They Lack Life
There are twins sold to fishermen
on the Columbia river that stand in
the same relationship to Marshall's
Twins as a wooden image does to the
human being—they lack strength—life
—evenness—and lasting qualities. Don't
fool yourself into the belief that other
twins besides Marshall's will do "just
as well." They won't. They cannot.

HILL'S EUROPEAN TRIP

Two Solutions Given of His Sudden Departure.

ITS BEARING ON ASTORIA.

The Sound Country Making Stru- gious Efforts to Outdo the Colum- bia River Port.

Eastern dispatches from all sources are full of statements in regard to the recent hurried departure for London of "Jim" Hill. It is asserted that two principal causes actuated this last unheralded move of the railway magnate. One is that the faction of the old Manitoba road which helped Hill obtain control of the consolidated Great Northern is now opposing him, and that the Vanderbilts are seeking to get control of the Great Northern. To head off this movement Hill went to Europe. The other reason given is that a meeting was to be held in London yesterday between the representatives of the Villard-Deutsche Bank interests and Mr. Hill. It being understood that the control of the Northern Pacific has been offered Hill, and the Deutsche Bank being anxious to consummate the deal.

It is not beyond the possibilities that Hill will retire from the Great Northern and reorganize the Northern Pacific. If this should transpire, or Hill should take the Northern Pacific in addition to the Great Northern, with his indomitable push and energy and his known kindly feeling for the Columbia river, it is more than likely that he will effect some deal with Mr. Hammond making Astoria the terminus of the great railway system. Anyone can see the immense additional advantages to this city to be derived from such an arrangement. Hill is already interested in the new Oriental steamship line, the first steamer of which, the Chittagong, will sail from Hong Kong the 15th of this month for the Columbia river, and a part of this traffic would no doubt be diverted to the new line at Astoria; division shops and headquarters would be maintained here, necessitating the disturbance of large sums of money monthly; transcontinental freight and passenger trains will arrive and depart; the cattle of the Columbia valley, lumber and coal of the Nehalem, and fish of the Columbia river will find an outlet to the best markets under the most favorable conditions of transportation, and jobbing houses second to none on the coast will be established here. Astoria, in other words, will become a great center of trade and port of commerce, possessing all the natural advantages of a grand harbor for the largest ships of the world, and adequate railroad connection with the interior and across the continent. Who can doubt the future prosperity of the city under such conditions? Only let the mossbacks and obstructionists come to the front, as have those on the Astoria's "Rolls of Honor," and less than thirty days will see the inauguration of the era of prosperity. And that is just what will happen in a foregone conclusion. No loyal man or woman, now thoroughly understanding the situation, and knowing that not a rich corporation is acquiring the right of way, but that it is the people, who have engaged Mr. Hammond to build the road, and by the terms of their contract must first secure the deeds to the right of way and subsidy donations before Mr. Hammond will turn a cloud—it is their part of the agreement that must be carried out. The road is a people's road, to be built for the people, on economic business principles, and the people have not the money to pay for right of way when all are benefited alike.

That the Sound country is alive to the situation is evidenced by the fact that all but \$15,000 of the \$50,000 subsidy for the Lake Washington canal has been raised, and the papers of Seattle are positive that the balance will be in shortly. The people and the papers have worked day and night to secure the money that would insure them a fresh water harbor for deep sea vessels where bottoms will be free from the effects of the salt water and can be properly cleaned, and where what siltings will not be destroyed by the terrible tides. Seattle realizes that with her 80 miles extra distance for vessels coming around the Horn, and the 150 miles towage something has to be done to offset the mouth of the Columbia river when it shall have railroad connections, and she only hopes to "get there" first.

Let not the Astorians be asleep and lose to the Sound the control of the shipping of the Northwest when it is now in their grasp. Another opportunity may not be presented for ages to establish this port.

POLICE MAKE A ROUND-UP.

Early yesterday morning the police brought in about thirty men who had no visible means of support and who were sleeping in empty houses at the Clatsop mill and Kinney's cannery.

In the police court yesterday afternoon before Judge Osburn, charges of vagrancy were preferred against the parties. Considerable interest and excitement prevailed during the session of court. Messrs. Smith and Warren were the prosecuting

RIOTING IN CHICAGO

Four Policemen Were Severely Injured By Strikers.

A STRIKER FATALLY SHOT.

The Police Fired a Volley into the Mob After Which They Fled—Other News.

Chicago, May 8.—Four policemen were injured and one striker fatally shot in a riot at the Illinois Steel Company's plant, South Chicago, today.

