They Lack Life

There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—energy—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

Violin

Lessons given by Mr. Emil Thielhorn, graduate of the Hamburg Conservatory, Germany; also a member of the Chicago Musical Society. Studio, corner of 12th and Commercial streets, up stairs.

THOMAS MOKKO.

The Blacksmith whose shop is opposite Cutting's cannery, is now prepared to do such odd jobs as making new canary coolers, repairing old ones, making new fish boat irons, and repairing old ones, and all other blacksmithing that requires first-class workmanship.

Playhap

Your mind is on repairing your house this spring; possibly on building a new one. If so, remember we are carpenters and builders with a shop full of tools always willing to do such jobs and want your work.
MILLER & VOSNEY,
 Shop on Hwaro Dock.

AN ORGANIZED GANG

Printing Fraudulent Chinese Certificates in San Francisco.

OFFICERS MAKE A RAID.

But the Counterfeiters Had Been Warned and Had Left Their Workshop.

Associated Press.

San Francisco, March 28.—For some time it has been known that an organized gang of white men and Chinese scattered all along the Pacific Coast and having connections in several Eastern cities has been doing a systematic business in fraudulent certificates of Chinese registration. Secret agents of the treasury department finally ascertained that the bogus certificates were being printed in this city and in Philadelphia. They finally located the workshop of the counterfeiters in a building on Clay street. They planned to raid the place last night and expected to arrest at least five men. Some one, presumably some official in the customs service here, managed to warn the counterfeiters and when the place was raided no one was captured. The officers captured over 8,000 blank registration certificates, however, and the paraphernalia that the counterfeiters had used. Secret Service Agent Thomas stated to day that the leader of the gang is a man named Todd, an ex-customs officer on Puget Sound, and that other members of the gang in Oregon and Washington are known. The rate on Chinese laborers was \$50, and on others, \$100. There is a probability that a great deal of work has been done in Victoria, and that the plates from which the certificates were printed are now there. The man is from Victoria, and is an expert of rare skill.
 In laying plans to entrap the agents of the forgers, the collector hired several Chinese engaged in business in China, to act as decoys. A member of the band who came from Oregon to help sell the forged instruments stumbled upon one of the department's Chinese decoys almost at the outset of his negotiations, and it was through this blunder that the forgers betrayed themselves.
 The federal officers tonight caught two men in the act of forging Chinese registration certificates and arrested them. They are employees of the Ocean Steamship Company, and are named Fols and Caprico. The government officials claim to have unearthed a gigantic conspiracy.

SENSATIONAL DEVELOPMENTS.

San Francisco, March 28.—The trial of the case of Max Wasserman against Louis Slope involving the ownership of 400 shares of stock in the Alaska Commercial Company, and about \$170,000 of accrued dividends, developed the fact that in the earlier days of the company Supreme Court Justice Stephen J. Field had 200 shares of stock for a while, but when an assessment of \$5 per share was levied, he sold it. If he had held the stock he would have obtained \$1,000,000 in dividends within a year. The court ruled out certain questions that would probably have brought out interesting evidence as to how long this was done before congress to secure the valuable conclusions that were made to the company.

SAVING BY A BADGE.

Baker City, Ore., March 28.—After attending prayer meeting last night two boys, Ralph Walters and George Palmer, became involved in a quarrel, and after exchanging blows the former drew a 22-caliber pistol and fired at his opponent. The ball struck a steel badge which Palmer fortunately had in his lower vest pocket and the leaden missile was flattened and split in two pieces. Walters was arrested and will answer to the charge of assault with intent to commit murder.

A RAISE OF PENSIONS.

Washington, March 28.—All necessary steps for putting into effect the recent legislation raising all pensions below \$5 to that rating, have been taken by the pension bureau. The change will add about \$1,500,000 to the pension expenditures, and the cases of about 40,000 pensioners will be affected.
BIG FIRE AT ST. AUGUSTINE.
 St. Augustine, Fla., March 28.—The northwestern portion of the city was swept by fire today, destroying 40 residences and business houses, besides entailing a loss of \$100,000, with little insurance. A large part of the residences were owned by poor people and many families are homeless tonight.
JAPANESE TREATY SIGNED.
 Washington, March 28.—President Cleveland signed the proclamation of the new Japanese treaty March 28, and the fact was made public at the state department today.

