the boys before Judge Osburn for stealing, were sentenced to their sentences suspended by their pa-

at Los Angeles, though during their the advance guard of a large number California and Northern Mexico. Mr. way. Allen says that Los Angeles, just now, is the liveliest city on the whole Pacific coast, and that if Astoria had ome of her energy she could not resist a temptation to boom.

The steam schooner Harrison arrived in early yesterday morning with a large cargo of dairy and farm products for the Astoria and Portland markets She also brought several tons of machinery for Elmore's cannery. The Harrison leaves out tomorrow morning with a full cargo of freight for Tillamook and Nehalem, her freight consisting principally of general merchandise. She will also carry several passengers.

Over in Baker's bay several big pile drivers are hammering away driving piles for traps that are to take the place of those recently pulled up from the channel by order of the United States courts. Fully seventy traps were found to be over the channel line when the resurvey was made, and these have all been taken out. It is expected they will be replaced by the time the season opens, though it will keep the huge hammers busy driving until that time

The continued dry weather is working a great harship to coast saw mills depending upon freshets in order to float logs to their mills, as many of a proper depth.

Mr. Baln, the gentleman associated being framed at Stella, is still in San Francisco figuring on a big white cedar contract for the new San Joaquin Valley road. He will probably put in an the law. Very Respectfully, appearance here about the first of May and remain until after the raft is completed. Mr. Robinson states that he was offered \$500 to move his raft from Stella to Ranier, and the citizens of an income of any size it is quite propthe latter place guaranteed to pay er to refer to her as "awnt." A pure Grape Cream of Tartar Powder. Free all expenses of towing. It is not as convenient a spot as Stella, however, Dr. Price's Cream Baking Powder and the offer was declined.

To Dye

Or Not to Dye that is the quesis better to wear that faded, shabby dress and endure the scornful looks of all your well-dressed neighbors, of to purchase a package of Diamond Dyes and restore its freshness in another color-making

new dress for ten cents. Diamond Dyes are made for home use. Absolutely reliable, Any color, Sold everywhere. 18 cents a package. FS lirect's Book and to simples of colored cloth, free.

WELLS, DEPARTSON & Co., Burlington, Va.

Every day since the Bailey Gatzert has been on the Telephone run, at various points on the river the residents congregate and watch for that boat, and the Potter, for it is a settled conviction that sooner or later there wil be a brush between these splendid steamers. Both boats have their firm friends, and no little money is now up on the result of the first "sure enough" race. It is hardly probable that the Potter will urge a test of speed until

bottom cleaned. A party of Americans desiring to take tariff, which provides for the free entry of "all fish and other products of American fisheries, went over a short time grounds of economy, and built a scow or barge, on which to live, and engaged a British steamer to tow the same from place to place. From this barge fishing operations were conducted in small boats. The United States general appraisers have decided that fish caught in this manner are not a product of entitled to free entry.

A gentleman up from Seaside yester day stated that there will be a greater sort this spring than on any previous occasion. The builders will be mostly Porriand people who already own propvantage to which this beach is placed from poor transportation facilities. many of the best families of Portland and other interior cities cling to it and was erected on the vacant lot at the go there from season to season, hoping that in time the accommodations will be such as not to make it a great tasi to reach it, and when the Seashore road is built into the city and people can step from the steamer to the train without inconvenience, it is expected people of his vicinity had plenty of the lovely resorts of Clatsop beach will about the place, though it soon grew be visited by thousands where nov hundreds are wont to go for a little

Two men, a wagon and four horses came in on yesterday's steamer, having come by train from Omaha, Neb., to Portland. Mr. Hunter, of the Portland Butchering Company, says that he reform school, two of them having the parties came here to go to work on the water works construction. They ents agreeing to place them in private had read an advertisement in the Omachools for a term of three years, ba Bee to the effect that 500 men and Judge Osburn gave the boys a good teams were wanted in Astoria, Oretalk, and pointed out the end that gon, to work on the pipe line, and had awaited them if they did not change lost no time in getting their teams and heir ways. Sheriff Hare took three household effects on board a freight of the youngsters to Salem last night. freight train bound toward the setting Upon their aarrival here they Mr. Carlton B. Allen and wife have hunted up Contractor Normile, who returned from an extended wedding said he could give them two or three our through Southern California. They | weeks' work, but could promise nothing pent the greater portion of the winter further. They state that they are only beence they visited various parts of of Nebraskans who are headed this

"Did you meet Hammond's representative?" was a question propounded to a number of people yesterday-men who were just pining away for a little railroad news. The answer was invariably "no," and then they were referred to Mr. J. B. Wyatt, who, it was said, knew the gentleman personally, and had been in conversation with him shortly after the arrival of the morning boat. In answer to the numerous questions piled to him regarding to stranger, Mr. Wyatt said: "Yes, Mr Hammond's representative arrived this morning and left on the Ilwaco for the other side of the river. He will probably return tonight." "What did he have to say?" anxiously asked the man seeking for railroad pointers. "He said business was getting better and pork continued firm." "Pork-why what has pork got to do with a railroad from Astoria to Goble?" "I guess," remarked Mr. Wyatt, smiling, "you are a little mixed regarding the Hammond who has a representative here; it is George H. Hammond, of Omaha, the pork then the victim of the datest joke would with water, into which is put the chemslip quietly out and spring it on some other fellow who bad not heard the news.

