THE NEW ASTORIA ROAD.

The Sun is in receipt of late copies of the Cathlamet Gazette, Astoria Herald, Skamokawa Eagle, Astodia Budget, Oregon Mist, of St. Helens, and the Dally Astorian, wnich, one and all, give the most encouraging reports of the rapid progress being made in securing the right of way for the new road, with honorary lists of those donating right of way. It is a foregone conclusion that the enterprising cititens of Astoria and the residents along the Columbia river will soon be able to turn over to Mr. Hammond a c'ear title to the subsidies and right of way donations. Then will be seen the best time in Oregon for many years, and before another half decade rolls around the arteries of transportation will have brought to the rich fields of Oregon new life and new blood to develop her great resources, and her products, when raised, can reach the markets of the world at the minimum cost, thus leaving some profit to the producer. Mr. Hammond leaves for Astoria tonight to look after his interests and see how matters are progressing .- Port-

Cured in 5 Weeks by Cutleura. Now Healthy as Can Be.

My baby boy had been suffering from birth with some sort of an eruption. The doctors called it eczema. His little neck was one raw and exposed mass of rod inflamed flesh. His arms and across and under his thighs, wherever the fat flesh made a fold, were just the name. For four weeks after his birth he suffered with this eruption, and until I got the Currerna Rekendings, there was little sleep for any one. In five week she was completely evied. He was nine weeks old February 1, and you ought to see his skin how amooth, even, and a beautiful pink and white color. He is as healthy as he can be. The Currerna Rescursives him tone, vigot and strength. I enclose his portrait.

WILL BE READILY SECURED

Interview with Hon. C. W. Fulton Regarding His Portland Trip-Mr. Fulton Enthusiastic.

Hon. C. W. Fulton returned yesterdal

morning from Portland where he has een in consultation with Major Mc-Neill, receiver of the O. R. and N Co., and the automeys for that corporation, regarding the right of way through their property on Upper Commercial street. There has been considerable duobt for some time past us to the attitude of the O. R. and N. management toward the Astoria-Goble "A personal friend, whose application railroad, and there were not a few who were ready to believe that Major McNeill would attempt to crowd th right of way as far as possible off their property. It was only a day or two ago that Receiver MoNeill returned to Portland from the East, and upon his DR. O. B. ESTES The result cannot help but prove satisfactory to the people of Astoria, and will do a great deal towards changing

> Yesterday morning an Astorian reporter called upon Mr. Fulton at his office in the Odd Fellows' block and asked him regarding his visit to Portland. He was very busy at the time looking over a stack of letters that had accumulated during his absence, but he spared sufficient time to talk pleasantly of his trip and its more

> "Yes," said Mr. Fulton, leaning back in his chair, and at the same time ossing the letters aside, 'I saw Mr. McNelli and his attorneys, and am happy to say that they made not the alightest opposition to the request for a right of way through their property. it is also worthy of notice that Astoria has no more enthusiastic man re garding the proposed railroad than is Mr. MoNeill. He wants to see the road built into Astoria, and hoped the people of this city would unite in their efforts to have the subsidy and right of way deeds in readiness so that Mr.

Hammond could make an early start. "On account of the O. R. and N. being in the bands of a receiver it will the right of way, but Mr. McNeill will not appear against the suit, and Mr. Joe Simon, who is attorney for the Farmers' Loan and Trust Company, mortgagees of the O. R. and N., has also agreed to make no appearance in SILAS B. SMITH,

'there has been a great deal said in the past regarding the attitude of Portland's business men toward a railchurch, at 11 a. m., sermon by the road to Astoria. The impression has Rev. Dr. Nordvig. At 6:30 p. m., a prevailed that Portland, almost to s man, was against the construction of a line to this city, but if such has been the case in the past, I can safely say, judging from my conversation with a number of Portland's prominent men, that it is a different thing now. I know personally that Mr. Henry Failing has gone out of his way several times recently to do a good turn in securing the right of way between Astoria and Goble. They seem to understand that the building of the Astoria-Gobie road means an immense advantiage over the Sound, and is

bound to benefit the whole Columbia river country. "Mr. Hammond, with a party of gentlemen, among whom is Mr. Thos. Oakes, of the Northern Pacific, will arrive in Astoria Saturday morning. He is highly pleased at the manner in which the people of this city have taken hold of the work during his absence. He is ready to commence the construction of the road just as soon as the citizens of Astoria are ready with their subsidy and right of way deeds. Mr. Hammond will be here seveason why the construction of the

road should not commence before he leaves." "Can you say anything of Mr. Hammond's intentions regarding the Seashore road?" asked the reporter.

"Yes. You can state that Mr. Ham nond will operate the Seashore road his summer. While I am not prepared and trains run into the city in ample ime to accommodate the beach travel this season. There is another matter that Mr. Hammond is very much taken that Mr. Hammond is very much taken up with. He is desirous of securing a first-class thotel for Astoria, one that will be both modern and a credit to the city. He looks for a great influx he city. He looks for a great influx during the next few moreths, and there should be a suitable hostelry for this class of involve the class of involv lass of travelers to stop at.

"There is another thing I want to say," continued Mr. Fulton, "and that is about the good citizens of Astoria I know they are earnestly working to make a success of this affair, and have already done wonders. But there are always a certain element that is sure to pull the wrong way-this sometime through not having a clear understand ing of the attuation-but more often through selfish motives, I hope the people of Astoria will forget all past Stove Repairs a Specialty. differences at this critical time and their word with Mr. Hammond. To do this they must get their deeds to the subsidy in readiness and the right of way through from Young's bay to Gobie. This don and all will go

"In the heart of the great desert of the Colorado—which the Southern Pacific road traverses—there is an cashs called indio, which, in our opinion, he the sanitarium of the earth. We be lieve, from personal investigation, that for certain invalids, there is no spot or this planet so favorable."

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, fill one with wonder and delight.

\* \* Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort, —here is the most perfect sunshine, with a temperature always pleasant, a perfectly dry soil for rain is an unknown factor; pure water. What more can be desired? It is the place, above all others, for lung troubles, and a paradise for rheumatics. Considering the number of sufferers who have been cured, I have no hesitancy in recommending this genial oasis as the haven of the afflicted." (From the San Francisco Argonaut.)
