They Lack Life

There are twins sold to fishermen
on the Columbia river that stand in
the same relationship to Marshall's
Twine as a wooden image does to the
human being—they lack strength—life
—evenness—and lasting qualities. Don't
fool yourself into the belief that other
twines besides Marshall's will do "just
as well." They won't. They cannot.

THE DEPRESSION IN EUROPE.

England No Longer Able to Compete
With Manufacturers and Grow-
ers of Other Lands.

Associated Press.

St. Paul, March 25.—President J. J. Hill, of the Great Northern Railway, well known as an able financier, has just reached home after an extended visit to Europe and Eastern cities. His statements are of general interest. He says:

"I found there was a great depression in some of the countries of Europe, particularly in Great Britain, and more especially in the cotton and iron industries. The United States is England's best customer, and our imports have been largely reduced to the advantage of this country and to a corresponding disadvantage of Great Britain. English manufacturers and land-lords owning agricultural lands are taking very active interest in bimetalism and a greater use of silver. They are realizing fully that Argentina, Australia, the East Indies, China and Japan, who are on a silver basis, are forcing their labor to accept in payment silver which they buy for about 55 per cent of the value of gold, and have a margin on labor alone that enables them to undersell the English farmer or manufacturer in the markets which England has heretofore controlled.

"England is either compelled to give up a large amount of the world's trade which she has heretofore controlled, or increase the use of silver in the world to such an extent that it will not be possible for her manufacturers to take advantage of the lower cost of their labor growing out of the difference of gold and silver. If the silver basis in the United States with only one congress alone and leave the matter to be worked out by the commercial profit and loss account of Great Britain, the latter nation will be compelled, together with France, Germany and our country, in bringing about a condition of things that will enable the English people to meet the competition of other nations on something like an equal footing.

"The feeling abroad against all classes of American securities, whether national or otherwise, was very intense. Good and bad were more or less classed alike. This feeling, however, is gradually wearing away.

"The low prices of wheat have already found during the past year, a new market for that product. California and the west coast wheat that has heretofore gone to Europe, is now going in shiploads to China, in the form of flour, where it is taking the place of the rice formerly used by the Chinese.

"Has your opinion changed regarding the ratio of gold and silver?"

"That is immaterial. The proportions of gold and silver taken for one thousand years—as long as we have history upon the matter—remain practically the same. For a period of ten years or more, one or the other may show a slight change, but the ratio remains at 15 to 1 or 16 to 1. And is gold and silver were interchangeable for so many hundreds of years in the past, it is difficult to see what has occurred to prevent changeability now, provided all nations are willing to receive it."

When asked why other nations cannot act independently of England in the matter of international agreement he said:

"Simply because England, or London, is the financial clearing house of the world, and all commercial balances are practically adjusted through the medium of sterling change or British credit."

A SCHOONER STOLEN.

The Star of Freedom Has Been Missing for Two Weeks.

San Francisco, March 25.—The little schooner Star of Freedom has been stolen and is now probably engaged in some smuggling scheme along the coast. The vessel has been missing for two weeks. Some time ago a man named Bartels desired to charter the Star of Freedom, but the owner would not let him have the schooner. Bartels achieved some notoriety about two years ago when he arrived in port on the schooner Achilles, from Portland, Oregon. A telegram was received by Collector Wise from Portland requesting him to hold the vessel on her arrival as she had been stolen. Bartels was not prosecuted as he claimed he was part owner in the Achilles.

LI HUNG CHANG SHOT.

Yokohama, March 25.—Resolutions have been submitted to the Japanese diet regretting the attack upon Viceroy Li Hung Chang, who was shot and wounded in the face yesterday at St.

monshi when returning from a peace conference, by a young Jap.

The bullet has not yet been extracted from the face of Li Hung Chang, but the conditions are favorable. He has no fever and is suffering little pain. His assailant, described as a political bravo, rushed from the crowd when the viceroy's palanquin was passing and fired at the Chinese statesman. The bullet entered the left cheek. The affair has caused the greatest indignation here.

MAY CAUSE INTERVENTION.

The Attack on Li Hung Chang May Cause Foreign Powers to Step In.

Washington, March 25.—Information coming to the Japanese legation is to the effect that Li Hung Chang's wound is not dangerous, except as complications may develop. It is on the fleshy part of the face, and fortunately no any vital organs touched. Prince Li's advanced age and several constitutional disorders which make him almost an invalid, may aggravate a now wise harmful wound. On his arrival at Simonsaka he was too sick to leave the ship that brought him. He had to be carried about, this being a necessity in his case, as well as an honor due his rank. The officials of the Japanese legation say the offender will be charged with treason, as the assault is not only against the person of Li Hung Chang, but against the Chinese government. It is probable also that the trial will be by court-martial, and conviction by court-martial would mean that the offender would be shot. Diplomats here are inclined to believe that the entire peace negotiations may be broken off by the assault, by affording a pretext for European intervention. Li himself will prevent such a failure however, if it is possible.

