They Lack Life

There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twins as a wooden image does to the human being—they lack strength—life—youthfulness—and lasting qualities. Don't fool yourself into the belief that other twins besides Marshall's will do "just as well." They won't. They cannot.

THE NEXT U. S. SENATE The Republicans Will Certainly Re-organize It. A BITTER FIGHT EXPECTED Over Chairman of the Finance Committee—Silver Men Will Endeavor to Dictate.

Washington, April 4.—A report has been circulated from Washington to the effect that when the reorganization of the senate shall be made, as it is generally considered that it will be by the Republicans at the next session, Senator Morrill, who stands at the head of the Republican membership of the finance committee, will retire in order to allow Senator Sherman to be made chairman. Mr. Morrill's closest friends say that he will expect to be restored to the position of chairman, which he held previous to the reorganization of the committee by the Democrats at the beginning of this congress. Senator Morrill's friends scout the idea that his age is such as to call for his retirement from the head of this committee. While the probabilities are very great that the Republicans will have no little difficulty in choosing a successor on the finance committee to Senator McPherson, Democrat, the filing of this place will in all probability be the first contest which will occur in the next congress between the silver and anti-silver men. Silver men now have a majority of one of the committee, five of the six constituting this being Democrats. The silver men are also a majority in the senate, but a minority in the Republican caucus.

The silver Republicans have, however, already given notice that the place must be filled with a man from among their ranks, and say that in case of failure to make this concession, they will demand recognition and leave the matter with the Democrats, who would probably fill the vacancy with a free silver man. The names of those most prominently heard in connection with the vacancy are those of Senator Cameron, of Pennsylvania; Senator Wolcott, of Colorado; and Senator Platt, of Connecticut, the first two being favorable to silver, and the last opposed to it.

THE WOOD HEIRS SETTLE. The Famous Emma Silver Mine Case Settled. Denver, April 4.—The famous Wood heirs litigation has been settled and the plaintiffs have come into possession of mining property in Aspen valued at \$20,000,000. It was claimed that W. J. Wood, a poor Canadian who located the Emma mine, was defrauded of his interests in that property. At the time of his death he did not know how valuable it was, and his heirs signed away their claims to it for almost nothing. When they discovered what they had done they consulted attorneys and a suit was begun in the United States court. They obtained a judgment for one-third interest in the Emma mine, and for \$50,000 in cash. The defendants finally agreed to settle the matter without further litigation and all the heirs will be enriched. When Aspen was in her halcyon days before the depression of silver, mining property involved in this litigation was estimated to be worth from \$15,000,000 to \$17,000,000. It is now said to be worth about \$10,000,000.

WILL HUNT INSURGENT. Troops Being Mobilized at Santiago de Cuba. Havana, April 4.—(Special correspondence Associated Press.)—At daylight this morning a battalion of Spanish troops marched out from the fortress of Cabana. When the battalion en route today have reached Santiago de Cuba, all the troops newly arrived from Spain will have been mobilized at that point and then a hunt for the insurgents will begin. The forces will number something over 4,000. At the palace of the governor general the Associated Press correspondent was today informed that when all the troops that are now expected from Spain shall have arrived, there will be available against the rebellion about 32,000 men.

A PLUCKY NATION. Venezuela, April 4.—It is stated by persons in a position to speak with authority, that as soon as Venezuela is convinced that Great Britain has finally decided not to arbitrate or settle the boundary dispute as suggested by the United States through Ambassador Bayard, the southern republic will regretfully but resolutely resort to what she regards as her only course—a resort to force. It is declared that her citizens are ready to see their homes and their cities desolated and laid in ashes rather than to submit to what they regard as national dishonor. It is said that the contention with Great Britain is not so much one of territory as of sentiment. So firmly impressed have the people become with this opinion, it is expressed that they would rather see the country go out of existence than to pass into the practical control of foreign hands. A strong feeling exists in the Venezuelan government that the United States won't stand idly by if the resort to force is made.

PRICES OF MEAT ADVANCE. Kansas City, April 4.—During the last six weeks the price of beef in this city has increased 20 to 25 per cent. Butchers say the whole difficulty is due to the increase in the price of live cattle.

