They Lack Life

There are twines sold to fishermen on the Columbia river that stand in the same relationship to Marshall's Twine as a wooden image does to the human being-they lack strength-life -evenness-and lasting qualities. Don't fool yourself into the belief that other twines besides Marshall's will do "just az well." They won't. They cannot.

Christian Missionaries at Cheng Tu Butchered.

DANGER IN TURKEY

May Result in Massacre of Nestorian Christians.

London, June 10 .- A special from Shang hal says that it is almost certain that a massacre of all the persons connected with the English, French and American missions at Cheng Tu has occurred. Neither men, women or children have been spared, according to the report. It is admitted that telegrams have been intercepted by the government, the ob-ject being to conceal the news of the massacre. A French gunboat is en route to Wuen Chang to investigate the report.

POSSIBLE MASSACRE. Christians in Turkey Liable to Suffer From Desperate Tribes.

Julfa, Persia, May 7.—(Copyrighted, 1895 by Associated Press—Special Correspond-ence.)—The Turkish government, it is claimed, has just taken the preliminary steps in what may result in a massacre fishing rods of Kurdistan. It is asserted that the government has given orders to starve the independent tribes of Nestorians In the mountain region lying immediately start in with west of Gawar, which may be described as lying about midway between Mosul and Lake Van, about 50 miles west of the Persian frontier. The orders, it is stated, are that no food supplies of any few cents kind shall be allowed to enter the terri-tory of the independent tribes, and mean-ures are said to have been taken to en-

orce these orders to the letter. This action is apparently taken as a means of compelling the independent tribes to submit to the Turkist authortitles no submit to the Turkist author-itles and to pay the tax's demanded by the government, and is regarded as the first ser.ous attempt that the Turks have made to extort taxes from the in-dependent tribes. From the earliest time in the history of So you see we

the Octoman Empire these tribes have been independent of Turkish rule. They have paid no taxes and they have ac-knowledged to allegiance to the Turkish

is taken in some quarters as an indica-tion that the sultan has set on foot a tion that the sultan has set on foot a systematic persecution of Christians In all parts of the empire. The sultan has plenty of opportunity for knowing that the independent Nestorians are too poor to pay taxes, and that many of them make a living by going down into the villages of the other wretchedly poor countries. trymen and begging. These poor creatures, according to the story, are to be starved because they will not share with the sultan of Turkey the scraps of bread the refuse bits of meat, and the odds and ends which they obtain by begging. Their homes are in a wilderness of mountain peakes and narrow, rocky valleys, where nothing will grow except a tuft of broom-corn here and there in the crevices of the rocks on the mountain sides, and a few stocks of millet in a casual square yarks of soil in the valleys.

It is not difficult to forecast the probable result of the starvation of this racof beggars, should the report turn out to be correct. Driven desperate by hun-ger, the people will endeavor to obtain food from Gawar, and other outside dis-tricts, and there will be fights with the Turkish troops; the villages will be at-tacked and some of the wretched people killed, and no man can prophesy where

the persecution will end.

I have just returned from a rapid journey to the Kurdish mountains for the purpose of investigating the report that fourteen villages had been attacked and devastated by a raid of the Kurds last week. The original rumor had it that the Kurds had massacred many Christians and had carried off the worse and tians and had carried off the women and girls to the mountains. After riding day and night to reach the scene of the raid, I at length arrived at the Merguiv r valley, which lies like the bottom of a boat beneath huge mountains covered from base to summit with almost unbroken expanses of snow, all was in this valley that the raid took place. It is said a band of Kurds from the mountains had indeed raided fourteen villages in this valley, but the raid was directed against other Kurds, and not against Christians. There were a few Nestorian Christians living in the valley, but they were not molested in any way. As this was not a race or religious raid, it will probably have little interest outside of

I regret to say that Mr. Paton, the British consul-general in British Persis, is very much in disfavor with the gentlemen who are conducting the Arm revolutionary movements. In spite of the fact that Mr. Paton has been collecting

evidence of the Sassoun and Moesh mas-sacres for the use of the British gov-ernment, Armenians look upon him is a spy. They may go to the length of do-ing him bodily harm.

