ALONG THE WATER FRONT.

Yesterday morning the steamer Queen went up to Goble for a load of brushwood for the jetty.

A number of improvements in the way of wharves, net racks, etc., are being made in New Astoria.

The schooner John Smith was towed outside by the Relief yesterday morning and left for Puget Sound.

The Gatzert yesterday afternoon brought down a large amount of freight for the new oil factory.

The Columbine took on board fifteen tons of Beaver Hill coal yesterday and went up to the buoy depot late in the

passengers, Among the latter were Messrs. Roseburg and John Fox ,who have been down examining the remains of the machinery belonging to the burnt saw mill. Mr. Cohen, of Thiamook, was also a passenger.

Another impromptu diving exhibition was given at Flaher's slip yesterday morning. A visiting steamboat engineer from Washington was trying to walk a marrow gang plank onto the Balpse when he slipped and fell be-tween the steamer and the piles, a dis-tance of fifteen feet. Fortunately he did not come in contact with anything but the water, and after floundering around for five minutes, was fished out and hauled aboard the steamer. A gold watch and chain and a new suit of clothes shared in the bath.

The three masted British bark Kirk-hill, Captain James Brennel, arrived in yesterday afternoon 22 days from Redondo, with 780 tons of general car-go consisting of marble, tombstones, figurehead. The captain is passionately fond of flowers, and has in his saloon over fifty growing plants many of

constinution, sick headache, indiges-tion, or dyspapsia, and kindred di-

REDUCED RATES.

Commencing April 30th and until fur-ther notice the rates between Astoria and Portland via the O. R. and N. Co., will be \$1.00 one way, and \$1.50 round trip. C. F. OVERBAUGH,

What is the use of having a "human form divine" unless you are for it, and drape it and clothe it so as to make it a source of lov to pource! make it a source of joy to yourself and a pride to your friends? Nature sup-plies the form. A. Lake, the tailor at 359 Commercial street will make the raiment. See him.

REDUCED RATES.

The favorite steamer Balley Gatzert leaves Flavel's wharf opposite the Occident Hotel, daily at 7 p. m., Sunday excepted, for Portland.

Fare only 11.00 Fare only \$1.00 one way, and \$1.50 Dr. Price's Cream Baking Powder ound trip.

C. W. STONE, Agent, World's Fair Highest Award.

GRAND TRUNK OFFICIAL.

nsomma No Longer a Terror of the Hard Worker White Palne's Celery Compound Exists—Mr. N. I. Grace Speaks in Praise of It.

One of the clearest complexioned, best looking men in Boston today, says the Boston Globe, is a prominent New England agent of a great rairroad, who England agent of a great railroad, who uses Paine's celery compound spring and fall, and whose wife and children take it daily during the spring months.

Mr. N. J. Grace, of the Grand Trunk, is a modest man, one of the best-liked gentlemen in Boston, and a thorough railroer man.

When asked about the merits of Paine's celery compound, he said he believed in it thoroughly, had used it himself, and in his family for two years with the most gratifying results.

"My boys are using it now," he said, "and I believe there is no belter spring medicine than Paine's celery compound. A touch of rheumatism first urged me to try it, and times after that, when run down, as most every one is at internal them. one is at intervals through the year, I found that it revived the vital spark and made me feel better. Never in and made me teel better. Never in all my experience among men have I heard a remedy so highly spoken of. Friends of mine have used it with splendid results for dyspepsia and liver complaint, while for ansomnia, a neigh-bor of mine tells me that it will banish it in a night? in a night."

It in a night."

Mr. Grace is one of the healthest men to be met with in Boston today. For fully 30 years he has been with the Grand Trunk, yet in all his life he never looked better or enjoyed more freedom from paine than be does today. He is one of the thousands in this city who have reason to believe in Paine's celery compound.

THE CANNED SALMON TRADE.

(All quotations in these columns are F. O. B. from the locality where shipments are made.)

The Columbine took on board fifteen tons of Beaver Hill coal yesterday and went up to the buoy depot late in the aftermoon.

