

## YES.

There is a difference between our suits and others that we know of. One difference is the shaping, another is the workmanship, and another is in the style of goods. Nearly all of ours are imported cloths; you can see in that why every third man along the street hasn't a suit like we sold you and why ours look different. It takes more than wood and iron to make the difference between a ferry-boat and a sky ocean steamer.

**GOOD WHISKY.** That is the test of a saloon's stock. Competition for long time ran to big mirrors. Polly! If that were all, the saloon business might quickly capitulate to the sense of sight, and not to taste. Our move The Office move, has been toward quality. That is the reason we obtained the agency for HOPE WHISKY, and the more cultivated and critical your taste is the better chance our whisky will have.

## The Office.

Your Mouths,  
OUR STEAKS

One great basis principle of the Palace Restaurant is mutual dependence. To thrive and grow, each dish must be better than any one else's. Our aim is to reach the only roomy trade place, the top. No lower idea can be permitted. And when the top, our top, is reached by any other restaurant, we will lift the top.

## A Poor Cigar

W. F. SCHIEBE never made. Don't expect to make, either. But make this—s-a-t-i-s-f-a-c-t-o-r-y of the 22-karat sort has accompanied every purchase of one of the cigars made by him since he began business. We've got the notion that a satisfied customer "cuts a big figure" in building up a business. That's the reason La Belle Astoria takes so well.

## Little Giant.

Seems in it half the mothers in Astoria have bought a pair or two of these LITTLE GIANT school shoes for their children. The other half will as soon as they hear of the wearing qualities of those that are being worn about the city. You can have your choice of leather, kid, grain or calf.

When the life sets one way there is always a cause for it.  
Women don't come here to buy coats, suits, and all other kinds of most simply because it's Christensen & Co.'s. Of course there are a few, a very few, who buy out of compliment, or from ignorance, but the great mass of housekeepers buy where they can get the best and for that reason we supply the majority of the families in Astoria for they know by experience that we have only the best.

## THREE-MINUTE DINNERS

It can be fixed up with a shilling, dish. It is the most inexpensive luxury extant. Every family should have one and especially the bachelor living in rooms at a hotel or boarding house. They are to be had all kinds and sizes at Ford & Stokes.

For years the Astoria Wood Yard has given our citizens only the very best of wood and coal. They are still doing it. In fact, they are taking the lead. Why? Because they know what the public wants, and the public knows them.

Ford & Stokes Co. have secured the agency of the famous STEWART'S TWINE, the only GENUINE FLAX TWINE manufactured in IRELAND. Their new stock goods are much superior to any other kind.

When a man buys a lottery ticket and draws nothing but his breath is keen. When he buys his wood and coal of the Sow Bay Wood Yard, whose office is opposite Fisher Bros., he is pleased, as they sell only the best.

Mr. Humphrey has some choice Chinoiserie at his market near Reservoir Hall. He also has oysters that sell at a less price than at any other market in the city. He carries clams and other shell fish and as a side line has a stock of Marshall's famous knit twine.

It may be that you are dissatisfied with your grocer. If so, why not give Ford & Stokes a trial? They satisfy others, and feel pretty sure that they will suit you. A dollar's worth of groceries of an inferior quality. It's penny wise and pound foolish to give good money for goods that are almost worthless.

As announced in Sunday's Astorian that they would, the members of the subsidy committee at their meeting yesterday morning signed the contract with Mr. Hammond, thus leaving that gentleman free to go ahead with his plans for construction.

On the Bailey Gatzert last night were the following passengers for Portland: A. B. Hammond, J. C. Stanton, L. B. Sealey, G. H. George and wife, W. Warner, J. A. Devlin, Miss Grounds, Mrs. Everson, Mrs. Cannon, Mrs. M. Kinney, Mrs. J. Babler, J. T. Merrell, F. R. Strong and wife, and R. L. Jeffrey.

Yesterday the steamship State of California arrived in from San Francisco. There were several cabin passengers for Astoria and a score or more of steerage passengers. The latter did not have the appearance of being returning fishermen, but rather laboring people attracted here by stories of railroad building.

Dr. Kinney says that it is the intention of Mr. Hammond to extend the Seaside road to the mouth of the Nehalem. This will be done just as soon as the Astoria-Goble road is finished. The survey, however, will be made this summer, and everything such as right of way, maps, etc., got ready for an early beginning.

Messrs. G. Wingate, Charles Shively, and J. W. Welch have been appointed by the subsidy committee to look after procuring the right of way from Astoria to Goble. They will probably select men as they think most suitable to do the work, and start them out at once. An effort will be made to close up the right of way deal by the first of May.

Mr. Hammond says that Peavey Brothers, the St. Paul elevator firm, who own all the principal elevators on the coast, will not rebuild the elevator that burned in Portland last spring but will erect one here instead. This will be done in time to handle next year's (79) grain crop. The significance of this move will be fully realized when one stops to think that the bulk of the cargo carried away by foreign

bound vessels goes through this company. This season's grain crop will be handled through the temporary sheds now in use at Portland.

There is some talk of the A. F. C. giving an entertainment for the benefit of the right of way committee. Mr. A. B. Hammond and Mr. J. C. Stanton left for Portland last night on the Bailey Gatzert. They expect to return to Astoria within a week's time. While away Mr. Hammond will visit Corvallis and other points on the Oregon Pacific. He expects to have three corps of engineers in the field within the next ten days, surveying the line from this city to Goble. After making a trip to San Francisco, which he will do when leaving here next week, Mr. Hammond expects to return to Astoria and remain for a month or so until building operations get under full way.