The riot followed a mass meeting of the strikers held in Eight-fourth street. About 500 men were present and the speeches became so violent and the men so demonstrative that the leaders were forced to adjournment. The crowd would not disperse, however, and a riot call brought a detail of fifteen police officers, headed by Lieut. Wagner, to the scene. The police ordered the crowd to disperse. The order was met with hoots and threats. There were women among the strikers, during the officers to shoot. The police finally charged with drawn revolvers and were met with a volley of stones and slag. Lieut. Wagner and three of his men fell. The other officers opened fire, sending about 25 shots into the crowd. At the beginning of the firing the strikers fled, four of the leaders being arrested. The wounded are: John Wilkoski, shot through the head; will die.

Lieut. Wagner, cut in the head by the stones. Officer Martin Crotty, clubbed into insensibility; Officer John McCaffrey, badly bruised. Officer Wm. Walsh, head cut badly by stones. None of the policemen are believed to be fatally hurt. After the shooting the rioters gathered in groups, threatening vengeance. The mills were kept under police protection and the company's store of dynamite was heavily guarded all day.

A TWO-YEAR'S SENTENCE.

Eau Claire, May 8.—Judge Bailey today sentenced Embleser Harry B. McMasters to two years in prison with hard labor. He declared the only way to suppress such cases of embezzlement was to strike at the root of public gambling. The Chicago Board of Trade, he believed, had caused more distress, ruined more men and wrecked more families than the civil war, yet it was endorsed by the public and when Senator Washburn raised a voice against it he was thrown out of office.

NEW LAWYERS.

Pendleton, Or., May 8.—The supreme court admitted to the practice of law Senator J. H. Riley, J. L. Austin, J. K. McManus, J. W. Haller, of Pendleton; N. D. Simons, of "The Dalles"; Charles Charleston, of Portland; O. M. Hoffman, of Enterprise; Neil McLeod, of Summerville.

NEW YORK POLICE BOARDS.

Albany, N. Y., May 8.—A bill for the re-organization of the police department of New York city reached the senate today with a certificate of Mayor Strong's approval attached. The mayor says it is accepted by the city in spite of a political party usually in the minority should have a representative in the police board because it has so great a power of control over elections.

RATIFICATIONS EXCHANGED.

Shanghai, May 8.—It is stated that the ratifications of the treaty between China and Japan were exchanged today at Chee Foo. It is reported that Charles Hart, inspector general of Chinese customs, had granted payment of the additional indemnity demanded by Japan as a result of the relinquishment of her claim to the Liao Tung peninsula in compliance with the demand of Russia, France and Germany.

ONE FOR LIQUOR.

Columbia, S. C., May 8.—Judge Simonson and Justice Goff decided today that the provision of the state dispensary law preventing the importations of liquor for private use in the state was contrary to the interstate commerce act and null and void. Judge Goff also declared the registration law unconstitutional.

GENZ FOUND GUILTY.

Jersey City, N. J., May 8.—After being out 16 hours the jury in the Genz murder case today returned a verdict of guilty in the first degree. Genz, who killed his sweetheart, Clara Arnsheim, said as the verdict was announced: "That suits me."

PRINCIPLE APPROVED.

Berlin, May 8.—The Reichstag committee today by a vote of 12 to 12, rejected the motion of Count Von Schwerin, conservative, approving the principle of Count Von Canitz' motion in favor of government monopoly for grain, etc.

THE GOLD RESERVE.

Washington, May 8.—Today closed the third month under the bond contract with the Morgan-Belmont syndicate of New York, and up to this time all terms of the contract have been complied with to the satisfaction of the treasury officials. On February 28th last, the date of the contract, the gold reserve amounted to \$42,785,000, which has since been increased to \$52,581,578, the amount reported today, making the net gift for three months \$9,796,578. Yesterday the syndicate deposited in the New York sub-treasury about \$20,000 which completes its obligations to date, but does not, so far as can be learned, leave any surplus to their credit. The treasury officials say that they have no information as to whether the syndicate is buying gold in the West or not, but they are unable to see how the syndicate could meet its contractual obligations without buying gold wherever and wherever it could.

SCHOONER EARLE LOST.

