

THERE

Are you going to be a lot of well-dressed men in the city this spring—of course we haven't made all their clothes—but we think if you ask every third man you meet where he got his suit—and of course he will say (that is, if it's tailor-made) McDonald's. He may not tell you how much he saved, but you can just look it down that it was worth saving—by the way—he may have on one of our \$35 suits and you'll think it cost \$50—but of course you're judging by what you usually pay others.

CHAS. McDONALD, The Tailor, 523 Commercial Street.

Yesterday the water bonds arrived and tomorrow at a special meeting of the commission to be held at 9 o'clock it will be decided just when the work of construction will begin. There are 200 bonds of a denomination of \$1,000 each, payable at the Chase National Bank, New York City. It is expected the contractors will commence work within a period of ten days. The bonds will be signed on Monday, and shipped to the New York bankers, \$75,000 being the first payment.

During the past week local parties have been too busy looking up railway subsidy and right of way deeds to pay attention to anything else, especially concerning real estate. There are several outside parties, however, who have been making inquiries into the both inside and outside property, and offers have been made on one or two choice tracts of acreage along the new pipe line thoroughfare. When all this hurry and anxiety of the initial steps toward starting railway construction is over, then it is expected the real and every effort made to place the city before the people of the whole country.

The right of way committee were at Mayor's Landing last night where they made a general round-up. A letter to Mr. Frank Parker from Hope Ferguson stated that they had met with fairly good success, but were far from being through with those who were inclined to hold back with anticipation of the day when all this hurry and anxiety of the initial steps toward starting railway construction is over, then it is expected the real and every effort made to place the city before the people of the whole country.

The dispatch from Portland published in another column, stating that ex-Sheriff Smith is known to have boarded a Northern Pacific train on the day when he disappeared, only bears out the theory that has already been advanced by many people here—that Smith had gone from Portland to Tacoma, at which place he took passage on the China steamer for the Orient. It is not probable, however, that he is travelling under his real name if such is the case.

Parties who have lodging quarters in the city are finding an increased demand for rooms. This has been especially so during the past week, many strangers having come into the city in search of work or looking about with a prospect of locating. An en-

Governor McGraw, Fish Commissioner Crawford, and Treasurer Bowen, of Olympia, who went to Beaco Friday to select a location for a fish hatchery, are still on the other side of the bay.

Captain C. A. Abby and Capt. W. C. Condon, both of the United States Revenue cutter service, of San Francisco, were in the city yesterday morning. Later in the day they went to Fort Stevens and made an inspection of the life saving station at that point.

C. D. Fowle, general deputy for the National Union, and his assistant, Mr. Swartout, left last evening for their home in Seattle, after organizing a council of that society in this city composed of about 55 charter members. The affairs of the council here give promise of a strong organization.

Parties who have lodging quarters in the city are finding an increased demand for rooms. This has been especially so during the past week, many strangers having come into the city in search of work or looking about with a prospect of locating. An en-

ouraging feature of this new increase of population is the presence here of a number of gentlemen from various parts of the coast country, seeking for business investment. The Sound cities are contributing not a few of the latter class, and the next few weeks will see several new business houses opened up in Astoria. The signs of the times point to a new and more prosperous future.

Several local capitalists are looking deep into their pocketbooks just now with a view of investing the contents in new buildings. There is an active demand for small modern cottages at the present time, and parties having and abundance of vacant property within the city limits are beginning to realize that they are losing a great deal of money by not having tenement houses thereon. Unless a number of new buildings go up soon, Astoria is not going to be able to accommodate the influx of people that is sure to pour into the city during the next twelve months.

Last evening while a couple of fishermen who have their boat tied up at the barge alongside of Foster's Exchange, were going down the narrow gang plank, one of them missed his footing and took a headlong plunge into the icy waters. His companion quickly ran to the boat and securing a light, came back and the unlucky man was discovered frantically embracing a piling, meantime calling lustily for help. He was with difficulty pulled out of the dangerous predicament, but not until half-choked with tide water.

Judge Gray went to Seaside yesterday and met the people of that city and thoroughly discussed the Cross road law with them. He found a great deal of enthusiasm was displayed by the people of that district who, like all localities in the county, are anxious to get better roads. They will probably file a petition for survey of the Neacanicum and Elk Creek road within a few days.

T. C. Willis and his associates are in the city looking over the ground with a view to giving outdoor athletic sports and Fiesta entertainments during the regatta week. It is certain that unless the northwest takes some action in this direction that Los Angeles, whose citizens this year contributed \$60,000 for the Fiesta, just closed in that city, will next year draw all the people and thousands of dollars from this territory. Astoria, with her new railroad, regatta and growing population is the place of all places for such celebrations and it is to be hoped that Mr. Willis may be encouraged and met with the success that the enterprise deserves.

Mr. John Griffin returned yesterday from a brief visit to his place at Cannon Beach, where he had been, making preparations for the removal of his family to that delightful beach for the summer. During this trip Mr. Griffin could not resist a long-pent-up desire to invade the trout streams of the neighborhood, and satisfyingly caught all he could possibly carry home. He brought a box of the little speckled beauties to Astoria with him, and now all his friends who are fond

of the rod and reel are just itching for an invitation from Mr. Griffin to visit his ranch the coming summer.

A boat race between the Potter, Telephone, Lurline, Dixon, and Ocean Wave during the regatta would be a great drawing card.

Capt. Al Harris, of Ilwaco, has sold his sloop Mayflower, to the Hon. B. A. Seaborn, who has stated that the famous boat will be fixed up and be a cracker jack for August.

Astoria has never seen the time, neither can its citizens imagine what a number of shops, schooners and boats if all designs will be riding the boom of the Columbia river at the next regatta.

Already the secretary is receiving numerous citizens from all over the coast, about the coming great event.

Los Angeles has just concluded a gay time with a La Fiesta, but it will not come near being as interesting as the coming regatta at Astoria.

Mr. T. C. Willis will no doubt give an exhibition of games, battles and ball-boat excursions by flash light every night during the regatta.

A ballroom assemblage with a number of Chinese lanterns by night will be worth going miles to see.

The Portland clubs are all preparing for a sail down the Columbia in August, and are spending time and money building new and painting old boats, to carry away the prizes.

W. J. Culligan and T. F. Pooden, two members of the M. A. A. C. Portland, were in town on Wednesday last and enjoyed a game of handball before breakfast at the gymnasium.

Quite a number of travelling men carry running and gymnasium suits with them lately, as athletic clubs are getting so numerous that they can take their exercise in almost every city.

The want of a running track is very much felt in our city, which makes it very discouraging for our local athletes, when they hear what beautiful grounds other cities have for training.

The new emblem of the A. F. C. boys are getting up are very pretty and unique pins, and the promoters deserve great credit for their untiring efforts in advancing same.

To give a long program of athletics in Astoria quite a number of the boys have to work hard as a glimpse on the program will show some of its athletes have to take part in six or seven events.

A meeting of cricketers will take place at the Occident on Monday night. C. T. Gray and E. O. Palmer are training to go to the bicycle meet in Portland on May 30th.

W. E. Tallant goes to training on Monday to get into trim for the Tacoma games.

Mr. Humphrey has some choice Chinook salmon at his market near Rescuer Hall. He also has oysters that sell at a less price than at any other market in the city. He carries clams and other shell fish, and as a side issue, has a stock of Marshall's famous knitting twine.

La Grippe is here again with all its mid-time vigor. One Minute Cough Cure is a reliable remedy. It cures and cures quickly. Chase Rogers.
