

THERE

Are going to be a lot of well-dressed men in the city this spring—of course we haven't made all their clothes—but we think if you ask every third man you meet where he got his suit—and of course he will say (that is, if it's tall) made McDonald's. He may not tell you how much he saved, but you can just bet it down that it was worth saving—by the way—he may have on one of our \$35 suits and you'll think it cost \$50—but of course you'll judge by what you usually pay others.

CHAS. McDONALD, The Tailor, 53 Commercial Street.

APRIL SHOWERS

Your Mouths, OUR STEAKS

One great basis principle of the Palace Restaurant is mutual dependence. To thrive and grow, each dish must be better than any other's. Our aim is to reach the only roomy trade place, the top. No lower idea can be permitted. And when the top, our top, is reached by any other restaurant, we will lift the top.

REPAIRING IN ALL ITS BRANCHES

When the tide sets one way there is always a cause for it. Woman don't come here to buy roasts, steaks, and all other kinds of meat simply because it's Christensen & Co's.

Of course there are a few, a very few, who buy out of compliment, or from ignorance, but the great mass of housekeepers buy where they can get the best and for that reason we supply the majority of the families in Astoria for they know by experience that we have only the best.

WASHINGTON MEAT MARKET, CHRISTENSEN & CO., Prop'rs.

The Schoolmaster Says

Go to the deserving pupil "Go up head." The Public has said to Grobner & Branch's "Resort," "Go up head. You are the only place in the city where one can go and get a glass of Gambrinus Beer for 5c, and order a fresh sandwich too at the same time. Business men's too every morning.

What About Your Shoes?

Are't they worn out around the sole somewhere? Don't they need a patch on the side? We will make them good as new.

S. A. GIMRE, Kitty Corner from Fisher Bros. store.

A Poor Cigar

W. F. SCHIBBE never made. Don't expect to make, either. But make this—s-a-t-i-s-f-a-c-t-i-o-n of the 72-karat sort has accompanied every purchase of one of the cigars made by him since he began business. We've got the notion that a satisfied customer "cuts a big figure" in building up a business. That's the reason La Belle Astoria takes so well.

Little Giant.

Seems as if half the mothers in Astoria have bought a pair or two of those LITTLE GIANT school shoes for their children. The other half will as soon as they hear of the wearing qualities of those buy are being worn about the city. You can have your choice of leather, kid, grain or calf.

The right of way committee up the river are working hard with the property owners along the line and in many instances are meeting with unexpected success. There are some, though, who have neither a thought for themselves or their neighbors, and are standing firmly out against every reasonable proposition that the committee has submitted. A number of law suits will probably be instituted at once against those parties.

The block on which is located the site of the residence, which is owned by Mr. Lazarus, and he is of the opinion that it would be one of the finest locations in the city for a hotel. Mr. Lazarus expects to visit Astoria very often in the future, as he thinks business in his line will justify his coming.

About the quickest freight record from Chicago to Astoria has just been made by a box, containing oval can machinery, of J. O. Hawthorn. The goods were purchased of G. A. Crosby & Co., Chicago, and shipped the same day. Set the bill of lading was mailed eight days ago. The morning boat from Portland brought a letter containing the shipping receipt, and Mr. Hawthorn, who is in Astoria, thought that in a week or so the freight would be along. He was notified shortly afterward that a box of freight awaited his order at the O. R. and N. dock, but until he saw its contents would not believe it was the goods that left Chicago but eight days before. The box was shipped via the C. B. and Q.

Yesterday afternoon Constable Oberg arrested John Karvonen, a fisherman, for B. A. Seaborn's complaint, sworn to by a fisherman of Kinney's cannery, named Daniel Warena. He is charged with feloniously cutting and destroying a gill net valued at \$300. The substance of the story as

told by the plaintiff is that while fishing near Desdemona mounds shortly after midnight yesterday morning, the defendant came along and without cause, deliberately cut his net in several places, six fathoms in one place and one and one-half in another. Karvonen, when arrested, denied the charge in full, and stated that while fishing at the hour mentioned, he came upon Warena's net, and immediately drew his own net in the boat and pulling away to a distance, anchored and cooked breakfast. He had not been there long before Warena's boat came alongside, and he was accused of cutting the net. Karvonen gave \$100 bail to appear for trial at 10 o'clock this morning.

