GOOD WORK IS DONE Three-fourths of the Right of Way Secured. PATRIOTISM TO THE FRONT. Oregon's Opportunity to Head Off the Seattle Fresh Water Harbor at Hand.

That the new road is now an assured fact is admitted by all interested parties, provided the right of way for the last 25 miles of road east of Westport is arranged for. There can be no doubt that the patriotic citizens in this section will come to the front, as have those along the other portions of the route. All petty prejudices and personal feelings should, and no doubt will, be laid aside in the one great effort to advance the general interests of Oregon and the Columbia river valley in particular. The fact must not be lost sight of, however, that Mr. A. B. Hammond has come here with all his arrangements completed for the building and equipping of the line of railroad if his conditions of contract are complied with. First and foremost among these conditions is the one that the right of way must be furnished him clear of all incumbrances. The business men of Astoria have well and faithfully done their part of the work and more; they have given large subsidies of land to the road, have given money for preliminary expenses and are giving their untiring labors for the furtherance of the plan and the successful completion of the enterprise, which means as much or more to the residents along the river and the river towns, as it does to Astoria itself, and more to the state at large than to any particular locality. There is every assurance from Mr. Hammond and from the various committees that all local questions of convenience and harmonization of interests will receive proper attention and settlement.

When it is remembered that this means an outlet for all our products, grain, fruit, lumber, timber, coal, and minerals to the markets of the world, at the lowest cost of transportation; the establishment of the mouth of the Columbia as the port of export for the products of the entire Northwest; the maintenance of a fresh water harbor for the shipping of the world as against the new enterprises on the Sound and the proposed fresh water deep sea harbor at Seattle, which will surely take our business away from us if we do not now meet the situation and stem the crisis at hand, no means should be spared to complete the work so well begun. Another opportunity may never be presented to establish the prestige of the Columbia river and the maintenance of our natural advantages. Now is the accepted time; let all minor things drop for the time being—they will take care of themselves.

Below is the full list of the donors of right of way outside of the limits of Astoria. These gentlemen are the pioneers of the new enterprise, and have their hearts and judgment in the right place. Patriotism and liberality always bring their own reward. To this list will be added the names of other donors as fast as the right of way committee proceed in their work: Howell Lewis, John Gerula, Geo. W. Wood, J. A. Larson, Theo. Peterson, E. K. Gustin, L. Johnson, O. P. Morton, C. W. Bunage, Athanasius Aldrick, F. W. Warren, L. Flanagan, F. Wolf, A. E. Vank, D. W. Burnside, S. E. Hanson, M. W. McFarland, J. T. Smith, H. T. Fisher, C. A BAR-KEEPER SHOT. A South Dakota Rancher Commits the Deed. Seattle, April 23.—Harry Fraser, proprietor of the Northern Hotel bar, was fatally shot this morning by P. D. Page, of Mitchell, South Dakota, owner of a large ranch and member of one of the best families in Milwaukee. Page was making a drink with Fraser and says he had taken two drinks which were drugged, for he became stupid and just remembers a struggle in which he pulled a revolver and fired.

Praser says Page suddenly began talking about two sizes and trousers turning up at dice, and in an instant drew his revolver and shot him. A friend of Page says he had on Monday snatched a draft for \$50 and had \$25 besides, but when arrested he had only \$10 on his person, and he believes that Page had been robbed of \$45, and that Fraser and his friends were drugging him to get the rest.

"LUCKY" BALDWIN. He Files a Remarkable Document in Court. San Francisco, April 23.—E. J. Baldwin, better known as "Lucky" Baldwin, the millionaire horse owner, mining man and landed proprietor, has the suit of Miss Lillian Ashley against him for seduction. The demurrer sets forth that Miss Ashley is a wise woman, acquainted with men and the ways of the world, and should be able to distinguish between sincerity and deceit. Mr. Baldwin states that she knew he was a married man, and unable to keep a promise of marriage. Consequently she did not place reliance in him, though she declares she did.

THE TRIAL CONTINUES. San Francisco, April 23.—There is little, if any, abatement of interest in the Durrant case and Judge Conlin's court was crowded today. It was the second day of the preliminary examination of Theodore Durrant for the murder of Minnie Williams. Durrant appeared a little more cheerful when he awoke this morning. He had had a good night's rest, and good breakfast brightened him up perceptibly. So far nothing new has been brought out by the examination of witnesses, though several things have been developed which seem to make the case against the prisoner stronger. Another female crank appeared this morning. She presented herself at the prison and was admitted to Durrant's presence, and after some conversation with him, most of which was spoken with her mouth almost touching his ear, she left him and went to Chief Crowley's office and said: "He is not the man." She said that she had looked at his head and neck and was positive that he was not the murderer. She said she was a Gypsy queen and the most famous mind reader in the world. She was ejected without trouble.