Victoria, B. C., May 8.—Captain Seward of the sealing schooner Dora Seward, which returned today from her spring cruise, has little doubt from reports they received from Indian hunters of the schooner Earle, that the sealing schooner Walter A. Earle, Captain Louis Magnusen, of this port, was capsized in the open sea on Sunday, April 14th, and every member of the crew lost. On Saturday, April 13th, the day previous, there was a terrible gale and the following Monday the schooner Earle was seen bottom up with her masts gone. She evidently got into the trough of the sea and was capsized. There was no sign of any of the crew. The Earle had a crew of six whites and 2 Indians. The wreck-ers, including the mast and canvas, has been sighted, and it is feared other schooners met the same fate.

AGAIN IN HOT WATER.

San Francisco, May 8.—It is probable that the next sixty days will develop some very exciting scenes in Hawaii. Private information recently received by Clarence W. Ashford in this city states that the Japanese who are numerous on the islands, and who at present are feverish and elated over the victory of their mother country in the war with China, threaten to come forward and become serious factors in the government of Hawaii and the adjustment of its affairs. It is known that among the Japanese now on the islands there are several hundred trained soldiers—in fact, there are enough of them to seize control of the government at any time should they so choose. The natives are restless and dissatisfied and only await an opportunity to fly into the thick of another insurrection.

ANOTHER LEADER GONE WRONG.

Denver, May 8.—Bishop Metz has deposed the Rev. Father Mariano LeFors, pastor of the Mount Carmel church in this city, who was found guilty by the ecclesiastical court of undue familiarity with the women of his parish, dishonour in politics and other unbecoming conduct of a representative of the church. At the trial affidavits from citizens of New Jersey, alleging embezzlement, adultery, gambling, drunkenness and like misdemeanors on the part of the father while he was in charge of a church in that state were presented. It was shown that he had promulgated a blasphemous revision of the ten commandments in which he exhorted his congregation to a method of living far from being in accord with the teachings of the church. He will appeal to Rome.

ILLINOIS FREE SILVERITES.

Springfield, Ill., May 8.—Secretary of State Heinichen, chairman of the state Democratic committee, said today that 29 counties have held conventions and without exception have declared for free silver at a ratio of 15 to 1. "These counties," said Heinichen, "have 43 of the 1075 delegates to the state convention, so that the gold men stand a very poor show of making any fight at the convention. Only one county committee so far has refused to call a convention. I expect the state convention will declare for free silver without a dissenting vote."

SALT LAKE SCANDAL.

Salt Lake, May 8.—A profound sensation was created this afternoon when the Rev. W. D. Mayberry, who has had charge of a congregation here for the past 15 years, and Mrs. W. C. Riley, the wife of a prominent lawyer, were discovered in the minister's study in a compromising position by the police and placed under arrest. The woman gave bonds and was released, but Rev. Mayberry declined and now languishes in jail. Both parties stand high socially and in church circles.

INCOME TAX CASES.

Washington, May 8.—The re-hearing of the income tax case in the supreme court was concluded at 2 o'clock today and the nine justices took the question of the act's constitutionality in whole or in part under consideration. On the 23rd of this month the court will meet, probably for the last time this term, to render its decisions in pending cases, and it is expected its conclusions upon the income tax case will be announced at that time.

MARINE INTELLIGENCE.

San Francisco, May 8.—Arrived—Arago, from Coos Bay; Truckee, from Tillamook Bay; Arcata, from Coos Bay; schooner Letitia, from Portland. Departed—Wellington, from Nualimo; schooner Guide, for Willapa Harbor; schooner Lily, for Umpqua River; schooner or Parkersburg, for Coquille river.

SAN FRANCISCO RACES.

San Francisco, May 8.—Five furlongs—Morven, 1:15 1/4. One mile—Miss Buckley, 1:45 3/4. Five furlongs, 2-year-olds—Her Majesty, 1:30 3/4. Five and one-half furlongs—Commission, 1:28 1/4. Six and one-half furlongs—Thelma, 1:21 3/4.

MILITARY APPOINTMENTS.

Portland, May 8.—General Beebe has decided to appoint Charles E. Roblin, of Salem, judge advocate of the Oregon National Guard.

DELAWARE HALLOTTING.

Dover, May 8.—After taking the 32nd ballot of the day, at 2:30 the joint session of the legislature adjourned till tomorrow. The last ballot stood: Democrat, 11; Republican, 11; Burton, Republican, 8; Ridgeley, Democrat, 9; Tunnell, Democrat, 1.

TRAIN ROBBER GUILTY.

Los Angeles, May 8.—Kid Thompson, the Roscoe train robber, has been found guilty. The jury recommended that he be hanged.

THE FAIR WILL CASE.

San Francisco, May 8.—There was a preliminary skirmish in the Fair will case today without result to either side. The case was continued for one week.