A gentleman from up the country claims that Mr. Thomas Quinn, who is one of the property owners refusing to donate the railroad right of way, is in a different position from most of the others. His request for compensation is made in consideration of the fact that he owns a large body of unusually fine timber which the railroad will separate from the river and in order to utilize which, he must build and maintain an expensive chute over or under the railroad grade. The committee here do not agree with the above statement, as the engineer's specifications show proper log chutes built over and under the track through the circuit court, to be constructed by Mr. Quinn's property, and not at Mr. Quinn's expense.

Referring to the master of Mr. Tone Smith's misunderstanding with Captain Hallowak as to his right to sell goods at auction as receiver of the circuit court, in conversation with an Astoria representative, Mr. Smith stated in substance on Monday, in the presence of Justice Abercrombie and Constable Oberg, that he had consulted with a number of merchants regarding the sale of the Bryant-Matthews stock at auction, and in most cases found they were opposed to it—though several had said it made no difference to them. In deference to what seemed to be the general opinion, however, he would discontinue such auction sales, and the complaint filed against him would be dismissed.

Mr. J. O. Hawthorn returned yesterday morning from Portland where he has been in attendance at a meeting of the directors of the Manufacturers' Association of the Northwest. Mr. Hawthorn is very enthusiastic regarding the result of the meeting, and to an Astorian reporter said: "I take pleasure in saying that in my opinion it is the right step taken at the right time, and by men that mean so do our state much good. Every man that is a manufacturer in the state, should do all he can to aid this association. Too much cannot be said in praise of the Portland gentlemen who have taken this important matter in hand. They are in earnest, and with the help of the rest of the manufacturers throughout the state much good will be done for Oregon and the whole Northwest. I hope Astoria will do her part when called upon to do so."

Yesterday evening the Bailey Gatzert brought in a party of prominent gentlemen among whom were B. Seely, J. M. Purney, and L. B. Sealey, of Portland, and M. J. Connell, of Butte, Montana. Immediately upon arrival here they boarded the Electric and took a run down to the jetty, stopping at Flavel. Mr. Connell is a large iron merchant of Butte, and a partner of Mr. A. B. Hammond in many of his enterprises in Montana. This is Mr. Connell's first visit to Astoria, and he expressed himself as delighted with what he has thus far seen. He was particularly impressed with the beautiful sight of the thousand fishing boats coming in across the bay in the evening sunlight, their white sails dancing merrily over the water, bespeaking the prosperity of the fishing industry and the contentment of their occupants in their picturesque calling. Mr. Hammond will arrive on this

morning's boat and the entire party will go down to the beach and the jetty, returning to Portland in the evening.

AN OBJECT LESSON.

Tacoma Has Three New Steamers Added to Her Fleet.

The late dispatches state that the Northern Pacific Steamship Company have added three new steamers to their Oriental line running from Tacoma.

In conversation with a prominent traffic man it was stated that this was evidently a move to head off the newly opened line between Portland and Astoria and the Orient inaugurated by the O. R. and N. Co. It is also stated on good authority that heretofore the Tacoma line has been unable to handle the business offered them. Every steamer left more or less freight on the dock for which there was not room. Much of this freight was from Portland shipped by the various flouring mills, and even now, in order to keep contracts, some of the Portland mills have been obliged to arrange for shipment via Tacoma in spite of the fact that the new Portland line will have the first steamer here in about two weeks, because as yet the new line has opened no office, here or in Portland for the issuance of bills of lading.

In view of these facts the gentleman remarked that it would be well for those having matters in charge to hurry matters along a little and also for the merchants of Astoria and Portland to see to it that the new line is well patronized in order that the Columbia river maintain its first place as the port of the Northwest. The completion of the new railroad between Astoria and Portland will be the means of increasing the traffic for the new steamship line, and in the meantime every effort should be made to help both the steamship line and the railroad. Oregon is entitled to the first port on the northwest coast, and will see to it that she has it.