ARE COMING TO OREGON

Transcontinental Lines Preparing for Heavy Immigration.

A PAIR OF DESPERADOES.

While Holding Up an Officer are Killed by Citizens—Other Important Telegraphic News.

Associated Press.

Portland, March 28.—Speaking about immigration into Oregon and Washington this spring, Mr. A. D. Charlton, assistant general passenger agent of the Northern Pacific, today said: "Our company expects to handle more immigrants this spring than in any like period for four years past. We have had a large number of inquiries at our eastern offices about homes and lands in the Northwest, and a majority of the prospective immigrants are of a thrifty class." Mr. George Haylor, assistant general passenger agent of the O. R. and N., while not entirely satisfied with the outlook for immigration, thinks it will be greater than for several years past.
O. R. AND N. OCEAN TRAFFIC.
 The San Francisco Offices Liable to Be Shaken Up.
 San Francisco, March 28.—It is reported in railroad circles that there will be a general shuffling up in the local offices of the Oregon Railway and Navigation Company shortly. Salaries and other expenses will be reduced, and several heads will fall in the basket. Goodall, Perkins & Co., who manage the ocean traffic, say they do not know of any changes to be made just at present, but hint that a general shake-up may occur at any time.
TWO DESPERADOES KILLED.
 They Hold Up an Officer, and Citizens Rescue Him.
 Little Rock, March 28.—Early this morning three desperadoes, Sam McWilliam, Gep. Sanders and Sam Butler, rode into the town of Bragg's Station, La., and announced that they proposed to hold up the town. A fight between the bandits and citizens ensued, in which McWilliam and Sanders were killed. Butler escaped after being wounded. The son of Station Agent Morris was also dangerously wounded. William Barbo, deputy United States marshal, tells the following story of the fight:
 "This morning about 7:30 I was sitting on the hotel porch at Bragg's, when three men came riding up and hitched their horses to a rack in front of Morris' store. Coming across the street to the hotel they made me hold up my hands and disarmed me. Finding that I was an officer, they marched me to Morris' store and said that as soon as they finished robbing it they would kill me. An Indian who was on the porch slipped out and gave the alarm. The sheriff secured a posse and returned to the store. As they came up the robbers ran out and the fight commenced. Williams and Sanders were killed and the other robber, who was recognized as Sam Butler, escaped badly wounded."

THE HONDURAS AFFAIR.

Investigation Shows Government Responsibility for the Killing of Renton.

Washington, March 28.—The report of Capt. Davis of the United States steamer Montgomery upon his investigation in Honduras concerning the killing of an American, Renton, at Brewer's Lagoon, has just been received at the navy department. The conclusion is that the Honduras government is properly chargeable with the responsibility for the affair, and has been derelict in failing to take any steps whatever to ascertain and punish the perpetrators of the crime. Davis found that the injury sustained by the Renton estate amounts to about \$38,000, and the Honduras government will be requested to reimburse the widow in this amount.
ANDREW CARNEGIE RETURNS.
 He Says the Condition of the Country is Improved.
 New York, March 28.—Andrew Carnegie arrived on the steamer Paris today, and talked freely about the business prospects in this country. He said the country could be described as convalescent. While it was not much stronger than it was a year ago, still there has been a change for the better. "He thought it unlikely that congress would be able to pass any important measures, and if this should be the case he would regard it as fortunate. What the country needed above all things was a period of absolute rest."

Admission 10 and 20 cents.

LANDS FOR SETTLEMENT.

Paris of the Yukon, Alaska, and Siletz Reservations.