Officials here regard it as settled that China and Japan have reached an understanding by which the former will extend her territory south from Vladivostok so as to keep the harbor open the year around. This has been the acquisition Russia has long sought as it gives an eastern outlet to the Great Siberian railroad.

COULDN'T STAND PROSPERITY.

Left a Fortune and Lost It Trying to Get More.

Oakland, March 25.—When Dr. Samuel Merritt died he left \$2,600,000 to his sister, Mrs. Garcelon. When Mrs. Garcelon died she left a will providing for a trust fund of \$500,000, the income of which was to be paid to Dr. Merritt's nephews, James and Fred Merritt. One of the conditions of the trust is that should either of the brothers ever contest the will, or question the wisdom of any of its provisions, or doubt its genuineness, both should lose every right and title to the trust, the innocent brother suffering alike with the guilty one. The trust property then reverts to the residuary legatees of Mrs. Garcelon. Nevertheless, James Merritt did contest the will, and was beaten in the superior court. He appealed and the supreme court upheld the lower court. Now the attorney of the estate announces that he will notify Capt. J. N. Knowles, custodian of the trust, to cease paying the allowances to both the Merritt brothers. Capt. Knowles is in doubt what to do and the matter will be tested in the courts.

FOR JURY BRIEBING.

San Francisco Ex-Policeman Implicates Several Officials.

San Francisco, March 25.—Wm. J. Hurley, the ex-policeman who is charged with attempting to bribe a member of the jury which recently tried "Dick" McDonald, the bank wrecker, created a scene when his trial began in the superior court this morning. Against the advice of his counsel, Hurley went on the witness stand and made a clean breast of his connection with an attempt to bribe the jurors. He implicated Deputy Sheriff Rock, who was under suspicion at the time of Hurley's arrest, and also Harry Piper, chief deputy county clerk. Hurley swore that R. H. McDonald had offered him \$500 for each juror that he could get to vote for acquittal. He then went to Deputy Sheriff Rock, he said, and they agreed to manage the job together, Rock agreeing to summon men to be named by Hurley.

THE NICARAGUA AFFAIR.

Washington, March 25.—Dr. Cushman, the Nicaraguan minister, was at the state department this morning and the inference is that he has been consulting with Secretary Gresham regarding the ultimatum. It is evident that the state department is doubly concerned in this matter, and the statement from Ambassador Bayard explaining the purpose of Great Britain, is anxiously looked for.

Pendleton Indians Trying to Settle
on a Delegation to Visit
Washington.

Associated Press.

Portland, March 25.—A prominent
railroad man connected with the pro-
posed Astoria railroad received a dis-
patch today from Mr. Hammond stat-
ing that he started from New York
on March 21st and will reach Portland
on the 28th or 29th.

PROBABLY MURDERED.

Indians Quarreling Over Who Shall Go to Washington.

Pendleton, March 25.—The coroner's
jury returned a verdict of death by
exposure and dissipation in the case
of Mrs. Peter Pamburn at Athena Sat-
urday night, but the officers are col-
lecting evidence to present to the grand
jury fastening the guilt on some one
for causing her death. Mrs. Pamburn
Saturday evening started for home on
her ranch, and is said to have been
under the influence of liquor. Sunday
morning she was found dead on the
bank of a small stream within the
limits of the town of Athena. She had
been drowned in two feet of water and
dragged from the stream as the marks
on the bank showed. The woman was
a notorious character known in every
town in the county.

The council of Indians appears to
have broken up in a row. Three fac-
tions contended for supremacy in the
matter of sending a delegation to
Washington. As soon as it was de-
cided a delegation should go, the differ-
ent headmen began to elect one for
their choice. Prominent candidates dis-
puted liquor freely and resorted to
the white man's device and maligned
their opponents. Finally another coun-
cil was called, but the result was no
made public. It is probable that the
faction headed by Chief No Shirt will
win.

A SOUND SECTION.

It Should Quiet the Fears Regarding Statehood for Utah.

Salt Lake, March 25.—The committee
on ordinance and federal relations sub-
mitted a report to the constitutional
convention today. The first section is

timent shall be secured and no inhibi-
tion of this state shall ever be ac-
counted in person or property on account
of his or her mode of religious wor-
ship; and polygamous or plural mar-
riages are forever prohibited."