' NOTICE TO TAX-PAYERS. I desire to state to the Tax-Payers them are now almost wholly without of Clatsop county that there will post logs. Logan's mill at Seaside continues tively be no extension of time in which to run, but if a rain does not come to pay taxes without penalty. Section soon, it will have to shut down. Over No. 2794, Page 118 of the Session Laws. 300,000 feet of logs are now in the Ne. of 1893, command me to make my recannicum at J. P. Eberman's place and turn of the Tax Roll to the County half as many more are cut and read; | Court on or before the first Monday in to float down the river as soon as April. Section No. 2798 of the Laws or per cent of carbonic gas. This is a natsufficient rain comes to give the stream Oregon provide that County Warrants are not receivable for Delinquent Taxes.

The law in relation to the collection with Mr. Robinson in the big raft now of Delinquent Taxes will be strictly complied with. It is not my desire to persecute or work a hardship on any one, but I am compelled to comply with JAMES W. HARE,

Sheriff of Clatsop Co.

# NEW CHEMICAL ENGINE URIC ACID IN THE BLOOD

It Arrived Yesterday and Was The Cause of Rheuma-Installed in Rescue No. 2.

A Test Given Last Night Which Proved Highly Satisfactory-Was Placed in Commission,

The new chemical engine arrived yesterday, was duly installed in Rescue Engine House No. 2, thoroughly tested, and finally accepted by the committee on fire and water and placed in commission

The engine arrived yesterday afternoon on the steamer Balley Gatzert, and had President Cleveland been or the boat a larger and more expectant crowd could not have met the steamer as she tied up to the dock Even before the passengers were al ashore, the new fire extinguisher, its polished brass, copper and nickel glisttriumphantly wheeled onto the wharf and immediately surrounded by a large she has been on the ways and had her crowd eager to get a good view of the engine that has been the chief topic of conversation among the fire tarbiles advantage of the provision of the new ever since the council ordered it two And If You Are Suffering You Are months ago. Shortly after the arrival of the steamer the peair of beautiful white horses belonging to Rescue No ago to Victoria, B. C., probably on the 2 were brought down and hitched to the new fire fighter, and followed by s hundred people, was taken to the en gine house, where during the afternoon many people called and gave it a care-

ful inspection. By the courtesy of Chief Buchtel, of 1, accompanied Mr. A. G. Long, the Pacific Coast agent of the Fire Extinguisher Company, of whom the engine was purchased. These gentlemen erty down there. Despite the disad- ple that anyone or ordinary intelligence price. If your fancy can be selzed at all, it can work it with but little study. During the day a shack, 16 feet

square, made of old and dry boards, rear oof Foard & Stokes' store, inside the building being placed all sorts of juffamable material, such as tar bar rels, resin, pitch blocks, etc., At & HardTimes Have Com? o'clock last evening was the hour set for testing the machine, and as early as 7 o'clock people began to congregate so dark that it was impossible to est! mate their numbers. Promptly at & o'clock the engine, with lights aglow turned the corner from Commercial street and was soon drawn up in readiness about 100 feet from the structure to be fired. A moment later twentyfive gallons of coal oil was poured over square dea the building and contents and a lighted match applied. As If by magic the whole nighborhood was brilliantly illuminated by a great roaring mass of flames that leaped high into the air. It seemed that thousands of people were present, for by the light of the burning building a densely packed mass of humanity could be seen or every side of the block. Chief Foster, Assistant Chief Stockton, in fact all the members of the fire department who could be spared from their place. of duty were on hand, as well as members of the city council. Mr. Long waited until the fire had got under fulheadway, when at a signal, Captain Wemple, who had the nozzle, turned on the stream, and like the dropping of a theatre curtain, the bright light of the fiercely burning shack faded away and only a few smoking embers were visible. The flames had been extinguished in less than five seconds time. Again the fire was started, and the same result followed the applica-

tion of the chemicals. It was so thorough a test, and with so successful a result, that the members of the fire and water committee, who witnessed the whole proceeding, ordered that it be immediately placed in commission. Of course it is not ex pected that a large burning building, difficult of access, can be controlled as easily as the shack last night, bu taking the record of those chemical engines in other cities where they have been in use for several years, it is safe to say that Rescue's new fire extinguisher will take a prominent part in Japanese Bazaar future fires in this city-especially when Chief Foster hands in his annual report. The engine has two cylinders, of 60 packer, not the railroad man." And gallons capacity each. These are filled

leals which generate within the clyinders carbonic gas, producing a pressure of about 100 pounds per square inch, and which expels the contents of the cylinders through the hose, of ing on the end of it a controlling nozzie, by means of which the stream can be used or shut off as desired. The water merely serves as a vehicle for conducting the carbonic gas to the fire. As is well known, fire cannot exist an instant in air containing 5 ural law well understood and explains the womierfully rapid and efficient work done by chemical fire engines. At the exhibition last night only one cylinder was put into service, and during the few seconds it required to extinguish the fierce fire, probably less than one quarter of its contents was

Lou Cordes, driver, and Geo. Goodell, pipeman, are very proud of their new ngine and propose to be in the front ranks at every fire. The engine is the same size as the three engines now in use in Portland and if it does as effeetive service as any one of them so far, the city will be well repaid for their outlay in a very few months.