A square rigger was reported outside late last evening. It is supposed to be the American ship Atameda, 163 days from New York.

The men belonging to the Kate and Ann were busy getting provisions aboard for the schooner's sea otter cruise. She salls on Monday.

The ments are made.)

Astoria, Or., noon, 3rd May, 1895.—
Reports to date from all principal trade centers indicate a clearer market for canned salmon than has been shown for many years. The increasing prices of red Alaska, and ready sales at advanced rates are a correct guage on the general emptiness of large purchashing points. At present writing the market for good Alaska rules steady and firm at \$1.07 1-2, with 85 and 90 cents for plink and trash generally. Prices of much Alaska already sold for future delivery are problematical, es-

cents for pink and trash generally. Prices of much Afaska already sold for future delivery are problematical, especially for foreign buyers information being withheld though it is known that good figures have been obtained for large lots. It is an undeniable fact that low priced and cheap goods are beginned in the sohooner has decided to let them stand for eight or nine days before shipping them.

It was arranged yesterday that in addition to the campenter work on the Ecilipse her boilers will also be overhauled and machinery generally renovated when she is laid on the beach next week. The Dalgity Iron Works will make the repairs.

The steamer Harrison came in from Tillamook yesterday afternoon with seven tons of dairy produce and nine passengers. Among the latter were Messrs. Roseburg and John Pox who thave been down examining the remains of the machinery belonging to the burnt saw mill. Mr. Cohen, of are credited to Fraser River. English buyers are tending still further to pri-vate brands, and we hear already of advance sales in that quarter from British Columbia, and Columbia river

British Columbia, and Columbia river pack for the present season, amounting to 170,000 cases. Columbia river canneries will sell more largely to foreign buyers this year than for five years past, and old established packers who have never yet delivered outside of the United States, report their first United Kingdom sales. The Alaska Packers' Association will no doubt continue to advance prices, and markets in all quarters seem in a condition to stand the rise. The first day of May found work on the Columbia river exceptionally well advanced in contrast with the figures of last season, and all canneryemn report fairly good runs of fish, and very early returns, more particularly in the matter of quality. Fish from the opening of the season have been firm, or deep red color, rich in oil, and showing all the characteristics of a late May catch, and considerably forward in every way. In fact, the quality has never been better. Indications point to a failing off of the July catch as a considerably forward in every way.

consisting of marble, tombstones, glass, cement, and miscellaneous material from Antwerp. The Kirkhill reached Redondo from Antwerp after an exceptionally good passage of 115 days, and discharged 1617 tons of general merchandise at the California point, including 500 tons of window glass. This is the second visit of the Kirkhill to Astoria, her first trip here being made three years ago, when she was a new vessel. Her carrying capacity is 2240 tons, and her general construction is somewhat peculiar, with a perfectly straight stem and not figurehead. The captain is passionately found of flowers, and has in his saloun over fifty growing plants many of with a perfectly straight stem and not figurehead. The captain is passionately fond of flowers, and has in his eaton over fifty growing plants many of them rare specimens, collected from all parts of the world. His officers are old hands and most of them have been with him for many years. The crew are twenty in number, and are all well. Captain Brennel is justly proud of his beautiful vessel and declares that the various patents and improvements aboard her make her one of the finest and most comfortable ships affort.

A LARGE WAIST

Is not generally considered a necessary adjunct to the grace, beauty, or symetry of the woman's form. Within the fabody, however, is a great waste made necessary accordin glo the condition of things—continually in process and requiring the perfect action of all bodily functions to absorb or dispel the refuse. When there is irregularity or inaction, ladies who value a clean, pure, healthy body will take Dr. Pierce's Favorke Prescripton—the only remedy for woman which being once used is always in favor.

To those about to become mothers, it is a priceless boon, for it lessens the pains and perils of child-birth, shortens kabor, promotes an abundant secretion of nourishment for the child and shorlers the period of confinement.

Dr. Pierce's Pellets cure biliousness, constitutions the properties of the child and shorlers the period of confinement.