OUT THE RATE.

San Francisco, March 25.—The Ore-
gon Railway and Navigation Company
has announced a cut in rates between
here and Portland, to take effect Sat-
urday next, the date of the State of
California's departure. First-class
cabin rate has been reduced from \$10
to \$12, and the steerage from \$3 to \$5.
The reduction is the result of the rate
war now in progress between the Pa-
cific Coast Steamship Company and the
rival boat Parillon, which has been
carrying passengers to Puget Sound
for almost nothing.

PORTLAND'S POPULATION.

Portland, March 25.—The census of

them and they hope to be at work for
themselves inside of a few weeks.

cific has made a 60-cent rate on pota-
toes from this city to the Missouri
river. The old rate was 2 cents. Large
shipments of potatoes east have been
made and more will follow.

A WHOLESALE ARREST.

Portland, March 25.—Fifteen women,
keepers of houses of ill-fame, were ar-
rested tonight. All except one gave
bail and were released.

AFTERNOON DISPATCHES.

The Associated Press News Contained
in the Afternoon Report.

Delaware, Ohio, March 25.—A tor-
nado visited this city and the surround-
ing section last night at midnight, un-
roofing houses, uprooting trees and de-
molishing fences. Several people were
injured but no fatalities are reported.

Chicago, March 25.—A thief attempt-
ed to rob the till of the Equitable Com-
mission Company in the Grand Pacific
building today and was shot at by the
sashier. The thief returned the fire.
No one was hurt. The Chief was cap-
tured.

Berlin, March 25.—The celebration of
the eightieth anniversary of the birth
of Prince Bismarck, which occurs April
1st may be said to have commenced to-
day as 32 members of the Reichstag
and the Prussian diet started during
the day for Friedrichsruhe to congratu-
late the ex-chancellor.

Traverse City, Mich., March 25.—The
Walker House, a small hotel at this
place, was burned at midnight.
James Miller, a porter, was observed.
Other occupants narrowly escaped.

Key West, Fla., March 25.—A pas-
senger from Havana just arrived says
only by the prompt action of Captain
General Calleja averted an uprising at
Havana. After the imprisonment of
Gomez, the negro leader, his sym-
pathizers worked up a scheme to attack
the palace Friday night. The govern-
ment learned of the plot. The guards
were quadrupled, and 100 soldiers sta-
tioned inside the palace. The day
patrol was also heavily reinforced. The
negroes hearing of these precautions,
gave up the scheme.

New Orleans, March 25.—Negroes
went to work on the levee this morning
without military protection. Soldiers
are held in the armories in case of
trouble.

Fredericksburg, March 25.—Three ap-
er trains bearing nearly 400 members
of the Reichstag and Prussian diet ar-
rived here today and proceeded to the
castle, where they were received in a
body by Prince Bismarck. Herr von
Koller, president of the lower house
of the Prussian diet congratulated
Prince Bismarck on the approaching
anniversary of his birth. The prince
thanked the deputy for their kind
wishes.

Port Scott, Kan., March 25.—Six United
States prisoners escaped jail last
night. Among them is Bill West, the
notorious outlaw. Others are horse
thieves and general robbers.

Chicago, March 25.—Sensational re-
ports were submitted by Receiver Mc-
Nulta, of the Windy City today, by
the reports for a month have been
examining the books of the Greenhut
management. Charges of juggling ac-
counts and converting the books and
similar work are made and the report
asserts that the former directors and
officers, by disposing of the stock to
themselves, have left a discrepancy of
\$124,120. The report states that \$4,882
shares were sold by the officers and de-
rectors to the trust at 45 cents on the
dollar and consequently about \$1,000,
000 is due from them to the stockhold-
ers of the Distilling and Cattle Feeding
Company.

Dover, Del., March 25.—Sensational ef-
forts are being made to effect a com-
promise between the Higgins and the
Addicks factions. It is expected a
United States senator will be chosen
this week. The ballot today resulted:
Higgins 5; Addicks 6; Massey 3; Ridge-
ly 10; Tunnell 1.

Redlands, Cal., March 25.—David Mc-
Coy died this morning at the age of
one hundred and four years and ten
months.

Washington, March 25.—The United
States supreme court today began
hearing the arguments in the case of
Eugene V. Debs, president of the Amer-
ican Railway Union and others. Debs
and his associates asked for a writ of
habeas corpus releasing them from the
sentence to imprisonment passed upon
them by Judge Woods. The fact de-
veloped that the main contention of
the prisoners would be that the bill
which passed the house of representa-
tives and therefore the injunction was void.
