The Delaware legislature is composed of constituted a majority.

On the other hand the Democrats and Governor Watson claim that the law declares that the speaker of the senate shall become governor. Therefore if Mr. Watson withdraws from the senate he censes to be speaker of the senate, and consequently loses the governorship. The senatorial question is likely to occupy a large amount of public attention months to come. Whether the governor has the right to appoint is a disputed question. If he has, the appointment will be only until the next legislature meets in January, 1896, unless sooner called together by the governor. This latter contingency is not probable, how-

J. Edward Addicks has made good his threat uttered at the very beginning of the contest to prevent the election of a Republican senator from Delaware if he

could not secure the prize himself. Col. Henry A. Dupont, who will make a ontest for the senatorship, is a member of the famous Dupont family who have been manufacturers of powder and other explosives in Wilmington for over a century. He is a son of the late General Henry Dupont, and was born at Brandywine Banks in 1836. He was appointed to the United States military academy at West Point, graduating in 1861. He entered the Fifth United States Artillery and served through the civil war.

SAYS HE WILL BE FREE.

San Francisco, May 9 .- An svening paper publishes a statement made by Theodore Durrant to a friend, in which he said that he would make the greatest legal battle in the history of the state, and predicting that he would soon be a free man. In addition to the three attorneys already engaged, Durrant has retained the well-known criminal lawyer Geo. A. Knight.

"There are a good many things against ne," Durrant is quoted as saying, "but I fear Harry Partridge, who testified that he had answered the roll call for me on April 8, more than any other witness. If Partridge persists in his statement he will hang me, but my attorneys will see him and perhaps he will change his mind."

The prosecution does not understand Durrant's fear of Partridge, whose testimony is corroborated. Durrant denies that he offered the ring to Openheimer, the pawnbroker, or any one else.

MINISTER THURSTON'S RECALL

San Francisco, May 2. The letter had gone past Honolulu and was taken by mistake to Hong Kong. The ground of objection to Thurston was

offense alleged is that Thurston at the Hawaiian legation showed to a corres pondent private letters to himself from Honolulu. The particular letter is said to have criticized Cleveland and Gresham for their attitude towards the January Port Arthur Retained Until uprising. Gresham spoke to Thurston about the matter. Thurston apologized but declined to accede to Gresham's request that the apology be in writing. Frank Hastings, now in charge of the Hawaiian legation, will probably be

> > A GOOD SUGGESTION.

Editor Astorian:-

Permit me to suggest the advisability of oganizing one or more military companies in Astoria. This is the second largest city in the state and in view of the probable large influx of floaters as well as prospectors during the building of the railroad it may be the part of prudence to train an effective militia,

The athletic club is composed of as fine material as could be found anywhere and a military drill one night in the week would prove advantageous as well as a refreshing diversion; besides, it would be a good plan to have a prize drill during the regatta. I would suggest that the gentlemen composing the athletic club consider this matter and form two companies, one of the senior, and another of the junior members of the club. In time of peace prepare for war, etc. H. W.

Is Raised and Their Fresh Water Harbor is Secured --- The Gold Reserve Increased.

Associated Press. Washington, May 9.—An official dispatch from Tokio to the Japanese legation states that the ratifications of the treaty of peace between Japan and China were exchanged at Chee Foo on Wednesday, No change was made in the text of the treaty as originally concluded. Taking into account, however, the recommendation made by Russia, Germany France, the Japanese government has agreed to the renouncement of the permanent possession of the Lato Tung peninsula on condition that the arrangenents regarding the terms and form of the renunciation shall be reserved for adjustment between itself and the government of China. This latter stipulation surrender the peninsula until a suitable indemnity shall have been paid and tha it may have been agreed between Japan little time till retailers are comp and China that the possession of Port Ar- out of current stocks, and are forced to thur would be retained by the Japanese for a term of years leading beyond the data when the indemnity has been paid in full, thus assuring to Japan not alone the payment of the indemnity itself, but a sufficient time to safeguard herself against anything like a war of reprisal. ANOTHER BURGLARY.