TROUBLE WITH THE HOVAS. Paris, April 23.—Official dispatches from Madagascar say the Hovas have gathered large forces along the main routes from Tama-Tave and Mojanja. Throughout the island posts with several hundred men at each have been established. A French gunboat has ascended the river at Bealoboka and shelled a Hova battery at Mahabo. Two cannon were captured. The population of the village gathered around the tombs of their chiefs in order to defend them, but on finding the French respected graves, they yielded and asked protection against the Hovas who had another camp of 3,000 men at Maldane, on the other side of the river. Gen. Metzinger, with four companies of infantry and artillery, attacked Maldane on April 3, and routed the enemy, killing 100 and wounding many. The French loss was 35 wounded.

NATIONAL SOLDIERS' REUNION. Caldwell, Ohio, April 23.—A call has been issued for a soldiers' reunion to be held here on June 14 and 15 next, and the political tone injected into the document by the national committee to the effect that the men who saved the government should be a factor in its administration, and the time has arrived when they should get together and formulate their principles and make their demands, has met with considerable opposition.

AFTER SECRETARY MOITON. Omaha, April 23.—The Omaha Live Stock Exchange today censured Secretary of Agriculture Morton "for his erroneous ideas at present working to the great detriment of the cattle interests of the country in creating a wrong impression as to the relative cost of cattle and beef."

A NEW TARIFF LAW PROMISED Will Be Enacted as soon as the European Treaties are Finished—Other News. Associated Press. Washington, April 23.—Japan's right to frame her own tariff rates on United States goods have now accrued under the terms of the new Japanese treaty with the United States, thirty days having expired since the exchange of ratifications. Minister Kurino, of Japan, says, however, that while the object of general tariff law has been considered in the diet, he has not been informed of the enactment of a law. Under these circumstances the Japanese rate on United States goods will remain at 5 per cent ad valorem until the act is passed.

From other official sources it is learned that the new tariff law isn't likely to be passed until Japan has concluded all her new treaties with European powers. It is stated that the new tariff will not be on the line of a high protective policy, but will be a revenue tariff. While Japan has many infant industries, it is said they are making phenomenal advancement. When the new tariff is framed it is understood that its most important features referring to the United States are likely to be as follows: Kerosene oil, which is now the largest item of United States export to Japan, will probably remain at 5 per cent ad valorem. Flour, breadstuffs, canned goods and other domestic necessities will also remain at 5 per cent or be scaled down as the Japanese desire to cheapen the necessities of life. Japan is anxious to get raw material for her flourishing cotton factories, which are turning out a product which competes, it is claimed, with the best cottons of the world; therefore, raw cotton is likely to go on the free list. It is also said that freight rates to Japan are another factor which protects her industries.

IN THE FAR EAST. Russia Concentrating Her Fleet in Japanese Waters. St. Petersburg, April 23.—The Svet declares that Russia has concentrated in Japanese waters 22 war ships, carrying 360 guns and a large body of men. This fleet, it is added, with the French squadron, makes a total of 37 war ships carrying 610 guns. Moreover according to the paper, the Russian army of 20,000 men could occupy Jesso and take Japan in the flank should trouble arise.

A LORD IN TROUBLE. Bakersfield, Cal., April 23.—Lord Sholto C. Douglas, son of the Marquis of Queensberry, was arrested this afternoon charged with insanity. He is a fine looking young man about 20 years old, and has been here several months having charge of 40 acres of land belonging to the Marquis, and since his arrival here up to a month ago, has been an exemplary young man. A short time ago he became infatuated with a variety girl. This morning he went to the clerk's office and obtained a license to marry her. His friends heard of it and had him arrested for insanity. He was drinking and gambling last night, lost considerable money, and gave checks which cannot be honored. He has employed counsel to obtain his liberty.

FURNACES SHUT DOWN. Newcastle, Pa., April 23.—Every furnace in Newcastle shut down this evening, but for how long no one knows. ANOTHER CLAIMANT. St. Charles, April 23.—A few days ago a middle-aged woman visited upon a well-known local attorney and introduced her 17-year-old son as Helen McDermott. According to her story Senator Fair was the father of a son born to her nearly a year before the senator's death. She said that shortly after the child was born the senator, in the presence of her father, mother and some intimate friends, made a statement acknowledging parentage, and a few weeks later a document was signed by which she was to be allowed \$100,000 for the education and maintenance of the child. She produced the document, which resembled the writing of Fair, to support her argument. Subsequent investigation proved the woman to be an adventuress.
