They Lack Life

There are twins sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being—they lack strength—life—evenness—and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just as well." They won't. They cannot.

AWFUL MINE ACCIDENT

Twenty-two Men Loose Their Lives as Result.

CAUSED BY FIRE DAMP.

Accident Occurred in the Blue Canyon Coal Mine on Lake Whatcom, Washington.

Associated Press. Seattle, Wn., April 8.—A New Whatcom special to the Post-Intelligencer says: News has just been received of a terrible explosion in Blue Canyon Cole mine on Lake Whatcom, seven miles from this city. Ten dead bodies have been taken out, and thirteen men are still in the mine. Every possible effort is being made to rescue them. A steamer has gone out from this city with Superintendent Dunovan, three physicians and ten miners. The mine was inspected three weeks ago and pronounced safe.

Another Account. Tacoma, April 8.—A Ledger special from New Whatcom gives these details of the coal mine explosion there: The explosion from fire damp in the Blue Canyon coal mine on Lake Whatcom at 2:45 this afternoon killed 21 men. W. A. Tolsted came from the mine tonight. He was at the bunkers when the explosion occurred. He went down the incline and found James Kearns at the mouth of the shaft nearly dead with exhaustion. Kearns said all in the mine were dead. He had carried Ben Morgan as far as he was able and then dropped him. Morgan, he thought, was dead. Kearns and Gellum were the only ones who escaped out of 24 who were at work. Tom Valentine and J. O. Anderson were inclined men and they escaped. At a switch of the gangway 500 feet from the mouth of the tunnel, Ecklund and Tolsted found the body of Geo. Roberts, and beyond were three loaded cars which had been blown off the track. They next found the body of Ben Morgan, where he was dropped by Kearns, Ecklund and others. They were unable to go beyond room 21, 500 feet from the angle of the tunnel and gangway. Their safety lamps went out and the gas drove the explorers back. In room 21 they found the bodies of Thomas Conlin and James Kirby. It is supposed that in addition to the four found, that seventeen perished. The gas was so thick that the rescuing party was unable to stay but a few minutes.

The missing men with families are: D. Y. Jones, superintendent; James Kirby, Andrew Anderson, James McGinnis, Charles Silvester, Mike Zilinski. The single men are: Lucas Laska, E. P. Chase, Thomas Conlin, George Roberts, Ben Morgan, John Williams, William Evans, Isaac Johnson, William Lymer, Charles Hamberg, Sam Osen, J. A. Morgan, and Martin Hum. Engineer J. J. Donovan says he does not understand how the explosion occurred as safety lamps were used everywhere out in the gangway. The tunnel is 300 feet long.

PEOPLE WHO OWN FARMS.

Washington, April 8.—A compilation of farms, homes and mortgages statistics made by the last census, is interesting in view of the decision of the supreme court. The statistics do not, however, give details concerning the results paid. The summary of the statistics shows there are 12,690,197 families in the United States, and of these families 52 per cent live their farms or homes and 48 per cent own them, while 28 per cent of the owning families own subject to incumbrance and 72 per cent own free of incumbrance. Among 100 families, on an average, 52 live their farms or homes, 13 per cent own with incumbrance, and 35 without incumbrance. On owned farms there are liens amounting to \$2,132,949,563.

ADMIRAL MEADE'S SQUADRON.

Washington, April 8.—Admiral Meade's squadron sailed from Kingston, Jamaica, for Port Au Prince, Hayti. All the vessels of the squadron accompanied the flag ship except the Cincinnati, which went to Port Antonio. The movement is a radical departure from the itinerary issued the squadron, but it is said at the department that no significance attaches to the change.

A CYCLIST BOUNCED.

San Francisco, April 8.—Oscar Osen one of the best bicycle riders in California, has been suspended by Chairman Welch, local representative of the national racing board, L. A. W., and given 30 days to reply. Osen is accused of selling his prizes, which were holding lots in Phoenix, Ariz.

THE OREGON PACIFIC

Mr. Hammond Talks Freely of His Intentions.

EXTENSIONS CONTEMPLATED

Everything Depends However on the Decision of the Supreme Court—Other News.

Associated Press. Albany, Or., April 8.—A. B. Hammond, one of the purchasers of the Oregon Pacific Railroad, arrived in the city today, and will make a tour of inspection of the entire road. He said Mr. Bonner had withdrawn from the Astoria enterprise, but is still equally interested with him in the Oregon Pacific. The company will be reorganized as soon, he said, as the papers for the incorporation of the new company, now being prepared, are ready. It will be known as the Oregon Central and Eastern Railway. Mr. Hammond is naturally pleased that the new survey has been ordered at Yacquina, and his confidence that this harbor will receive a just recognition and appreciation for further improvement.

As to the new company's plans, Mr. Hammond said: "Our actions are handicapped by the appeal pending in the supreme court, but if that is decided satisfactorily, we will first put the road in first class condition, then will come the question of extensions. If we find the business will justify we will build branches to both Eugene and Salem. As to the eastern extension, we will build that also as fast as business will justify and expect eventually to connect with one of the through eastern lines. I was told in Portland that the eastern end of the road did not amount to much, but instead of this being the case, I can truthfully say that no railroad of the same length in the United States or elsewhere offers so much tonnage in sight as does that part of the Oregon Pacific between Albany and its present terminus. There is in the timber region up the Santiam nine or ten billion feet of timber. There is a great lumber industry to be developed there, and it is a part of our plan to undertake this, which will require better wharfage in San Francisco and the chartering of a line of steam schooners from Yacquina. We have abundant capital to carry out our plans, but cannot go on with them except in a limited way until the appeal case is settled. We expect to build some each year until we finally carry out our plan for eastern connection. I have had reports from Eastern Oregon, and realize that great traffic across the mountains awaits the day of the railroad."

DELAWARE'S GOVERNOR DEAD.

Dover, Del., April 8.—Governor Marvin died at 8:15.

SAN FRANCISCO RACES.

San Francisco, April 8.—Chemuck, 20 to 1, fell in the second race, and Jockey Reeves' leg, arm and collar bone were broken. In the fourth race, Arctic, ridden by Felix Carr, did circus tricks all over the track for a half hour, and then won by an eyelash from Street Alice. Half mile, maiden 2-year-olds—Buddie C., 0:10 1-4. Five and one-half furlongs—C. M. C., 1:58. One mile—McLight, 1:41 3-4. About six furlongs—Arctic, 1:13 1-4. Six furlongs—Captain Con, 1:15. Half mile, maidens—Don Gara, 0:49 1-4.

TO BE WITHDRAWN.

Washington, April 8.—It is stated on good authority that the management of the Northern Pacific Railroad Company has decided to withdraw from sale all lands along the entire line until they are classified and patented according to the terms of the recent acts of congress. The effect of this policy will be to put an end to the settlement of the railroad's lands in Western states for the present.

A. F. A. IN HIGH FEATHER.

Butte, Mont., April 8.—Wm. Thompson, the A. F. A. candidate for mayor, is elected by nearly 1,000 majority, beating E. B. Howell, Democrat and Populist candidate, and J. H. Mordeith, the city's public candidate. The A. F. A.