Dr. Pierce's Pellets cure biliousness, constitutions the properties of the child and shorlers the period of confinement.

pretion of nourishment for the child and shortens the period of confinement.

Dr. Pierce's Pellets cure biliousness, constitution, sick headache, indigestion, or dyspapsia, and kindred distance.

The totals will, nowever, be found as nearly correct as it is possible to make them at this part of the seasonstipation, or dyspapsia, and kindred distance.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregorie, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea-the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its I recommend it as superior to any prescription good effect upon their children." DR. G. C. OSGOOD.

Lowell, Mass "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOR, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that known to me." H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the erits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, ALLEN C. SMITH, Pres.

The Centaur Company, 77 Murray Street, New York City.

NEHALEM SAW MILL.

The Machinery Examined by Mr. Fox -Will Probably Rebuild the Mill

Bustling Tillamook City. Yesterday Mr. Wm. Roseburg and Mr. John Fox returned from Nehalem on the steamer Harrison. They made the trip to Nehalem for the purpose of inspecting the remains of the Nehalem MiH Co.'s plant that was destroyed by fire a couple of months ago. Mr. Fox went over the blistered and twisted mediater, were carefully and all ed machinery very carefully, and al-though a great deal of it is ruined, some of it can be saved. The three bollers can be repaired, only one of them being in very bad condition. The them being in very oad condition. The lathe, which was an expensive piece of machinery, was straightened up and will be easily placed in good condition. This particular machine was supposed to be entirely ruined. Both the large and small engines will be saved, though the first mentione d is pretty heally demaged. Mr. For states that though the first mentione d is precent badly damaged. Mr. Fox states that the people of Nehalem are enthuslastic over the prospects of the coming sea-son, now that the mill is to be reson, now that the mill is to be re-re-built. All of the old employes of the mill are perfectly willing to do-nate their labor in re-building the plant, and it is altogether probable that when started it will be hurried through to completton. The re-building through to completion. The rebuilding of the Nehalem mill will give an im-petus to the logging business of the

petus to the logging business of the whole Nehalem country.

After finishing their business at Nehalem Messrs. Roseburg and Fox went to Tillamook, where they remained a day looking over that enterprising and bustling little city. "Among the extensive improvements now hinder contemplation," said Mr. Fox, " is a private water works system for fire protection, to be put in by the Tillamook Lumber Company, of which Mr. George Cohen, one of Tillamook's most enterprising chizens, is president. Fire in. prising citizens, is president. Fire in-surance is very heavy in Tillamook, and the lumber company own about four blocks of valuable property. They concluded it would be cheaper to put in a water system with adequate fire in a water system with adequate fire apparatus than to pay the excessive insurance rate. At the mill a large and powerful pump will be put in, from which 4-mch mains will run the entire length of the four blocks covered by the buildings of the company. Four hydrants, with 200 pounds pressure, will tap this main. President Cohen thinks, with this protection to their property they can safely dispense.

Sure, will tap this main. President Coben thinks, with this protection to their property they can safely dispense with insurance companies. This enterprise reflects great credit on the Illiamook Lamber Company, which is sertainly an invaluable institution to Illiamook. There is one thing I can safely say: Tilkamook has more buildings under course of construction at the present time than any other place of the size in the state."

Mr. Fox was highly impressed with the dairying interests of the Illiamook country, and states that the din of rattiling milk cans in the early morning was really bewildering.

Among the most notable improvements inside the city limits is a new bank building constructed by C. and E. Thayer. The building will be of stone, taken from quarries near the city. "The whole Illiamook country," said Mr. Fox, "presents an air of general presents."

said Mr. Fox, "presents an air of general prosperity."

Work on the government jetty about ten miles inside the bar, is progressing with a full force of men.

show Royal Baking Powder superior to all others. Captain Sweeney, U. S. A., San Diego

Cal., says: "Shiloh's Catarrh Remedy is the first medicine I have ever found that would do me any good. Price 50 cts. Sold by J. W. Conn.

Awarded Highest Honors-World's Fair, Gold Medal, Midwinter Fair.