Washington, March 28.—Secretary Smith today gave to the president drafts of two proclamations opening to settlement the lands held by the Yukon Sioux in South Dakota and the Alesha and other Indians on the Siletz reservation in Oregon. The president is expected to act immediately on these, and issue the formal proclamations within a few days. The proclamation provides that the lands shall be subject to entry within 30 days of publication. The land officials do not expect a rush for the lands such as occurred at the Oklahoma opening, and will adopt measures for settling to secure equal treatment for all settlers.
 The agreement with the Siletz Indians provides for the cession of all their unallotted lands, the total ceded territory covering 173,000 acres. The compensation paid by the government was \$100,000.
AFTERNOON DISPATCHES.
 The Associated Press News Contains in the Afternoon Report.
 Harmony Grove, Pa., March 28.—A large boiler at the Langston saw mill in Apple Valley exploded last night. Willie Goode was standing near the saw and his body was cut entirely in two. John Langston was buried 30 yards and nearly every bone in his body was broken. A negro woman cook was instantly killed. Ed. Churchwell, E. M. Langston and John Holbrook were severely injured.
Colon, Colombia, March 28.—Government troops have been victorious in an engagement at San Carlos. Dispatches from General Barbo, commanding the government forces, confirm the news of the great battle at Ensisio, March 15. Although 1,500 of the troops died on the march, the rebels numbering 2,500 were routed with a loss of 1,200 killed. Only 700 Colombian troops were killed. The rebellion has ended.
Hong Kong, March 28.—The Japanese will bombard Takou, on the island of Formosa, tomorrow.
Simonoki, March 28.—Li Hsing Chang has so far improved that it is expected the conference between him and the Japanese officials will be resumed next week.
Winipeg, March 28.—The separate school warfare is to continue two months at least as Premier Gorman publicly announced the legislature will adjourn until Friday, May 5. Premier Gorman says a remedial order is too important a matter to be dealt with precipitately by the house, and therefore it is deemed wise to take ample time to become thoroughly acquainted with the whole range of the subject. The government has already submitted to eminent constitutional lawyers some of the chief points affecting the jurisdiction of the legislature regarding schools.
Canaana, N. Y., March 28.—The entire business part of this village and 20 dwellings were burned today. Half of the people are homeless. The loss will be \$100,000, only about one-half covered by insurance. No lives were lost, but many persons were injured.
Dover, March 28.—The Higinia people sprung a new candidate for governor today in Charles F. Richards, of Georgetown, but Richards' followers cast the regular quota of votes on both ballots. It now seems the prospect between these factions is so wide it cannot be healed.
Yokohama, March 28.—The Corsican loan of \$300,000 yen, has finally been arranged upon terms demanded by Japan. It is payable in five years.
St. Louis, March 28.—The California express on the Iron Mountain Railway which was held up by two masked robbers one mile this side of Williamsville, Mo., last night, reached here this forenoon several hours later. According to the trainmen, the hold up was one of the most daring since the time of the Jesse James gang. Two men took complete possession of the train. Their arms consisted of Winchester and Colt revolvers. Conductor Webb said "one of the men covered me with a gun and ordered me to throw up my hands. He grabbed my watch, ran his hands down into my pockets and got about seven dollars I had collected in fare. The express messenger was compelled to open the safe at the point of a pistol, and when he could not open the larger safe they threatened to kill him. They ransacked the local packages, but Messenger Early (his name was in the large safe) was work done the highwaymen got over the fence and made for the woods."
New York, March 28.—Scott Foster, president of the People's Bank of this city, was assaulted today by his brother-in-law, William H. Foster, with a heavy case. His arm was broken, shoulder dislocated, and skull fractured. William Foster was arrested. In court he said: "It was good they copped me when they did. I would have killed him. He has robbed me of everything I had."
Philadelphia, March 28.—The jury in the case of Charles McKeever, Charles McCarthy, and Jack Fogarty, charged with engaging in prize fighting at Winter Circus building, on January 24 and 25 last, found a verdict of guilty this morning after being out two days. This will put an end to boxing contests in this city.
New York, March 28.—The tug Mary A. Packer was sunk in the bay this morning off Red Hook. The Lehigh Valley Company received telegrams from Captain D. T. Cross stating that all the crew were saved except James Kelly, a deck hand.