The closing of the caravan routes to Van has rendered more acute the suffer-ing from famine in the devastated dis-tricts near Van. The only hope of relief is now cut off.

LATEST FROM HAWAIL

Annexation is the Favored Idea of All

ment because the government does not allow the Orientals to participate in pub-lic affairs. The balance of the popula-tion, however, are allowed to vote, with

"Yes, I think that if the United States does not take control of these islands during the course of the next administration, Japan will. But I think that the Howalians realize the complexity of the problem and are in favor of coming in as a territory and not as a state. President a territory and not as a state. President Dole, of the republic, told me that he is in favor of annexation, as the republic must have the support of a strong power and many of the most prominent royalists are also, including Cummings, the leader of the rebellion who is now under \$30,000 bonds, and the English guardian of Princess Kallulani, who has been a pronounced royalist, has lately expressed himself to the effect that annexation is the only salvation for the islanders. In the United States we have many Hawaiian exiles. They are unanimously in favor of annexation, as it would result in the restoration of their rights."

MOOSH COMMISSION DISSOLVED.

Constantinople, June 10.-Advices from Moosh say that the Moosh commission has practically dissolved. The English consul, just appointed at Bitlis, has been instructed to go to Mossh before the com mission leaves, as the Armenians fear a resumption of the attacks if there is no person at Moosh to represent the

Moosh commission was closed Friday, so far as the work of the European delegation is concerned. They were compelled to tell the Turkish delegates that they would have nothing more to do with them. From the first the attitude of the Purks has been invariably and unceasingly disnonest. According to the statements of those interested in the workings of the commission the representatives of the suitan have not manifested honor, truth nor decency. They have made no effort to determine the cause of the outrages in

The rupture between the Turkish and European commission was caused by the refusal of the Turks, on purely farcical grounds, to hear important witness a on matters pertaining to questions at issue. It was evident the Turks were afraid the tissue of falsehoods that they have thrown around the situation in Armersa would be broken down. The European commissioners will call the report of the Turks into question for purposes of as-certaining whether the high officials of any state claiming to be civilized ever have taken the position assumed by the Turks during the meetings of this com-mission. It is only fair to say that their every action has been prompted, and sanctioned or ratified directly by the highest authorities.

CHANGES IN THE TURKISH MINIS.

Constantinople, June 10.-Turkhan Pasna, lake crete, has been appointed min-ister of foreign affairs. Turkhan Pasha has been mentioned as a probable ap-pointee of the sultan to the position of

governor-general of Armenia.

London, June 10.—The Standard comments editorially upon the reported dismissal of General Djedad Pasha from the post of grand vizer and the appointment of Turkhan Pasna to succeed Eaid Pasna as minister of foreign affairs of Turkey. The Standard says this indicates a more favorable attitude on the part of the sul-tan toward reforming the Armenian

EXHAUSTING THEIR PATIENCE.

Odessa, June 10.-Novosti, on of the leading newspapers, says the stupidity of the porte is exhausting the patience of the powers. It will ultimately result in forcing the signers of the Berlin treaty to strip Turkey of all jurisdiction over Armenia, and thus prevent further out-

MANY REPORTED KILLED.

Constantinople, June 10.—Asports have been received that serious trouble has occurred in Mohhoul. Rumors that many persons have been killed have been cir-culated, but it is impossible to verify these statements.

A POLISH FOR TAN SHOES.

Ladies Home Journal. Now that In colored shors are so much worn a hint as to how they may be pre-served indefinitely may not be amiss. A clever little woman of my acquaintance had a handsome pair of very light yellow low bottomed shoes that were rulined as far as apearances went. Her husband was to bring her some dressing, but he would not return until night and she wanted to wear them after lunch. She put her wits to work; wel a soft mustin rag with water into which a few drops of household ammonia had been poured, rubbed it with a little Castile soap and applied it first to the back of the shoe. It worked admirably. The entire shoe was thoroughly cleaned in five minutes. She kept her hand inside the shoe to hold it in shape, and was careful not to wei the rag so much as to soak through the leather to the lining, and also to rinse off well before drying. While damp she smoothed them into fine form, then stood them away for half an hour to dry. Then she took a soft flannel rag and rubbed them well over for a minute or two. This gave them a natural gloss. She has worn these shoes for six weeks, cleaning them in this way three or four times a week, and they are as soft and pliable and presentable as the day she bought them.