Some time during Wednesday night, or early yesterday morning, the residence of Wm. Douglass, keeper of the United States lighthouse buoy depot at Tongue Point, was entered by burglars. A little silver in Mr. Douglass' pocket is all that was missed. Nothing in the house was particularly disturbed and none of the family were aroused. Upon arising about 6 o'clock in the morning Mr. Douglass first learned of the robbery. The entrance was effected by breaking a glass in the kitchen window and undoing the fastening. Many tramps have been noticed in the neighborhood during the spring,

The police department was notified but no clue has yet been discovered. THE SALMON TRADE.

Astoria, Or., noon, May 9th, 1895; Reports from all sources indicate that sales up to date are light and forward movements correspondingly slack. Our New York correspondents continue to quote Red Alaska at 1.07 1-2 with anything from 17 to 20 cents less for pinks and shoddy goods generally. Columbia river standard brands are quoted as follows: Straight Chincoks, \$1.25 to \$1.27 1-2 for talls and \$1.50 to \$1.52 1-2 for flats. The Alaska Packers' Association continue to urge its brokers to sales that will make the stock faster, and as a result we look for a general lowering in all Alaska grades in the near future. The Association has decided to pack three grades of fish under Association labels, and indications are that this departure will be made general in the next few se till the old firm labels are gradually abandoned. In Columbia river spring fish little or nothing is yet doing, and beyoud a few block sales in big prices quoted above, matters are general is construed to mean that Japan will not ly inactive. For reasons stated elecwhere in these columns, it looks as if this quietness would continue for some the late May and June trade. Business for forward delivery, till that time, will remain light. Here, at the center of the industry, there is little of interest to report concerning the past week's doings. On Monday, canners welcomed a large run, and fish came into all the to the boat, with a total pack for the lion of the indemnity and the next two day of nearly 4,000 cases. From that annual installments have been paid, so time, however, there has been a constant possession of Port Arthur even although | mally large April pack has been succeeded by a very quiet May eatch. It is too soon yet to hazard any comparison with last season's pack. A severe storm at the mouth of the river dusing Monday night and Tuboday can be consider us a loss of 5,000 cases of salmon, and the weather continues to remain unset-

tled. Packers are beginning to put up oval cans, and as usual the greatest care is being exercised in the selection of the choicest cuts for this particular style. We hear of offers for ovals at \$1.85 and \$1.87 1-2 according to quality, and there is no doubt that the demand for this shape of pack is on the increase, more particularly in larger centres. The English market is in a strong condition. Representatives of foreign buyers #4 various points report to us a steady increase in demand and a healthy call from retailers all over the United Kingdom.
As announced last week, there continues to be a big forward movement in foreign sales, with none of the trouble that canners are experiencing with home jobbers on the continues of the cont We append the imports into the United Kingdom for the past three years, and it will be noted that the increasing de-mand is very plainly shown. There is every prospect that the foreign sales this season will run considerably over 700,000 cases from all points;

647,190

At the Cascades, the water continues very low and but little work has been done to date, indicating a shortage in the pack of that locality which it may or may not recover as the summer advances. Canners here are shipping slowly, not more than 25 carloads, containing about 3,700 cases having been sent forward. Owing to the easy financial condition in which packers find their business at this end of the line they are in a position to wait until jobbers assume a steader attitude before making much stir in the direction of sales, and advices to this office more particularly from New York, Pittsburg, Chicago, and St. Louis, announce that such a position on the part of cannerymen is fast steadying the market and compelling prices to rule firmer and recede from shaky fluctuations. In orthern waters, Rivers Inlet, the Fraser River, and other points preparations are going on fast for the summer pack. Over 1000 tons of canning material went to Rivers' Inlet last week, and the two salmon canneries at Point Roberts, which are to be operated this year by the Alaska Packers' Association, are being pisced in a condition to handle all the fish that come that way. Generally, resarding Columbia river matters, this has been an off week with the chances in favor of lively movements in all directions in the near future. At the Cascades, the water continues

FELL THROUGH THE STREET. The body of a man, who was afterward identified at the coroner's as that of Oscar Thompson, formerly employed on the steamer R. R.
