Telephone No. 64.

In the present aspect of the case it is difficult to see how the state department at Washington can avoid interfering in the Nicaragua matter if the British do not promptly retire from Corinto. The understanding with this country is said to be that England does not desire to acquire any Nicaraguan territory, but only to collect the amount of her claimed indemnity. There are those, however, who believe territory is exactly what the British are after, and that the real animus of her onslaught is not to be found in the Bluefields episode; which is only an excuse for an attempt to gain some sort of interest over the Nicaragua canal. Senator Morgan and many others believe that the Bluefields matter would never have been heard of again had not the last congress committed the United States to the construction of the canal. Hence there is reason why the people of this country should be deeply interested in the action of Great Britain. She may be seeking to pave the way, in case of the completion of the canal, to obtain control over that waterway—to repeat, in effect, the part she played in the Suez canal. If this canal is built—and it will be—it must be under exclusively American control, even if it takes war to compel England to keep her hands off.

Referring to the general improvement in trade and the easier condition of the money market, the last number of the American Geographer says: "The indications are that the tide has turned and that we have passed the lowest point of depression. The rise in leading commodities continues. The advance thus far has been marked in silver, wheat, meat, cotton, petroleum, leather, stocks and bonds. It is idle to say that all these articles have simultaneously advanced as the result of speculation. There are great underlying causes at work which are making themselves manifest. The cessation of the war between Japan and China tends to advance the price of cotton, as both Japan and China are rapidly pushing the development of cotton mills, and have created great quantities in Manchuria, England, owing to the imports already made on the cotton goods trade of England. A few years since, as we were enjoying a ride around and about the magnificent homes in the suburbs of Boston, and commenting upon the many evidences of prosperity, a leading manufacturer remarked: 'This is what a protective policy has done for this country; but God help the rest of the world when China commences to manufacture!' The war just closed is big with portent for the future. It is undoubtedly means greater commercial advantages for all nations; in fact, the Japanese government is reported by cable as having stated that much, in order to quiet the feeling of unrest in continental Europe over the treaty of peace. The raising of wages by the cotton mills of New England, the rise in iron, higher prices for boots and shoes, the improvement in railway earnings, bank exchanges nearly ten per cent ahead of the same time last year—all point to a general improvement in trade and commerce. The rise in the price of exportable products is the greatest possible check upon an outflow of gold, and it is also a factor in stimulating Europe to repurchase American securities which they have been dumping on this market ever since the Saragosa failure in 1890. The old adage, 'It's a long time that has no turn,' is to be again verified, we believe, in the history of the next few years. Prices all along the line have been unduly and unwarrantably depressed, simply for want of confidence on the part of every class and condition. If the present advance does nothing more than to stop the continuing loss of gold and economy it will accomplish a great deal for the present good.

Under the Democratic tariff the importations of wool increased 400 per cent, practically coming in free of duty and depriving our farmers of a home market for their product, while the same law makes these farmers pay a duty on sugar, an article they must all buy.

A HOP, SKIP AND JUMP.

An athletic caper of this sort would scarcely be considered indecorous in one, even of mature age and sedate habits, impelled thereto by excess of joy in recovering his indignation through the instrumentality of Hostetter's Stomach Bitters, foremost among remedies for dyspepsia, biliousness and constipation, a trio of evils usually found in conjunction with each other. As the stomach recovers its tone, and the gastric juices are secreted in healthful plenitude through the agency of this superb restorative, nerve tranquility, appetite and sleep return, and the body gains in substance and the muscles in vigor. For the prevention and cure of malarious, rheumatic and kidney trouble, the Bitters is a most direct and thoroughgoing medicinal agent. Its effects are speedily felt and comprehensive.

Mrs. T. S. Hawkins, Chattanooga, Tenn., says: "Shiloh's Balm 'SAVED MY LIFE.' I consider it the best remedy for a debilitated system I ever used. For dyspepsia, liver or kidney trouble, it excels. Price 75 cts. For sale by J. W. Conn.

EXTENDED SYMPATHY.

"Do unto others as you would have others do unto you," is sympathetically shown in the following lines, the presumption being that sympathy is born, or akin to pain or sorrow: "Gentlemen—Please send Krause's Headache Capsules as follows: Two boxes to Flora Seay, Havanna, N. Dak. Two boxes to Little Wilcox, Brookland, N. Dak. I have always been a great sufferer from headache and your capsules are the only thing that relieves me." Yours very truly, FLORA SEAY, Havanna, N. Dak.

THE DISCOVERY SAVED HIS LIFE.

Mr. G. Callioetta, Druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and lost all the physicians for miles around, but of no avail. I was nearly up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle, and began to use it, and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a trial bottle free at Chas. Rogers' Drug Store, Odd Fellows' building.

Doctor H. R. Fish, of Gravel Mills, Mo., a practicing physician of many years' standing, writes: "DeWitt's Kidney & Bladder Pills have no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly, and leaves no scar. Chas. Rogers."

from taking medicine. They don't like its taste. But they are eager to take what they like—Scott's Emulsion, for instance. Children almost always like Scott's Emulsion.

And it does them good. Scott's Emulsion is the easiest, most palatable form of Cod-liver Oil, with the Hypophosphates of Lime and Soda added to nourish the bones and tone up the nervous system. The way children gain flesh and strength on Scott's Emulsion is surprising even to physicians.

All delicate children need it. Don't be persuaded to accept a substitute! Scott & Bown, N. Y., All Druggists. 50c and \$1.

ASK THEM WHY?

Ask the men who are making imitations of COTTOLENE, the new vegetable shortening, why they give up and try to trade on the merits of COTTOLENE? Perhaps you can guess why.

ASK HIM WHY?

Ask the grocer who attempts substitution, why he tries to sell an imitation when people call for that pure, palatable and popular vegetable shortening, COTTOLENE? Perhaps you can guess.

ASK YOURSELF WHY?

Why should not YOU use COTTOLENE, instead of lard or any other compound, for all cooking purposes? It has the highest possible endorsement; from Physicians as to healthfulness; from Cooks as to superiority; from housekeepers as to economy. Use COTTOLENE and stick to it.

THE OASIS OF THE COLORADO DESERT

A New Health Resort

BELOW THE LEVEL OF THE SEA

Absolutely Dry and Pure Tropical Climate.

Pronounced by Physicians the most favorable in America for Sufferers from

Lung Diseases and Rheumatism

Many Remarkable Cures

The objections urged against Indio in the past by the large numbers who otherwise would have been glad to take advantage of its beneficial climate, have been a lack of suitable accommodation. The Southern Pacific Company, takes pleasure in announcing that several

Commodious and Comfortable Cottages

have just been erected at Indio station, that will be rented to applicants at reasonable rates. They are furnished with modern conveniences, supplied with pure artesian water, and are situated as to give occupants all the advantages to be derived from a more or less protracted residence in this delightful climate.

(From the San Francisco Argonaut.)

In the heart of the great desert of the Colorado—which the Southern Pacific road traverses—there is an oasis called Indio, which, in our opinion, is the sanitarium of the earth. We believe, from personal investigation, that for certain invalids, there is no spot on this planet so favorable.

G. T. Stewart, M. D., writes: "The purity of the air, and the eternal sunshine, all one with wonder and delight. Nature has accomplished so much that there remains but little for man to do. As to its possibilities as a health resort, there is no spot on this planet so favorable."
