SAMPLE SILVERITE FALSEHOODS

Gov. Altgeld, in his tirade against cheap and money dear, and they have lie League says it would take double Why, inquires J. B. McCullagh, in the Globe-Democrat, did oney value in the aggregate? Is corn a "commodity" in the sense

Corn, which in the aggregate crop, is worth three times as much money sertions. The average price of corn in the New York market in 1879, the sumed, was 49.8 cents per bushel, while paid the president's salary last year than would have been required fifteen or sixteen years ago. Pork, lard, and oats were also higher in 1894 than they were in 1879 or 1878. In the change of has been the gainer, and the president, to employ the himemilie economist's form of illustration, has been the loser, It is altogether possible, of course, that ignorance led the governor and the creditors' dollar," but the proband mendacity was the chief cause.

Senator Stewart cheerfully amists the governor and the bimetallist in ley," says Stewart, "for which you of sleep and appetite. Use the Bitters (the president) have labored so long persistently and not by fits and starts. and so persistently has been establish. Speedy good results will follow. ed, and the money of the United States reduced to the shrinking volume of gold." This 'whrinking volume of gold" reviews is particularly stupid. In at having decided to retire from business least four ways it can be shown to be false. The United States' production of gold is increasing. In round figures it amounted to \$33,000,000 in 1892, to ria, Or., and all persons having bills \$38,000,000 in 1893, and to \$40,000,000 in against them are requested to present 1834. The world's production of gold the same duly verified, to said Frank is increasing. It was \$148,000,000 in 1892, \$155,000,000 in 1893, and \$182,000,000 in 1894. The United States' gold coinage Leepner, Clarion County, Pa., writes: is increment, It was \$35,000,000 in I can recommend One Minute Cough 1892, \$57,000,000 in 1893, and 780,000,000 in 1894. The world's gold coinage is inoreasing, but reliable figures for 1894 are not yet at band. Stewart is more to blame for his membacity than the governor and the himstallist are for theirs, for he knows more.

The latest returns from local Republienn clubs to the secretary of the state league allow more than 200 delegates elected by forty-five chabe.