SAFETY RIFLES. Several Horses Fell, and Chancy, a Jockey, Was Injured. San Francisco, April 4.—This was a day of accidents at the races. The biggest fluke of all was Marletta's win at 100 to 1. In the first race Fleetwood ran away, and Soon Enough, who finished second, was disqualified for fouling. Eight horses started in the steeplechase, and only three finished. Malcom, Steadfast, King Sam, and Winklow fell. Chancy, who rode King Sam, was badly hurt. Six furlongs—Fondren R., 1:15. Five and one-half furlongs—Sea Spray, 1:09 1/4. One mile—Marletta, 1:43. Five and one-half furlongs—Bernardo, 1:08 1/4. Mile and one-quarter, steeplechase—Gold Dust, 3:20. Five furlongs—Seraphin, 1:02 1/4.

HE WAS TIRED OF LIFE. Frank R. Dow of Spokane Succeeded Yesterday. CARRFULLY PLANNED AFFAIR. Blood and Brains Were Scattered All Over the Room—No Reason Given.

Spokane, April 4.—Frank R. Dow committed suicide this morning by blowing his brains out with a Marlin rifle. He came to Spokane from New Hampshire three years ago to work in the Bank of Spokane Falls, then being operated by A. M. Cannon. He was a nephew of the late Mrs. Cannon. Of late he had nominally been engaged as a bond broker, but his support had been by money received from the east. The suicide was carefully planned. Dow had removed the counterpane, spread it on the floor and laid down on it, placed the muzzle of the rifle between his teeth and pulled the trigger. Blood and brains were scattered over everything and death must have been instantaneous. Examination of his rooms revealed the presence of dozens of empty morphine bottles, and several vials which had contained laudanum and other drugs. A careful search failed to reveal any papers or letters giving a reason for the rash act. R. K. Dow, father of the deceased, lives at Claremont, New Hampshire.

AMERICAN CATTLE IN CANADA. Washington, April 4.—Officials of the bureau of animal industry do not regard the action of the Canadian government in directing the quarantine officers to be particularly strict in their inspection of cattle from the southwestern states as being particularly important. Practically no American cattle are sent into Canada because the restrictions already enforced are virtually prohibitive. Nevertheless, frequent reports of the character of this one upon which the Canadian government bases its action is annoying to the department because they are unjust to the cattle interests of the country, and tend to the injury of business with other countries. The officials of the bureau have been called upon frequently of late to reiterate the assertion that there has been no proof of the existence of a case of pleuro-pneumonia in this country for more than two years.

NOT UP TO THE STANDARD. San Francisco, April 4.—Investigation of the mint at Carson City is progressing rapidly and the indications are that a number of important arrests will be made in a short time. Secret Service Agent Harris is in possession of evidence that gold coins coined at the Carson mint during the past eight or ten years contain too much alloy, and do not come up to the government test. It is stated that several banks here has commenced sorting out the Carson coins, and will demand their redemption by the treasury.

STRIKE AT OLYMPIA. Olympia, April 4.—A general strike of common laborers on the capital foundation work occurred today. The men had been working on a basis of \$1.50 for nine hours, but never worked more than eight hours, receiving therefor \$1.10. They demand \$1.50, and the stone cutters and brick-layers were necessarily compelled to go out also. The laborers have organized committees to meet all trains and boats from outside points and dissuade laborers from working.

Sargent, from Seattle. REQUIRES THE OFFICIAL COUNT. Milwaukee, Wis., April 4.—The present indications are that it will require the official count to determine whether Judge Winslow or Judge Clendenen is elected justice of the supreme court.

AFTERNOON DISPATCH. The Associated Press News Contained in the Afternoon Report. Chicago, April 4.—At the headquarters of the Rock Island road it is said that last night near Dover, Train No. 1 was held up by five mounted men, who ordered the baggage man to open the door of the baggage car. He refused, and the men fired twelve shots through the door, wounding the baggage man in the wrist. The robbers then broke down the door with a sledge but did not get any plunder from the baggage car. They hurriedly proceeded through the smoker and one of the day coaches, securing about \$300 from the passengers, six revolvers, and a number of watches and rings. The passengers in the sleepers were not disturbed. The robbers when last seen from the train were going west from Dover, all mounted, the leader being upon a mettlesome gray horse. A posse has started from Kingsfisher, the next station, in pursuit of the bandits.