A NEW CUNARD FREIGHTER.

From the Boston Herald. The new twin screw freight steamer Sylvania, of the Cunard Steamship company, should arrive tonight. She was ten days out last night, and in view of her large power a much faster trip was an-ticipated.

The new craft was built by the Lon-

don and Ginsgow Engineering and Iron Shipbuilding company. She is 469 feet long over all, 49 feet beam, 42 feet 5 inches deep from shelter deck, and carries 6,500 tons dead weight. There are nine Omaha, June 10.—Major Mortimer Higley, of Cedar Rapids, Ia., is en route from Hawati. Higiey is an intimate friend of President Dote and has been in the republic some time, and asserts that the life of the present administration is very limited unless some of the powers come to the rescue. He says: "They have a thoroughly organized republic in every particular, but the more intelligent class resilize that it is a provisional one, necessarity.

"The sentiment in favor of annexation is strong. The most kindly feelings are cherished towards the United States among the natives, as well as among the rost of the populazion. I predict that if the United States does not annex the Islands Japan will. You know what the effect of the late war was on Japan, It made her jubilant and self-confident. She has 40,000 citizons in the island who have settled there. Besides, the Japanese are rootless under the Hawaiian govern-

The Capitalists Arrive in Seattle From St. Louis.

PRAISED SEATTLE'S PLUCK

Astoria May Make the Same Record -The Unity of Action Will Do It.

Scattle has established her reputation for enterprise, and the people at large know it. The rapid work done in raising the subsidy for the canal that is to give them a fresh water harbor has had its

The representatives of the St. Louis capitalists who are to furnish the money for the construction of the South camil and the filling in of the tide flats arrived in that city yesterday and stated without equivocation that the money was all at hand to carry out the great enterprise, that the subsidy had been accepted and that the work would be pushed forward without interruption. The gentlemen in question are Edgar Ames and George Paschal, the latter being accompanied by airs. Paschal, and they will be the local representatives of the St. Louis interest in the Seattle and Lake Wasningto eral manager and trusiee and the latter as trusiee and secretary, while Heary Semple Ames will be vice president and

eastern financial agent.

Mr. Ames said to a P. I. man; "The St. Louis people interested in this interprise were very much pleased with the prompt response of the people of Seattle to the request for the subsidy of awayon, and it was entirely satisfactory to them. Not only the people of St. Louis, but people all over the country are full of admiration for the public spirit of by he ping this enterprise, and it will undoubtedry he a very variable advertise ment for Scattle all over the world. "The financial arrangements for carry-

pleted, the capital is forthcoming for its peted, the capital is forthcoming for its completion, and we shall go right ahead with it without interruption and without any 'its' whatever. The St. Louis peo-ple insist that the whole scheme be car-ried out; the canal has got to be built and all of the tide lands filled which are covered by our contracts. It is all part of one spaceal scheme.

"The people of St. Louis are very much interested in the country and in the city of Seattle particularly. The committee which came here has February was unanimous in the opinion that this is the scrongest city on the coust, and that its citizens were men of push and energy. Until this proposition was suggested to our people, they knew very little of Seattle, but now everybody is talking of it; all the traveling men we met on the train spoke highly of this city as a good point for business. There will be quit a number of St. Louis people here this summer, both to see Seattle and to go to Maske.

Alaska. "The Northern Pacific is extremely friendly to this undertaking, is very much interested in the city and will closely watch the progress of the work. The carrying out of this work will unquestionably result in a great improvement of railroad terminals here, and that is the reason why the railroads are keeping an eye on it. The management of the Northern Pacific is anxious to remove the feeling which has existed in Seattle against the road, and with that end in view is giving Seattle equal facilities with any other city. "The Northern Pacific is extremely

end in view is giving Seattle equal facilities with any other city.

