DR. BUSHONG'S SERMON.

The Congregation Was Composed Largely of Young Men.

In spite of the storm and rain, a large and intelligent congregation, largely composed of young men, assembled at the M. E. church, to listen to Dr. Bushong's third sermon to the young men of Astoria. The doctor had selected for his theme, "Ideals, or Every Young Man has an Ideal." He read for his text, 1 Pet., 2:21, leaving an example we should follow in his footsteps. Following is a brief synopsis of the sermon:

~

"Birds and beaver never build after the pattern or models of others, therefore, they never improve upon the first nest or dam, while the greater builders among men have even sought for a pattern or plan so they might improve upon the past. Out of this comes his selection of an ideal, after which to fashion his "life structure." This ideal differs with the various stages of his development and conceptions of the true values of things This ideal, whatever it may be, is found to exert a potent, though silent influence over him. This is especially true of us in the formation period of life, hence the great importance of this theme, as the ideal is as liable to wrong as right had as good. Yet, the influence of the ideal is just as powerful in the one as in the other. We ar not to blame for either selecting or modeling after these ideals, but ware responsible for the kind of ideals we select. Man has ever had his ideals, and these have had much to d in moulding the public mind and giv ing character to nations. In ancient Greece and Roman's greatest glory. the physical man was placed befor the youth as his highest ideal; hence the Olympic games and gladiatoria fetes were established by law, and the victors crowned with national honor: The bull fights of Spain and Mexiwere held up in the same light. E. forts even in this enlightened day hav been made to lionize the victor of th brutal prize ring, but to the credit o the good taste of our people be it said this effort has met with signal failure

Another ideal standard was set u as worthy the imitation of every as piring youth, viz.: "The intellectu giant," at the the expense of bot soul and body, hence the school of sto ical philosophy. This ideal, howevfinally degenerated into a kind of v luptuary ideal, with all the baser eiments of the old epicurean philosoph which said: "Let us eat and drin today, for tomorrow we die," or, "a the gold and wealth theere is, is wh each day brings us. This idea d more to overthrow some of the gree nations and empires of the past, tha all other avencies. It is amazing bomany are still holding up this ideal a the chief aim of life."

The speaker here sounded a cleanote of warning to the American yout against this dangerous ideal. The dor ter closed his sermon by holding u before it the one "great ideal," after which if we build, we can not only make no mistake, but will be aided in securing our noblest manhood, vis. "The man, Christ Jesus." This is n imaginary or impossible ideal for us t pattern after, but a very possible one This was one object of his humanity He was tempted in all points as w all. He prayed, he wept, he became hungry, foot-sore, and tired. He of all others is the young man's friend and pattern! To make the most of an Heal, we must study and become acquainted with it. Study the Christlike character which will weather every storm and stream of life.

The sermon was listened to throughout with the closest attention.

THE STRONGHOLD OF HEALTH

Is soon carried by the assaults of malaria, but if Hostetter's Stomach Bitters is employed as a bulwark and combative influence of this effi-cient safeguard, which fortifies the system as no other medicine up to date has ever done. It counterasts clearly and tollet articles, etc., the Auditor and Police Judge for pub-can be bought at the lowest prices at J. W. Conn's drug store, opposite Oc-at the office of such officer. At the next regular meeting of the Common Council following the final a tendency to rheumatism, neuralgia, and kidney complaints, overcomes indirection, nervousness, constination, and liver troubles, improves the appethe and recomples direction. Taking all in all, it is probably the most useful family remote in existence and is normal as well as effective. Use it evelocatically, not at irregular feter-

THE POLICE COMMISSION

Their Work of the Past Three Year. Speaks Well for the New System.

Several days ago the Astorian confained an account of the police department report and gave a brief outline of the work done by the department during the past three years. This morning a comparative statement is given of the department for the last three years under the old system and LOOK OUT FOR COLD WEATHER the three years the police force has een operated under the conscryative gliance at the following table will show an ingrease during the past three years in fines and forfeitures, it is a well-known fact that never before in years has fines and forfeitures, it is a well-known fact that never before in years has Astoria been so free from crime and lawlessness as at the present day. This is accounted for by the visilance of the present force, and the systematic and prompt manner in which the evil disposed are kept under the thumb of the law. The following table explains

> Pronounced by Physicians the most Favorable in America

for Sufferers from . . . Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, has been a lack of suitable accommodation. The Southern Pacific Company, takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio station, that will be rented to applicants at reasonable rates. They are furnished with modern conveniences, supplied with pure artesian water, and so situated as to gove occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.)

"In the heart of the great desert of the Colorado—which the Southern Pacino road traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We be lieve, from personal investigation, that for certain invalids, there is no spot of this planet so favorable."

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight.

"Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort, —here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil for rain is an unknown factor; pure oxygen, dense atmosphere and pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted."