"A good deal of money is accumulating in St. Louis, and a number of large enterprises are being financed there. The banks are strong, and the people are looking for outside investments."

The difference between the method employed in Scattle, in accomplishing large business enterprises, and that used in a certain city not a hundred miles from Astoria, is painfully apparent. The unity

Astoria, is painfully apparent. The unity of action and harmonious blending of all the diversified interests of a large community in a common channel for the benefit of all, each giving of his means community in a common channel for the beself of all, each stiving of his means and time in proportion to his ability, from the bootblack to the barker, is what made Seattle successful, and will always make any community successful. A young lady of Knappa addressed agit of way committee, in which she says that they have already given the right of way, loo feet wide, to the railroad, and asks how things are progressing. She further says that if there is any difficulty in closing matters up, that they have a fine Holstein cow which they are willing to put up to help secure the right of way. She also states that she has read in the papers about the action of the Seattle people in securing the subsidy for the construction of the canal which is to give them a fresh water harbor and how everybody there stood in together for the general good and that she deduced the moral, "boom." Astoffs can yet have the world admire her enterprise and prosperity, but the breaches must be closed up and all aims and objects fropped except the one all-important one of having all things ready for the builder of the railroad when he shall come. Unity, determination and quick action will what the day—shall the record bear in letters of gold—Eureka!

STATE NEWS.

Interesting Items Gathered From Oregon's Leading Newspapers.

Mr. John Sewell is summer-fallowing a thirty-acre field by planting it to a plow crop, says the Hillishoro Independent. What he has chosen is white navy beans. In May he plowed and pulverized

a good stand of beans. These he will thoroughly cultivate with a horse hos. Thus the land will be kept clean of weeds, and this fall he will have a crop that will more than pay for the labor bestowed. There is another advantage with beans. Next year he will not be annoyed with a volunteer crop, as is apt to be the case with potatoes and some other vegetables used for fallowing.

The sherfil has advertised to sell the Ashland mine at public sale on July 8, to satisfy judgments aggregating something more than \$20,000 and representing claims to that amount assigned to Risney & Prayost and T. K. Bolton, against the four claims comprising the property, and against P. B. Sinnott and Penumbra Kelly, as trustees. The mine was worked on a small scale under receiver J. T. Rogera and rielded well for the work done, but operations had to cease a week ago, when execution was issued. The mine is developed to a depth of 600 feet but money was spent in extensive developments.

day afternoon. He had been falling for several years and his death was not en-tirely unexpected. The funeral services took place in Dufur Thursday, and the remains were then taken to Portland for interment Saturday in Lone Fir cometery. He left three sons and one daughter, all residents of Wasco county.

resentatives of eastern capital have made a proposition to build a factory of \$50 tons per day capacity, provided the people will give a bonus of 4,000 acres of land located within a radius of six miles of the city. Meetings are being held in the schoolhouses about Palouse with the hope of securing the bonus.

Palouse City is making a gr

Next week M. Herrick expects to kill and can several Oregon cayusts, says the Times-Mountaineer. He has recently received a copy of a London paper which comments favorably upon his novel industry, and he thinks the wide advertising given him by the press will do much to establish a market for web-foot horse flesh.

A fire at Sherwood, Washington county, on Sunday, destroyed the following business buildings and contents: McConnell & Her's store, loss \$1,200; Sherwood public hall, loss, \$1,500; George Young's barber shop, loss, \$400; Southern Pacific company's depot and toolhouse, loss, \$200; Sherwood hotel, loss, \$1,600.

June 18th, says the Salem Statesman, will be an eventful day for Oregon. That day the supreme court has set for hearing the O. P. case which it is to be hoped for the good of the country, may be decided in favor of capitalists who will improve and extend the orphan road.

A child of Charles Manning, of Lewiston, was poisoned by sucking the sap from common milkweed. The little sufferer was afflicted with paralysis, which began at the feet and extended upwards, causing death in 34 hours. Within the next thirty days Jesse D. Carr, represented by his son, will deliver 1,500 stock cattle at the Huntington shipping yards, These cattle are being driver from Southern Oregon and Northern California.

Highest of all in Leavening Power.-Latest U.S. Gov't Report
